Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

As a fully retired fixed income husband and wife, we cannot afford to see our electricity rates increase! Especially for a B.S. deal as you

are proposing. No real benefits to 90% or more of the residential users! If your proposal goes further, I will contact every State Senator and Representative to have it eliminated and order a full investigation as well as how to eliminate your monopoly on our electrical services in the state of Florida. You have the tiger by the tail here and are releasing the full power that you cannot control.

Please do not continue with you idiotic proposal.

Sincerely,

Mr. Donald Masingale
