Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

I operate a nationwide before and after school business that like many other businesses is suffering due to the pandemic. This is a case of especially bad timing for all constituents. Only absolutely essential costs and expenditures

should be passed on to the consumer at this juncture. With unemployment at levels not seen in years and a pandemic that is limiting jobs and income this is not the time.

Thank you for your kind consideration of my issue and the issue of many other Floridians.

Sincerely,

Brett Prilik
