Subject: Stop the Electric Utilities' Boondoggle (Docket 20200092-E1)

Sep 23, 2020

Florida PSC PSC PSC
FL

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

Florida Public Service Commission
Docket # 20200092-E1

Re: Duke Energy Storm Protection Plan

I am totally against this pay-before -you -play profit scam again by the electric power (Duke Energy) monopolies in Florida. It seems there is no opposition in Tallahassee to any request for rate hikes for any obscure reason. As for underground service, I have underground service and was without power for 8 days during Hurricane Irma.

I'm still trying to rationalize how Duke Energy charged us for years in advance to build a nuclear power plant that never was commissioned and now charginging us even more to tear it down. Are we sure that electric power companies are not government entities? Thet sure act like it, except for the "profit" part.

Anyway, I disagree with this obscure feel good plan to line the pockets of the CEO's of these manopolies.

Sincerely,

Duke's captive customer
Milton Hostetter
