Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

Stop the Electric Utilities' Boondoggle (Docket 20200092-E1)

I purchased a new home and paid for having the utilities under ground and safe from storms. I don't thing it right for me and others in this community to have pay to fix others subject to storm damage. If there is a catastrophic storm and damage then the utilities would certainly expect to be reimbursed for the extra cost associated with fix but not before there is damage that is what insurance is for. FP&L should not receive money for events that might happen in the future and might not happen but we would be expected to pay any way.

Sincerely  
Christopher Anderson
