Subject: Protect our solar rights! Docket: 2020-0000

Dear Florida Public Service Commission,

Dear Commissioners,

Please do not succumb to pressure to restrict net metering! I have relatives that have solar panels on their house in other states and being able to be part of the energy solutions has been very good for them. I have been interested in pursuing solar power for our home. Please help keep solar power alternatives viable for citizens and do not let power companies protect their monopolies.

The middle of a public health and economic crisis is not the time to create more uncertainty by making changes to solar rights that will hurt jobs and take money out of people's pockets.

People and businesses across the state rely on common sense solar policies to take control of their own energy, and choose how they power their lives.

Solar panels and batteries contribute to the resilience of the electric grid. As we enter hurricane season, Floridians need more tools – not less – in order to weather all the storms that are coming our way.

Please defend solar workers, business owners, and homeowners from additional uncertainty by preserving net metering here in Florida.

Sincerely,

Jacqueline Rogers
1420 Ridge Way Cantonment, FL 32533-7991
