Dear Florida PSC Commissioners,

I have no doubt that we must quickly address global warming.

But you on the other hand, if you disagree, you have doubts, but why would you play Russian roulette with you children's future, with the future of all our descendants generations to come, and with the Earth! Why take a chance on such an hugely enormous event! The consequences are so huge! Why in God's name would you risk it?!

Sincerely,
Michael Loos
