Subject: FW: Electric Cost's should be lowered now...

Good morning Ellen,

We received this email in the office account yesterday and I wanted to send it over. Please let me know if you need anything from me!

Best regards,

Hannah E. Barker

Subject: Electric Cost's should be lowered now...

With Oil Dirt Cheap now and staying that way, why are FPL and Duke not lowering all the electric cost's since that is what they are using to make electricity? Trust me as I live next to the St. Johns River Plant in Volusia County and smell it burning heavily now daily...
Thank you and please reply, Robert Carroll.

RE: FPSC Inquiry 1336014C

Dear Mr. Carroll:

This is in response to your E-mail to Chairman Gary F. Clark, Florida Public Service Commission (FPSC), regarding Florida Power & Light Company (FPL) and Duke Energy Florida (DEF). Given the nature of your concerns, Chairman Clark believes it would be appropriate for the specialized staff of the FPSC's Office of Consumer Assistance and Outreach to respond directly to you. You expressed a concern about FPL and DEF's fuel cost.

On April 1, 2020, and April 2, 2020, FPL and DEF, respectively, filed petitions for a mid-course correction to their fuel adjustment factors. The FPSC will make a determination on each petition at the Commission conference on April 28, 2020. You may use the following link to view the Commission conference:

We appreciate you sharing your views and will add your comments to the correspondence side of Docket 20200001-EI.

If you have any questions or concerns please contact Ms. Ellen Plendl at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Shonna McCray
