Subject: Docket #20200051-GU

Dear respected members of PSC: Please consider that these proposed rate changes (increases) are not in the best interest of the consumers of Florida. This comes at a time of great economic distress for both private consumers and businesses (especially small businesses) hit hard from the impact of COVID-19. If any increase in these rates must be forwarded, I beseech you to greatly reduce the proposals to a least one fourth the amounts requested. The economy is very fragile right now to all but the most affluent. These increases need to be reduced or eliminated entirely at this time. Thank you, Leonard R. Matula
