Subject: Residents of South Florida Can't Survive Without Power!

Dear The Public Service Commissioners,

I am writing you this letter in concern for the economy, my family, and my home. I have a concern that I need you to hear from an average person trying to make it through these hard times.

The COVID-19 pandemic has impacted our lives in several ways. Many Floridians have been forced to make tough decisions including whether to pay for utilities, rent, or food. Now, Florida Power & Light (FPL) has decided to put the needs of our community on the back burner and move forward with the disconnection of power services. This is inhumane and unfair!

We're urging you to do something about it, and demand Florida Power and Light (FP&L) to halt any disconnection of power services scheduled to take place. As the pandemic continues to impact communities in Florida, the decision to move forward with disconnections will add more distress to Miami's working-class communities that are already susceptible to the health and economic impacts of COVID-19.

We're asking that you urge FP&L to stop disconnections, provide legitimate relief to South Florida residents including bill forgiveness and formally suspend shut-offs through the end of 2021. We need power, and our families and communities can't thrive without it.

Sincerely,
Janet Johnson
