Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

There is no way Duke Energy will ever mitigate storm damage where I live on the west coast. They can't even keep the power on in a thunderstorm. This piece of legislation is nothing but a canard to charge consumers more money for the same lousy service. They don't even keep the tree branches trimmed around the power line down to my subdivision. Bury the line? Never going to happen. And I live just three miles from U S Highway 19.

Sincerely,

Mr. L. Guerry Dobbins
