Good Afternoon, Ms. Solache.

We will be placing your comments below in consumer correspondence in Docket Nos. 20200053, 20200054, 20200055, and 20200056, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Subject: Docket Nos. 20200053, 20200054, 20200055, and 20200056

Dear Commissioners:

On July 7th you have an important decision before you when you consider the approval of proposed energy efficiency programs for the state's biggest power companies – including efficiency programs for low-income customers.

Given the current COVID19 crisis and the economic fallout, the high energy burden our low-income neighbors are suffering, we must place an even greater value on cutting energy waste. Ultimately, it's the cheapest, quickest and cleanest way to meet our energy needs.

It is unwarranted that PSC staff is recommending scaling back proposed programs. I strongly oppose this shortsighted recommendation. I urge you to direct the utilities to expand programs to meet the needs of the many hard-working Florida families.

The staff's recommendation would block proposed programs that are proven to deliver real savings to customers and are, in fact, readily available all across the country. Even further off the mark, the recommendation that low-income programs be scaled back is particularly cruel. With Covid-19 and the economic downturn, helping customers slash unaffordable energy bills is more important than ever. Now is not the time to abandon our families.

Therefore, I ask that you reject your staff's recommendation and ensure that each utility is putting forth robust efficiency programs – especially for its most vulnerable customers.

Best,
Anaruth Solache
