Subject: My Family supports Solar Choice in the Sunshine State - Docket: 2020-0000

Dear Florida PSC Commissioners,

Our current net metering rule allows Floridians to grow a segment of the solar market by choosing to power their homes and businesses with Florida's number one natural resource, sunshine. Florida citizens and customers overwhelmingly support the current successful net metering policy allowing compensation for the solar energy they generate and provide to the electricity grid.

Please protect the opportunity for business and homeowners to generate clean solar power and support local jobs by preserving our successful net metering rules here in Florida.

Thank you for your attention.

Sincerely,
Michael Coleman
