Subject: RE: Make no change in Public/Regulatory Policy on Solar - Docket: 2020-0000

Good Morning, Chris Saribay

We will be placing your comments below in consumer correspondence in Docket No. 20200000-OT and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brian Schultz
Commission Deputy Clerk II
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, Florida 32399

Subject: Make no change in Public/Regulatory Policy on Solar - Docket: 2020-0000

Dear Florida PSC Commissioners,

I'll save you the long message. The people have already spoken - in 2016 - about utilities restricting access to (and the right of the public to seek the benefits of) solar, striking down amendment 1 by voting no on the ballot.

Public sentiment has not changed. Net metering is still supported. There is not a legitimate compelling reason to change policy on solar energy - other than the utilities being placed in a more advantageous position to make more money. It doesn't seem that any of the electric utilities are lacking in the profit department - so why hurt the public?

I ask that you not change public regulatory policy on solar or on the availability of net metering.

Sincerely,
Chris Saribay
