Dear Commissioners:

Do not scale back the proposed energy efficiency programs in your upcoming July 7th meeting. These programs are so critical, now more than ever, to ensure that households in Florida have affordable, healthy homes. Particularly in a time where we are being asked to shelter in place, rolling these programs back in unconscionable. Rather, you all should be expanding programs to meet the needs of the many hard-working Florida families. Please reject your staff's recommendation and instead ensure that each utility is putting forth robust efficiency programs – especially for its most vulnerable customers.

Best,
Zelalem
