Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

This message re docket number 20200092-E1. We have already had to pay for the failed nuclear plant repairs and closures. Why should we have to pay investors? The idea of investment is that you take the risk and earn the reward. You want Duke Energy Customers such as us to help pay to invest in a boondoggle that benefits investors more than consumers.

Remember your job is to protect consumers against monopolistic moves such as this one. As a retired individual, I already am keeping my thermostat up to try to save. I respectfully ask you to vote against this initiative.

Sincerely,

Mrs. Betty Self
