Dear Director, Office of Commission Clerk,

Thank you for taking the time to read my letter regarding Utilities Inc. of Florida.

In the past 7 years my water bill has increased over 110%. Received notice, September 4th, 2020 with a request for another rate increase from said company.

It would be greatly appreciated to determine how this company justifies rate increases? As a consumer on a fixed income my concern runs deep. Is there a possibility the commission could review the history of rate increases requested by this company?

Please do not hesitate to recommend a path that may benefit our goal to reduce utility costs?
Thanks.

Sincerely,
Steve
