Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

I'm a retiree on a fixed income and I am concerned that a plan of this magnitude has not been adequately reviewed for its benefits to consumers versus the future cost increases we will have to absorb .

Utilities should be investing in technology that will help reduce costs to consumers rather than burden their clients with cost increases.

Sincerely,

Mr. Breen Blaine
