Electric & Gas Utility | 2602 Jackson Bluff Road | Tallahassee | FL | 32304 | 850-891-4968

May 26, 2020

Clerk's Office  
State of Florida Public Service Commission

Dear Sir/Madam:

The following pages are the City of Tallahassee Utilities' responses to the "DN 20200000-OT - Review of the 2020 Ten-Year Site Plans for Florida's Electric Utilities - Data Request #2" pursuant to the request received from Florida Public Service Commission (FPSC) Staff member Ms. Patti Zellner. Please note that copies of all narrative and non-narrative responses have been separately provided to Mr. Doug Wright and Mr. Donald Phillips in the FPSC's Division of Engineering via e-mail per Ms. Zellner's request.

If you should have any questions regarding this report, please feel free to contact me at (850) 891-3130 or [paul.clark@talgov.com](mailto:paul.clark@talgov.com). Thank you.

Sincerely,

Paul D. Clark, II  
Principal Engineer

1. Please respond to the following questions based on City of Tallahassee Utilities' best information available:
  - a. Referring to Schedules 2.1 and 2.2, please discuss how the Company's Forecast of Energy Consumption (GWH) of each customer class (Residential, Commercial and Industrial) would be expected to change (i.e. increase, decrease, and to what degree, in general terms) if updated to reflect the impacts of the COVID-19 Pandemic for 2020.

*The City of Tallahassee Utilities' (TAL) believes that it is too early to confidently predict how and to what extent its 2020 forecast of energy consumption of each customer class might be impacted by the COVID-19 pandemic. We continue to monitor impacts to date and predictions for the resumption of customer and economic activity consistent with those prior to the pandemic for use in evaluating the need for revisions to our load forecast process.*

- b. Referring to Schedule 2.2, please discuss how the Total Sales to Ultimate Customers (GWH) would be expected to change (i.e. increase, decrease, and to what degree, in general terms) if updated to reflect the impacts of the COVID-19 Pandemic for 2020 through 2022.

*TAL believes that it is too early to confidently predict how and to what extent its 2020 forecast of total sales to ultimate customers might be impacted by the COVID-19 pandemic. We continue to monitor impacts to date and predictions for the resumption of customer and economic activity consistent with those prior to the pandemic for use in evaluating the need for revisions to our load forecast process.*
