Subject: Protect our solar rights! Docket: 2020-0000

Dear Florida Public Service Commission,

Powering up our planet with solar power is the most important thing we can do to mitigate climate change which is creating the next great extinction. Your quick action to create additional monetary incentives for private property owners to commit to solar installations on their mostly flat roofs is needed now!
Thank you for defending solar workers, business owners, and residents by protecting our bedrock solar policies here in Florida.

Sincerely,
George Richard Sharp
