I have heard there is a proposed 300% rate increase in our water rates. I am asking you as a senior citizen on a fixed income to reconsider the effect this will have on those of us that can't afford such a drastic increase. We all know that things increase, but 300% is way out of proportion. My social security surely does not keep up with these increases. I'm sure many other seniors, such as myself are in this same category. We just can't afford a rate increase of this size. I'm sure it will also hurt the businesses in the area. I'm asking that you please reconsider this increase. Thank you for your consideration.
