Good Morning, Tina Burke

We will be placing your comments below in consumer correspondence in Docket No. 20200000-OT and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brian Schultz
Commission Deputy Clerk II
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, Florida 32399

Subject: I support Solar Choice in the Sunshine State - Docket: 2020-0000

Dear Florida PSC Commissioners,

DO NOT roll back net-metering! The profits of a monopolizing entity should NEVER come at the cost of the Americans footing the bill! I'm tired of padding the pockets of corporations and utilities just because they know we don't have any other company to choose from! Just for the fact that we cannot shop around and negotiate the cost of our electricity; we should be allowed to use whatever means necessary to save money and limit the impact on our environment! The power companies profit is NO REASON to roll back anything! The voters chose net-metering and the voters should be the ONLY ones to change it! Americans can barely pay their bills as it is and the power companies only concern is a little dip in their profits!?! LOOK UP AND SEE WHAT THE CEO'S of Floridas power companies make! It's disgusting! We make less than \$40k and manage to survive!!!

As we struggle with a global pandemic, an economic crisis, and an active hurricane season, it is not the time to create more uncertainty by signaling a change in solar policies that are helping to make our state a leader in clean solar power and providing good paying local jobs.

At the start of 2020, Florida was ranked 4th in the nation for solar energy production, employing thousands of people and powering the Sunshine State with clean, affordable, homegrown energy. The economic downturn has already put many of these jobs and future solar development at risk - we don't need sudden regulatory changes in solar policies to create even more uncertainty here in Florida.

Our current net metering rule allows a number of Floridians to grow a segment of the solar market by choosing to power their homes and businesses with Florida's number one natural resource, sunshine. Florida citizens and customers overwhelmingly support the current successful net metering policy allowing compensation for the solar energy they generate and provide to the electricity grid.

Please protect the opportunity for business and homeowners to generate clean solar power and support local jobs by preserving our successful net metering rules here in Florida.

Sincerely,
Tina Burke
