Subject: Stop the Electric Utilities' Boondoggle (Docket 20200092-E1)

Sep 30, 2020

Florida PSC PSC PSC
FL

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

Seniors are trying to live on savings while interest rates are extremely low so shouldn't be subsidizing profits on a plan with no accountability or transparency of cost/ benefits. The utilities are not aggressive enough in tackling carbon reduction and should not be rewarded for this failure. Where is the accountability? Where is the consideration for carbon reduction? Where is battery storage increases?. Where are the details on what customers benefit and what customers pay for the plan? Do a better guiding the utility industry into our future.

Sincerely,

Ms. Therese Eby
