Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

I do not agree with the SPP Plan - Electric rate are high enough now and many families are on very limited income. An extremely large percentage of people would not benefit from this. The Utilities would be the only ones that would benefit by super large profits.

Sincerely,

Mr. James Davis
