Florida PSC PSC PSC
FL

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

I am a customer of Gulf Power. As I am nearing retirement, I do not want to incur additional costs that benefit only a small fraction of electric customers. I am an registered professional engineer in the State of Florida and have a background in infrastructure. I am deeply concerned that these plans do not modernize electrical utilities or reduce grid dependence. Thank you for your consideration.

Sincerely,

Mr. Charles Bailey
