Florida PSC PSC PSC

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

Why doesn't the Storm Protection Plans consider any modern options for reducing grid dependence, such as: solar, wind, or a more decentralized electricity system?

How is it that none of the Storm Protection Plans comply with the PSC's own Rules (25-6-030) for such plans?

The plans appear to be about utility profits, not storm protection!

Sincerely,

Mr. Joe Pohedra
