Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

Please do not approve the SSP utility increase. Instead, let's ask for specific issues and plans to resolve. I live in a populated area just outside of Tampa and my electricity goes out several times each month, sometimes just long enough to have to reset everything and sometimes for hours. I've lived in Florida for 40 years and my electric service keeps getting works yet the price of service keeps going up!.

Sincerely,

Mrs. Patrice Cunningham
