Dear Commissioners,

As a concerned citizen I am asking you to **not** scale back the proposed energy efficiency programs in your upcoming July 7th meetings. All Floridians deserve a safe, healthy, affordable home and these programs are essential to meeting that.

During this crisis, when people need to be sheltered, taking away resources from these programs is cruel. Instead, more resources should be allocated to programs like this to invest in the well-being and prosperity of all Floridians. Please reject your staff's recommendation and instead ensure that each utility is putting forth robust efficiency programs, particularly in service of its most vulnerable users.

With hope,

Nicky Zarchen
