CUSTOMER COMMENTS

Our water has never been very good. We always have to buy bottled water for drinking and cooking. It either has a smell or to much bleach or not enough. Most of the people I know have to buy bottled water and that is an expense. An expense we shouldn't have to have if our water tasted good. I would like to have a back-up generator for when our electric goes out. We have no water for flushing toilets. All we want is good drinking water. When he provides that, then I think "maybe" an increase. I think were paying thank you! to much.

Sally LaBarr
