Javenport FL  
33837

Docket No:  
2019 0071-WS

Dear Sirs

I am William "Bill" Bayer, a member of Fawn Ridge. We have been informed of a very large water cost increase due to a 36,000 gallon a day water loss. Where did it go? I know our water meter at Fawn Ridge is read daily. Why are we being billed for the loss when Fawn Ridge has not lost any water?

There are many of us at Fawn Ridge on a very limited income... And it is only getting worse with increase medical cost and Prescription Cost.

I recently lost my wife of sixty years so I have incurred funeral expenses. I have a handicap son that I also help support since Social Security does not cover all the expenses for him to live in the group home.

Why did it take so long to find the water loss? Who is Responsible?! Where's the justice? I believe Fair is Fair.

The Right thing should be done. Please vote NO Regarding the 300% increase

Sincerely,  
William H. Bayer
