Subject: I support Solar Choice in the Sunshine State - Docket: 2020-0000

Dear Florida PSC Commissioners,

We are getting ready to install solar panels and no one should tell me that I cannot generate my own electricity on my own property.

It is already enough that the greedy power companies have limited the amount of power I can generate on my own by forcing me to carry a ridiculous liability insurance amount.

Furthermore, as we struggle with a global pandemic, an economic crisis, and an active hurricane season, it is not the time to create more uncertainty by signaling a change in solar policies that are helping to make our state a leader in clean solar power and providing good paying local jobs.

Please protect the opportunity for business and homeowners to generate clean solar power and support local jobs by preserving our successful net metering rules here in Florida.

Sincerely,
Nicolas Bigosinski
Casselberry, FL 32730
