In re: Application for a limited alternative rate increase proceeding in Polk and Marion Counties, by Alturas Water, LLC, Sunrise Water, LLC, Pinecrest Utilities, LLC, and East Marion Utilities, LLC.

DOCKET NO. 20200152-WS
ORDER NO. PSC-2020-0396-PAA-WS
ISSUED: October 22, 2020

The following Commissioners participated in the disposition of this matter:

GARY F. CLARK, Chairman
ART GRAHAM
JULIE I. BROWN
DONALD J. POLMANN
ANDREW GILES FAY

NOTICE OF PROPOSED AGENCY ACTION
ORDER APPROVING RATE INCREASE FOR ALTURAS WATER, LLC, SUNRISE
WATER, LLC, PINECREST UTILITIES, LLC, AND EAST MARION UTILITIES, LLC

BY THE COMMISSION:

NOTICE is hereby given by the Florida Public Service Commission that the actions discussed herein, except for the granting of temporary rates in the event of a protest, are preliminary in nature and will become final unless a person whose interests are substantially affected files a petition for a formal proceeding, pursuant to Rule 25-22.029, Florida Administrative Code (F.A.C.). The granting of temporary rates in the event of a protest is final agency action and subject to reconsideration and appeal as described below under the heading, "NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW."

Case Background

On May 28, 2020, Florida Utility Services 1, LLC (FUS1) filed an application for a limited alternative rate increase (LARI) for Alturas Water, LLC. (Alturas); Charlie Creek Utilities, LLC (Charlie Creek); Crestridge Utilities, LLC (Crestridge); East Marion Utilities, LLC (East Marion); Holiday Gardens Utilities, LLC (Holiday Gardens); Lake Yale Utilities, LLC (Lake Yale); McLeod Gardens Utilities, LLC (McLeod Gardens); Orange Land Utilities, LLC (Orange Land); Pinecrest Utilities, LLC (Pinecrest); and Sunrise Water, LLC (Sunrise). However, on June 12, 2020, in accordance with Rule 25-30.457(2)(1), Florida Administrative Code, (F.A.C.), our staff determined that McLeod Gardens was ineligible for a LARI due to its last rate case being in 2002, and that Lake Yale was ineligible due to never having had a rate

proceeding before this Commission.¹ Subsequently, on June 19, 2020, McLeod Gardens and Lake Yale each filed for a staff-assisted rate case (SARC).²

After the withdrawal of McLeod Gardens and Lake Yale, the applications met the initial requirements of the Rule, and July 13, 2020, was established as the official filing date. However, following the establishment of the official filing date, our staff's review of the 2019 Annual Report for Charlie Creek, Crestridge, Holiday Gardens, and Orange Land showed that they may be overearning and are not eligible for a LARI. Therefore, on August 20, 2020, FUS1 withdrew the LARI applications for Charlie Creek, Crestridge, Holiday Gardens, and Orange Land and requested a refund of the appropriate filing fees. As a result, only Alturas, East Marion, Pinecrest, and Sunrise (utilities) remain in this proceeding. The following table reflects the number of customers, 2019 Annual Report gross revenues and operating expenses, and the rate proceedings in which rates were last established for the remaining utilities.

By Order No. PSC-2019-0503-PAA-SU, issued November 25, 2019, in Docket No. 20180202-SU, this Commission approved an allocation of common costs from FUS1 to West Lakeland Wastewater, LLC, a sister utility. The utilities' purpose for filing this request is to recover an allocated portion of common costs based on our approval of FUS1 common costs in the aforementioned Order. Furthermore, the request is for the utilities' recovery of their allocated portion of increased FUS1 common costs and the inclusion of a Compliance Technician position. FUS1 selected the test year ended December 31, 2019, for this proceeding.

We have jurisdiction pursuant to Sections 367.0814(9) and 367.121(1), Florida Statutes (F.S.).

Analysis and Decision

1. Limited Alternative Rate Increase

Pursuant to Rule 25-30.457, F.A.C., any utility eligible to file for a SARC may petition us for a rate increase of up to 20 percent applied to metered or flat recurring rates as an alternative to a rate case. This Rule was designed to stream-line the rate increase process for qualifying water or wastewater companies, by establishing an abbreviated procedure for a limited rate increase that is less time consuming and thus less costly for utilities, their customers, and this Commission. This Rule is similar to the rules governing price index and pass-through increases, in that neither an engineering review nor a financial audit of the utility's books and records is required.

As discussed in the case background, only Alturas, East Marion, Pinecrest, and Sunrise remain in this proceeding. We reviewed these remaining utilities pursuant to the criteria listed in Rule 25-30.457(5), F.A.C., and find that they qualify for staff assistance pursuant to subsection (1) of this Rule. We also verified that the utilities are current on their filing of regulatory assessment fees and annual reports. Each of the four utilities have had rates established within the last seven years, pursuant to Rule 25-30.457(2)(1), F.A.C., and are under earning based on information provided in their 2019 Annual Reports. Additionally, the utilities' books and records appear to be organized consistent with Rule 25-30.110, F.A.C. The filing contained additional relevant information in support of their application. This information is detailed below.

System Name	Percent Increase	Revenue Increase
Alturas Water	14.05%	\$3,466
East Marion (water)	8.71%	\$2,717
East Marion (wastewater)	5.88%	\$2,586
Pinecrest	6.67%	\$4,046
Sunrise Water	20.00%	\$11,731

Secondary Water Standards

Pursuant to Section 367.0812(1), F.S., "in fixing rates that are just, reasonable, compensatory, and not unfairly discriminatory, the commission shall consider the extent to which the utility provides water service that meets secondary water quality standards as established by the Department of Environmental Protection (DEP)." Accordingly, we analyzed the current compliance with secondary standards and other quality of service items for the utilities.

In their last rate cases, we determined the overall quality of service to be satisfactory for both East Marion³ (2015, water and wastewater) and Pinecrest⁴ (2012, water). In the last rate cases of Alturas⁵ (2014, water) and Sunrise⁶ (2014, water), we found the overall quality of service to be unsatisfactory and ordered a 25 percent penalty be applied to the officers' salaries. Subsequent to its last rate case, Sunrise and Alturas were transferred to the current owner in June 2018, whereas, the East Marion and Pinecrest systems were transferred to the current owner prior to their last rate cases, in 2015 and 2011, respectively.

Based on the DEP's most recent Sanitary Survey for the East Marion water treatment plant (WTP), conducted on October 2, 2019, the DEP determined the system was out of compliance with the DEP's rules and regulations. This was due to inadequate chlorine levels, a leaking valve, missing a monthly operating report, no security for the tank system, and lack of a flushing plan on site. In addition, the utility is required to submit annual and biannual testing of certain contaminants. The DEP issued the utility a consent order for failure to monitor contaminant levels in 2019. Subsequently, the utility entered into a settlement agreement with the DEP on July 31, 2020. Secondary standards were last tested on November 29, 2018. East Marion passed all 14 secondary standards and will next be tested for secondary standards in 2021. On July 24, 2019, the DEP conducted a compliance inspection on the East Marion wastewater treatment plant (WWTP) and determined it to be out of compliance with the DEP's rules and regulations due to permitting and monitoring violations. Since the compliance inspection, the utility has worked to correct the issues for its WWTP and on March 9, 2020, the DEP determined the facility resolved its issues and is now in compliance.

Based on the DEP's most recent Sanitary Surveys for Sunrise, conducted on June 22, 2020, the DEP determined the system was in compliance with the DEP's rules and regulations. The last secondary standards testing for Sunrise was performed on August 2, 2018, and reported excess foaming agent levels. The next secondary standards testing will occur in 2021. The DEP conducted a sanitary survey for the Pinecrest system on September 19, 2017, and deemed the system out of compliance due to the utility's failure to obtain the proper permit before beginning a project. Additionally, Pinecrest was tested for secondary standards on July 17, 2018, and passed all secondary standards. The next test for this system will occur in 2021. The DEP conducted a sanitary survey for the Alturas system on July 30, 2018. The DEP determined the system to be out of compliance due to an expired tank inspection. On August 29, 2018, the Alturas system had its secondary standards tested, which indicated excess iron levels.

We analyzed our complaint records, as well as those filed with the DEP and the utility for each of the systems since 2015. The results are shown in Table 1.

Since the transfer of Sunrise and East Marion to the current owner, the complaints filed with the DEP and this Commission have decreased. Specifically, for the Sunrise system, post-transfer, two complaints were filed with the DEP and zero complaints were filed with this Commission. For the East Marion system, post-transfer, zero complaints were filed with the DEP and two complaints were filed with this Commission.

Due to travel restrictions implemented by the Department of Management Services, a customer meeting was not held.⁷ However, all customers received a Notice for the Solicitation of Comments (Notice) that provided a summary of the rate case, the current and proposed rates, detailed instructions on how comments may be filed with this Commission prior to our Commission Conference, and instructions if a customer wished to comment at our Commission Conference. Also, attached to the Notice was a customer comment card that customers could complete and mail to us. As of September 21, 2020, 14 customers submitted comments. Two customers (one from Sunrise and one from East Marion) expressed concern regarding the proposed rate increase and 12 expressed concern regarding water quality issues (two customers for Sunrise, seven customers for East Marion, and three customers for Pinecrest).

East Marion and Pinecrest are currently in compliance with secondary standards. Sunrise and Alturas are not currently meeting secondary standards based upon tests taken within a few months of the systems being transferred to the current owner. The rates of Sunrise and Alturas currently include a financial penalty, which will remain in place until their next SARCs, at which time quality of service will be evaluated. Additionally, as a part of this proceeding, FUS1 requested a new Compliance Technician position, which is discussed in greater detail below. This position will assist in permitting and regulatory reporting for the utilities, which appear to

be a contributing factor as to why the utilities are not compliant with the DEP. Therefore, we do not find that any additional action is necessary at this time.

FUS1 Allocation

The utilities' application requested recovery of FUS1's allocated common costs for each of the systems referenced above, based on the allocated common costs approved in Docket No. 20180202-SU.⁸ The operations and maintenance (O&M) common costs are allocated among all of the utilities in the FUS1 system based on number of customers. Table 2 below shows the allocation used for the four utilities in the present docket.

Table 2
FUS1 Utility Allocation

	Alturas	East Marion ⁹	Pinecrest	Sunrise	Non-LARI Utilities	FUS1 Total

Allocation	2%	3%	4%	8%	83%	100%

Source: Document No. 02809-2020, Exhibit E.

The O&M common costs allocated to each FUS1 utility include:

- Salaries and Wages – Employees (601/701)
- Salaries and Wages – Officers (603/703)
- Employee Benefits (604/704)
- Materials and Supplies (620/720)
- Contractual Services – Professional (631/731)
- Contractual Services – Other (636/736)
- Rents (640/740)
- Transportation (650/750)
- Insurance (655/755)
- Miscellaneous Expenses (675/775)

Table 3 illustrates the adjustments made to the reported amounts for 2019 in order to achieve our approved FUS1 O&M common costs.

⁹ The allocation is shared equally between the water and wastewater systems for East Marion.

Payroll Taxes

In addition to O&M common costs, we approved payroll taxes of \$23,910 for the FUS1 utilities in Docket No. 20180202-SU. Table 4 illustrates the adjustments made to the reported payroll tax amounts for 2019 in order to achieve the amount we approved.

Pro Forma Expenses

As part of their application, the utilities also requested the recovery of pro forma FUS1 common costs that have increased significantly since FUS1 allocated common costs were approved in the West Lakeland Water proceeding, and include the addition of a Compliance Technician position. These items are discussed in additional detail below.

Salaries and Wages – Employees (601/701)

As shown in Table 5 below, we approved \$301,366 for FUS1 employee salaries and wages in 2018. In their application, the utilities requested additional salaries and wages of

\$83,502. This amount included salary increases for eight positions and the addition of one new position. In support of their request, the utilities provided an explanation for the increase associated with each position and referenced the 2018 American Water Works Association (AWWA) Compensation Survey.

A portion of the utilities' requested salary increases reflect index increases of \$7,112 and \$5,522 for 2019 and 2020, respectively.¹⁰ We note that all four utilities seeking increases in this docket implemented 2019 index increases between June and December 2019. Additionally, three of the four have implemented 2020 index increases.¹¹ Only Pinecrest has not filed for a 2020 index increase.¹² Because FUS1's common costs are allocated to each of the utilities, allocated common costs such as salaries are already included in the O&M expense used to calculate the index increase applicable to each utility. While the amount allocated to each utility would have been determined during each utility's last rate case, some allocation for FUS1 salaries is currently imbedded in O&M for each utility. By applying 2019 and 2020 index increases to the FUS1 salaries approved in West Lakeland, we find that at least some portion of the increase would result in double recovery for the utilities. Given the abbreviated nature of LARI proceedings, the potential for double recovery, and considering that the rate increases approved in this Order will be applied to rates that already reflect 2019 and 2020 index increases at the utility level, we find it would be inappropriate to include the FUS1 index increases included in the application.

In its application, FUS1 also requested approval of a new Compliance Technician position with an annual salary of \$45,000. The duties for the position would include developing compliance programs and maintaining environmental compliance for FUS1's water and wastewater systems in areas such as permitting and regulatory reporting. The utility stated that these duties are currently being performed by the President of FUS1. However, with the number of systems now managed by FUS1, a full-time position is needed to effectively perform these responsibilities. Additionally, the Compliance Technician would also perform emergency response duties, such as initiating and maintaining contact with vendors and contractors, as well as managing an inventory of emergency assets.

In total, FUS1 manages 12 water and/or wastewater utilities that we regulate, and two utilities which are not regulated by this Commission.¹³ Considering the total number of systems and that regulatory compliance duties are currently being handled by the President, we find that the establishment of a new Compliance Technician position is reasonable. Furthermore, given the number of recent storm events that have impacted the state, sufficient emergency preparation and response is needed. Therefore, we approve the requested Compliance Technician position.

¹⁰ The index increase was 2.36 percent in 2019 and 1.79 percent in 2020.

¹¹ The 2020 index increases for Alturas, East Marion, and Sunrise had an effective date of June 5, 2020.

¹² Pinecrest is eligible to apply for a 2020 index increase as long as it does so before March 31, 2021.

¹³ Suwannee Valley Utilities, LLC and College Manor Utilities, LLC are regulated by Columbia County but their customer base is included in common cost calculations in this docket.

Our Commission-approved salary increases are reflected in Table 5.

Contractual Services – Other (636/736)

FUS1 requested recovery of the cost to replace the air conditioning system at its New Port Richey offices. Item No. 3 of the building lease makes FUS1 responsible for “all cost and expenses whatsoever kind, character, nature or description concerning . . . all HVAC.”¹⁴ According to FUS1, the system was original to the building and could not be repaired. Since FUS1 has no real property interest in the building, the lease and all associated costs with the lease are expensed through the common cost allocation method for FUS1. Two bids were obtained for air conditioning systems, totaling \$6,650 and \$7,200.¹⁵ The utility selected the lower bid of \$6,650, which also offered a longer warranty than the higher cost air conditioning system bid. The system was installed in February 2020. We reviewed the invoice and find the air conditioning system’s cost of \$6,650 shall be amortized over five years. As such, we find it appropriate that \$1,330 ($\$6,650 \div 5$ years) shall be included in FUS1 common costs and allocated to all FUS1 utilities.

Insurance Expenses (655/755)

FUS1 reported auto insurance expense of \$13,283 and workman’s compensation insurance of \$9,000 for 2019. This represents total insurance expense of \$22,283 ($\$13,283 + \$9,000$) for the year. In their application, the utilities requested an increase of \$6,930 for auto

insurance based on the premium for the policy period November 2019 through November 2020, reflected on the Progressive Insurance declaration page.¹⁶ The utilities also requested an increase of \$200 for workman's compensation based on the estimated premium for the policy period November 2019 through November 2020. The estimate was calculated using the final premium audit amounts paid in 2018 and 2019. As such, we find that the utilities have supported the inclusion of the pro forma insurance expense increase of \$7,130 (\$6,930 + \$200) for purposes of this LARI.

Payroll Taxes

In addition to the salary increase request discussed above, the utilities also requested recovery of the associated payroll taxes. We utilized a payroll tax rate of 7.65 percent based on the 2020 FICA tax rate. When applied to the approved salary increase of \$74,046 as described above, we find a pro forma increase to payroll taxes of \$5,665 ($\$74,046 \times 0.0765$).

Pro Forma Summary

Our approved pro forma increases, allocated to the various FUS1 systems, are provided in Table 6.

Rate Case Expense

The utilities paid a combined filing fee of \$4,500 on July 6, 2020. The utilities did not include any rate case expense in their filing. Rule 25-22.0407, F.A.C., requires the utility to mail notices of the rate case overview, notices of final rates, and notices of four-year rate reduction to its customers. For these notices, we estimated \$924 for postage expense, \$392 for printing, and \$84 for envelopes, resulting in noticing expense of \$1,400 ($\$924 + \$392 + \84).

¹⁶ Document No. 02809-2020.

The utilities expect to incur \$4,180 in legal fees to complete this LARI. The utilities provided invoices from Dean Mead Attorneys at Law (Dean Mead) through August 15, 2020, reflecting actual expenses associated with the rate case totaling \$1,900, and estimated an additional \$2,280 to complete the case.¹⁷ These amounts included 5 hours of actual time and 6 hours of time to complete the LARI. We find no adjustments were made to legal fees.

Additionally, the utilities expect to incur \$3,990 in accounting fees to complete the current docket. The utilities provided invoices from OCBOA Consulting, LLC. (OCBOA) through August 15, 2020, reflecting actual expenses of \$3,681, and estimated an additional \$309 to complete the case.¹⁸ These amounts included 38.75 hours of actual time and 3.25 hours of time to complete the LARI. We find no adjustments to accounting fees.

Due to the current restrictions on travel and large gatherings, no in-person customer meetings were conducted, and the October 6, 2020, Agenda Conference took place via teleconference. As such, no travel expense was included in rate case expense. The noticing costs and consulting fees were allocated among the four utilities in this docket based on the number of customers as shown in Table 7 below.

Based on the information above, we find a total rate case expense of \$14,070 (\$4,500 + \$1,400 + \$4,180 + \$3,990), which amortized over four years results in a rate case expense of \$3,517 ($\$14,070 \div 4$).

While all four LARI utilities were included for purposes of determining the allocations and the rate case expense applicable to each system, no rate case expense is included in the increase calculated for Sunrise. The calculated increase for Sunrise is greater than the 20 percent allowed by Rule 25-30.457(1), F.A.C.²¹ As such, we capped Sunrise's increase at 20 percent. Accordingly, no four-year rate reduction would be required for Sunrise. The total rate case expense for the other systems shall be amortized over four years. The appropriate amortized rate case expense for each system is reflected in Table 8.

The data presented in the application was based on annualized revenues by customer class and meter size for the period ended December 31, 2019, the most recent 12-month period. Table 9 summarizes our approved adjustments for each utility. Table 10 displays the annualized revenues, the percent increase, and the resulting annual increase in revenues that produce the total annual service revenues for each system and includes our adjustments. The annualized revenues reflect the 2020 index increases for Alturas, East Marion, and Sunrise, which had an effective date of June 5, 2020.

Pursuant to Rule 25-30.457(7), F.A.C., the utility is required to hold any revenue increase granted subject to refund with interest in accordance with Rule 25-30.360(4), F.A.C.

To ensure overearnings will not occur because of these rate increases, we will conduct earning reviews of the twelve-month period following the implementation of the revenue increase. At the end of the twelve-month period, each utility has 90 days to complete and file Form PSC 1025 (03/20), entitled "Limited Alternative Rate Increase Earnings Review." In the event a utility needs additional time to complete the form, that utility may request an extension of time supported by a statement of good cause that must be filed with our staff within seven days prior to the 90-day deadline. If our earnings review demonstrates that the utility exceeded the range of its last authorized rate of return on equity, such overearnings, up to the amount held subject to refund, with interest, shall be disposed of for the benefit of the customers. If we determine that the utility did not exceed the range of its last authorized return on equity, the revenue increase will no longer be held subject to refund.

Based on the information described above, we approve the utilities' application with the modifications discussed above.

2. Monthly Service Rates

Based on our approval of the utilities' LARI, the existing service rates for the utilities shall be increased by the individual percentage rate increases shown in Table 11, which are in accordance with Rule 25-30.457, F.A.C.

The appropriate service rates are shown on Schedule No. 1, attached to this Order. The utilities shall file tariff sheets and a proposed customer notice to reflect the Commission-approved rates. The approved rates shall be effective for service rendered on or after the stamped approval date on the tariff sheets pursuant to Rule 25-30.475(1), F.A.C. In addition, the rates shall not be implemented until Commission staff has approved the proposed customer notice. The utilities shall provide proof of the date notice was given no less than 10 days after the date of the notice.

3. Reduction of Rates to Reflect the Removal of Amortized Rate Case Expense

Section 367.081(8), F.S., requires that the rates be reduced immediately following the expiration of the recovery period by the amount of the rate case expenses previously included in rates. These reductions will reflect the removal of revenue associated with the amortization of rate case expenses and the gross-up for Regulatory Assessment Fees (RAFs). The total reductions for each system are listed in Table 12 below.

Table 12
Four-Year Rate Reduction

Utility	Reduction
Alturas	\$508
East Marion (water)	\$499
East Marion (wastewater)	\$368
Pinecrest	\$897

Source: Commission staff calculations.

We find that the rates shall be reduced, as shown in Schedule No. 1 attached, to remove rate case expense grossed-up for RAFs and amortized over a four-year period. The decrease in rates will become effective immediately following the expiration of the rate case expense recovery period, pursuant to Section 367.081(8), F.S. Alturas, East Marion, and Pinecrest shall file revised tariffs and proposed customer notices setting forth the lower rates and the reason for the reductions no later than one month prior to the actual date of the required rate reductions. If this reduction is filed in conjunction with price index or pass-through rate adjustments, separate data shall be filed for the price index and/or pass-through increases or decreases and the reductions in the rates due to the amortized rate case expenses.

4. Temporary Rates in the Event of a Protest

The portion of this Order issued as a Proposed Agency Action (PAA) approves an increase in water rates. A timely protest might delay what may be a justified rate increase resulting in an unrecoverable loss of revenue for the aforementioned utilities. Therefore, pursuant to Rule 25-30.457(9), F.A.C., in the event of a protest of the PAA Order by a substantially affected person other than the utilities, the utilities are hereby authorized to

implement the rates established in this Order on a temporary basis subject to refund upon filing a SARC application within 21 days from the date the protest is filed.

Each utility shall file revised tariff sheets and a proposed customer notice to reflect the Commission-approved rates. The rates shall be effective for service rendered on or after the stamped approval date on the tariff sheet, pursuant to Rule 25-30.475(1), F.A.C. In addition, the temporary rates shall not be implemented until our staff has approved the proposed notice, and the notice has been received by the customers. The incremental increase collected by the utility will be subject to the refund provisions outlined in Rule 25-30.360, F.A.C. Pursuant to Rule 25-30.457(9), F.A.C., if a utility fails to file a SARC application within 21 days in the event there is a protest, the application for a LARI will be deemed withdrawn.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that the application for a limited alternative rate increase by Alturas Water, LLC, Sunrise Water, LLC, Pinecrest Utilities, LLC, and East Marion Utilities, LLC, is hereby approved, subject to the modifications set out in the body of this Order. It is further

ORDERED that Alturas Water, LLC, East Marion Utilities, LLC, and Pinecrest Utilities, LLC's rates shall be reduced, as shown in Schedule No. 1, to remove rate case expense grossed-up for RAFs and amortized over a four-year period. The decrease in rates will become effective immediately following the expiration of the rate case expense recovery period, pursuant to Section 367.081(8), F.S. Alturas Water, LLC, East Marion Utilities, LLC, and Pinecrest Utilities, LLC shall file revised tariffs and proposed customer notices setting forth the lower rates and the reason for the reductions no later than one month prior to the actual date of the required rate reduction. (*Procedural Agency Action*) It is further

ORDERED that the requests for salary increases and a new Compliance Technician position are hereby approved. It is further

ORDERED that Alturas Water, LLC, Sunrise Water, LLC, Pinecrest Utilities, LLC, and East Marion Utilities, LLC's approved rates are shown on Schedule No. 1. It is further

ORDERED that Alturas Water, LLC, Sunrise Water, LLC, Pinecrest Utilities, LLC, and East Marion Utilities, LLC shall file tariff sheets and a proposed customer notice to reflect the Commission-approved rates. The approved rates shall be effective for service rendered on or after the stamped approval date on the tariff sheets pursuant to Rule 25-30.475(1), F.A.C. In addition, the rates shall not be implemented until Commission staff has approved the proposed customer notice. The utilities shall provide proof of the date notice was given no less than 10 days after the date of the notice. It is further

ORDERED that in the event of a protest by a substantially affected person other than the utilities, Alturas Water, LLC, Sunrise Water, LLC, Pinecrest Utilities, LLC, and East Marion Utilities, LLC is hereby authorized to implement the rates established in this Order on a

temporary basis subject to refund upon the utilities filing a staff-assisted rate case application within 21 days of the date the protest is filed. Alturas Water, LLC, Sunrise Water, LLC, Pinecrest Utilities, LLC, and East Marion Utilities, LLC shall file revised tariff sheets and a proposed customer notice to reflect the Commission-approved rates. The approved rates shall be effective for service rendered on or after the stamped approval date on the tariff sheet, pursuant to Rule 25-30.475(1), F.A.C. The temporary rates shall not be implemented until Commission staff has approved the proposed notice, and the notice has been received by the customers. The incremental increase collected by the utilities will be subject to the refund provisions outlined in Rule 25-30.360, F.A.C. If Alturas Water, LLC, Sunrise Water, LLC, Pinecrest Utilities, LLC, or East Marion Utilities, LLC fails to file a staff-assisted rate case application within 21 days in the event there is a protest, the application for a limited alternative rate increase will be deemed withdrawn. (*Procedural Agency Action*) It is further

ORDERED that the provisions of this Order, issued as proposed agency action, shall become final and effective upon the issuance of a Consummating Order unless an appropriate petition, in the form provided by Rule 28-106.201, Florida Administrative Code, is received by the Commission Clerk, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, by the close of business on the date set forth in the “Notice of Further Proceedings” attached hereto. It is further

ORDERED that in the event of a protest, Alturas Water, LLC, Sunrise Water, LLC, Pinecrest Utilities, LLC, and East Marion Utilities, LLC may implement the rates established in this Order on a temporary basis, subject to refund with interest, upon the utilities’ filing of a staff-assisted rate case application within 21 days of the date of the protest. If no person whose substantial interests are affected by the proposed agency action files a protest within 21 days of the issuance of the Order, a Consummating Order shall be issued. The docket shall remain open for Commission staff’s verification that the revised tariff sheets, which reflect the Commission-approved rates, and customer notice have been filed by the utilities and approved by Commission staff, and so that Commission staff may conduct an earnings review of each utility pursuant to Rule 25-30.457(8), F.A.C. Upon Commission staff’s approval of the tariff and completion of the earnings review process as set forth in Rule 25-30.457(8), F.A.C., this docket shall be closed administratively.

NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW

The Florida Public Service Commission is required by Section 120.569(1), Florida Statutes, to notify parties of any administrative hearing that is available under Section 120.57, Florida Statutes, as well as the procedures and time limits that apply. This notice should not be construed to mean all requests for an administrative hearing will be granted or result in the relief sought.

As identified in the body of this order, our actions, except for the granting of temporary rates in the event of a protest, are preliminary in nature. Any person whose substantial interests are affected by the action proposed by this order may file a petition for a formal proceeding, in the form provided by Rule 28-106.201, Florida Administrative Code. This petition must be received by the Office of Commission Clerk, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, by the close of business on November 12, 2020. If such a petition is filed, mediation may be available on a case-by-case basis. If mediation is conducted, it does not affect a substantially interested person's right to a hearing. In the absence of such a petition, this order shall become final and effective upon the issuance of a Consummating Order.

Any objection or protest filed in this docket before the issuance date of this order is considered abandoned unless it satisfies the foregoing conditions and is renewed within the specified protest period.

Any party adversely affected by the Commission's final action in this matter may request: (1) reconsideration of the decision by filing a motion for reconsideration with the Office of Commission Clerk, within fifteen (15) days of the issuance of this order in the form prescribed by Rule 25-22.060, Florida Administrative Code; or (2) judicial review by the Florida Supreme Court in the case of an electric, gas or telephone utility or the First District Court of Appeal in the case of a water or wastewater utility by filing a notice of appeal with the Office of Commission Clerk and filing a copy of the notice of appeal and the filing fee with the appropriate court. This filing must be completed within thirty (30) days after the issuance of this order, pursuant to Rule 9.110, Florida Rules of Appellate Procedure. The notice of appeal must be in the form specified in Rule 9.900(a), Florida Rules of Appellate Procedure.
