Subject: Protect our solar rights! Docket: 2020-0000

Dear Florida Public Service Commission,

Please protect the "solar rights" of Florida's citizens by retaining net metering and supporting policies that make solar energy available at a reasonable investment to all Floridians.

Please work to reduce the monopoly that large utilities have on our energy supply.

Citizen-owned solar energy is good for the state. Before COVID-19, "solar installer" was the fastest growing job in the country, and the solar industry employed 250,000 people.

People and businesses across the state rely on common sense solar policies to take control of their own energy, save money, and choose how they power their lives.

Thank you for defending solar workers, business owners, and residents by protecting our bedrock solar policies here in Florida.

Sincerely,

Carol Mitchell
30951 SW 189th Ave Homestead, FL 33030-3835
