Subject: Stop the Electric Utilities' Boondoggle (Docket 20200092-E1)

Sep 22, 2020

Florida PSC PSC PSC
FL

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

To Whom It May Concern:

I am a Florida resident , I have watch our utility companies and county utilities charge us (the consumer and residents) extra for the future plans of their utilities.

The county charged us for putting in reclaim water lines to move the reuse water from the sewage plants to the GOLF COURSES and dug right in front of my residence to lay the pipe, when asked if I was going to be able to utilize this water I was told "NO". So why am I paying for someone else to get the service that I am not getting?

And I am sure that we all heard about the "Nuclear Power Plant" that we were charged a fee to help them build the system in

20 years and that never happened but yet we still paid for it. Now there is a plan for the power companies to upgrade their system but not all will reap the benefits and yet all will pay for it.

Profits will be made at the users expense while investors will reap the profits for not putting their own money into it and politicians will say nothing as pockets are lined with tax payers money.

So apparently investor means "nothing more than scammers, scandals and politicians" as they are not investing their own money but paying politicians instead so profits would be greater.

Where else but in this country or a dictatorship country can the people pay for everything and get nothing.

Pleas help to make this right for all people involved, especially the consumer.

Sincerely

Anita Berenguer
