Dear Governor DeSantis,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

As a customer of Duke Energy I must protest spending a large amount of money to possibly improve reconnect times to a meager number of customers post storm. The larger and more affluent sections of our region will benefit while the remaining 95% of the region will receive, at best, marginally better response times at a relatively large increase in cost. Thank you for your time.

Sincerely,

Mr. Robert Storke
