# Schedule CT-6 PROGRAM PROGRESS REPORT

NAME:

RESIDENTIAL NEW CONSTRUCTION PROGRAM - PROGRAM 1

**DESCRIPTION:** 

The objective of this program is to increase the conservation of energy resources in the single and multi-family residential new construction markets by promoting the installation of energy-efficient natural gas appliances. This program is designed to expand consumer energy options in new homes. Incentives in the form of cash allowances are provided to support the installation of natural gas including interior gas piping, venting, appliance purchase or lease, and other costs associated with residential gas service. Cash allowances are paid for water heating, space heating, clothes drying, and cooking equipment installations

#### PROGRAM ALLOWANCES:

| Gas Storage Tank Water Heating                             | \$350 |
|------------------------------------------------------------|-------|
| Gas High Efficiency Storage Tank Water Heating (82% AFUE+) | 400   |
| Gas Tankless Water Heating                                 | 550   |
| Gas Heating                                                | 500   |
| Gas Cooking                                                | 150   |
| Gas Clothe Drying                                          | 100   |
| Gas Cooling and Dehumidification                           | 1200  |

REPORTING PERIOD: January 2019 through December 2019

#### PROGRAM SUMMARY:

Program costs for the period were \$ 981,473

### Schedule CT-6 PROGRAM PROGRESS REPORT

NAME:

RESIDENTIAL APPLIANCE REPLACEMENT PROGRAM 3

#### **DESCRIPTION:**

This program encourages the replacement of inefficient non-natural gas residential appliances in existing residences. Participation in the program is open to current residential customers and to homeowners converting a residence to natural gas where the company is able to extend service under its extension of facilities policy. This program provides incentives for the replacement of non-gas water heating, space heating, cooking, or clothes drying appliances through the purchase and/or lease of energy efficient natural gas appliances.

#### **PROGRAM ALLOWANCES:**

| Gas Storage Tank Water Heating                             | \$500 |
|------------------------------------------------------------|-------|
| Gas High Efficiency Storage Tank Water Heating (82% AFUE+) | 550   |
| Gas Tankless Water Heating                                 | 675   |
| Gas Heating                                                | 725   |
| Gas Cooking                                                | 200   |
| Gas Clothe Drying                                          | 150   |
| Gas Cooling and Dehumidification                           | 1200  |

NAME:

GAS APPLIANCES IN SCHOOLS - PROGRAM 5

**DESCRIPTION:** 

The Gas Appliances in Schools Program is designed to promote natural gas appliances where cost-efficient, in Home Economic Departments in schools located in our Company's service area. The program provides teaching assistance on energy conservation and on the use, care, and safety of natural

gas appliances through a Company-employed home economist.

REPORTING PERIOD: January 2019 through December 2019

PROGRAM SUMMARY:

Program costs for the period were \$0.

RESIDENTIAL PROPANE CONVERSION - PROGRAM 6

**DESCRIPTION:** 

The Residential Propane Conversion Program is designed to promote the conversion of existing residential propane appliances to utilize efficient natural gas. The program offers incentives in the form of cash allowances to residential consumers to assist in defraying the additional costs associated with the conversion of their existing propane appliances to

utilize natural gas.

#### **PROGRAM ALLOWANCES:**

| Furnace      | \$200 |
|--------------|-------|
| Water Heater | 100   |
| Dryer        | 50    |
| Range        |       |

REPORTING PERIOD: January 2019 through December 2019

#### **PROGRAM SUMMARY:**

Program costs for the period were

\$46,525

NAME:

RESIDENTIAL APPLIANCE RETENTION PROGRAM - PROGRAM 7

**DESCRIPTION:** 

This program is designed to promote the retention of energy-efficient water heating, space heating, clothes drying, and cooking appliances for current natural gas customers. A cash incentive is paid to reduce the cost of purchasing and installing a replacement natural gas water heating, space heating, clothe drying, and cooking appliances

#### PROGRAM ALLOWANCES:

| Gas Storage Tank Water Heating                             | \$350 |
|------------------------------------------------------------|-------|
| Gas High Efficiency Storage Tank Water Heating (82% AFUE+) | 400   |
| Gas Tankless Water Heating                                 | 550   |
| Gas Heating                                                | 500   |
| Gas Cooking                                                | 100   |
| Gas Clothe Drying                                          | 100   |

REPORTING PERIOD: January 2019 through December 2019

#### PROGRAM SUMMARY:

Program costs for the period were \$1,670,636

**RESIDENTIAL CUT AND CAP - PROGRAM 8** 

**DESCRIPTION:** 

The Residential Cut and Cap Program is designed to encourage the re-activation of existing residential service lines that are scheduled to be cut off and capped. The program offers incentives in the form of cash allowances to residential consumers to assist in defraying the additional costs associated with the purchase and/or lease and the

installation of energy efficient natural gas appliances.

#### **PROGRAM ALLOWANCES:**

Service re-activation..... \$200

REPORTING PERIOD: January 2019 through December 2019

NAME:

COMMERCIAL/INDUSTRIAL CONVERSION - PROGRAM 9

**DESCRIPTION:** 

The Commercial/Industrial Conversion Program is designed to promote the conversion of commercial and industrial inefficient non-gas equipment to energy efficient natural gas. The program offers incentives in the form of cash allowances to existing commercial and industrial businesses located in existing structures, to assist in defraying the incremental first costs associated with the installation of natural gas supply lines, internal

piping, venting and equipment.

#### **PROGRAM ALLOWANCES:**

REPORTING PERIOD: January 2019 through December 2019

NAME:

COMMERCIAL/INDUSTRIAL ALTERNATIVE TECHNOLOGY INCENTIVE - PROGRAM 10

**DESCRIPTION:** 

The Commercial/Industrial Alternative Technology Incentive Program (ATI) is designed to encourage commercial and industrial business owners to install alternate technologies that utilize natural gas that are not covered by one of the other City Gas Energy Conservation Programs, but which cost-effectively reduce the total utility expense of the business. The program offers incentives based on the cost-effectiveness under a life-cycle analysis

utilizing a computerized energy consumption simulation model.

#### **PROGRAM ALLOWANCES:**

Payback period of three years subject to a maximum incentive of three times the projected incremental annualized margin.

REPORTING PERIOD: January 2019 through December 2019

### Schedule CT-6 PROGRAM PROGRESS REPORT

NAME:

COMMERCIAL NATURAL GAS CONSERVATION PROGARM (APPLIANCE) - PROGRAM 11

**DESCRIPTION** The Commercial Natural Gas Conservation Program (Appliance)

is designed to educate, inform and to encourage business either to build with natural gas (New Construction), to continue using natural gas (Retention) or to convert to natural gas (Retrofit) for their energy needs. The programs offer cash incentives to assist in defraying the costs associated with the installation of natural gas supply lines, internal piping, venting and equipment.

# Schedule C-5 PROGRAM PROGRESS REPORT

NAME:

**RESIDENTIAL NEW CONSTRUCTION - PROGRAM 1** 

**DESCRIPTION:** 

The Residential Builder Program is designed to increase the overall energy efficiency in the residential new construction market by promoting energy-efficient natural gas appliances in residences that would qualify for the RS rates. The program offers builders and developers incentives in the form of cash allowances to assist in defraying the additional costs associated with the installation of natural gas supply lines, house piping, venting and natural gas appliances.

#### PROGRAM ALLOWANCES:

| Gas Storage Tank Water Heating                             |     |
|------------------------------------------------------------|-----|
| Gas High Efficiency Storage Tank Water Heating (82% AFUE+) | 400 |
| Gas Tankless Water Heating                                 | 550 |
| Gas Heating                                                | 500 |
| Gas Cooking                                                | 150 |
| Gas Clothe Drying                                          | 100 |

REPORTING PERIOD: January 2020 through June 2020

#### PROGRAM SUMMARY:

Program costs for the period were \$ 663,910

# PROGRAM TITLE: Residential New Construction Program

PROGRAM DESCRIPTION: The Residential New Construction Program (formerly, Full House Residential New Construction Program) promotes the use of natural gas in single and multifamily residential new construction projects to developers, builders, and homebuyers. The program is designed to increase the overall energy efficiency in the new construction home market through the installation of efficient gas appliances. The programs incentives are used to overcome market barriers created by the split incentive between the builders who are purchasing the appliances and the homeowners who are benefiting from reduced utility costs.

# **CURRENT APPROVED ALLOWANCES:**

- \$350 Tank Water Heater
- \$400 High Efficiency Tank Water Heater
- \$550 Tankless Water Heater
- \$500 Furnace
- \$150 Range
- \$100 Dryer

PROGRAM ACCOMPLISHMENTS: For the reporting period January 1, 2019 through December 31, 2019, 3,330 incentives were paid. There were 395 Tank Water Heaters, 0 High Efficiency Tank Water Heaters, 1194 Tankless Water Heaters, 6 Furnaces, 999 Ranges and 736 Dryers.

PROGRAM FISCAL EXPENDITURES: The expenditures for the reporting period of January 1, 2019 through December 31, 2019 were \$1,658,632.

# PROGRAM TITLE: Residential Appliance Replacement Program

PROGRAM DESCRIPTION: This program is designed to encourage the replacement of inefficient non-natural gas appliances with energy efficient natural gas appliances. The program offers financial incentives to residential customers to defray the additional costs associated with installing natural gas appliances.

# **CURRENT APPROVED ALLOWANCES:**

- \$500 Tank Water Heater
- \$550 High Efficiency Tank Water Heater
- \$675 Tankless Water Heater
- \$725 Furnace
- \$200 Range
- \$150 Dryer

PROGRAM ACCOMPLISHMENTS: For the reporting period January 1, 2019 through December 31, 2019, 603 incentives were paid. There were 3 Tank Water Heaters, 5 High Efficiency Tank Water Heaters, 219 Tankless Water Heaters, 4 Furnaces, 126 Ranges and 73 Dryers.

PROGRAM FISCAL EXPENDITURES: The expenditures for the reporting period of January 1, 2019 through December 31, 2019 were \$411,298.

PROGRAM PROGRESS SUMMARY: The FPSC approved this program on August 29, 2000. From the inception through the reporting period of this program, FPUC has converted 10,241 natural gas hot water heaters.

# PROGRAM TITLE: Residential Appliance Retention Program

PROGRAM DESCRIPTION: The purpose of the Residential Appliance Retention Program is to encourage homeowners with existing natural gas appliances to retain natural gas appliances at time of replacement. The program includes appliances such as furnaces, hot water heaters, ranges, and dryers. The programs incentives defray the cost of purchasing more expensive energy-efficient natural gas appliances.

# **CURRENT APPROVED ALLOWANCES:**

- \$350 Tank Water Heater
- \$400 High Efficiency Tank Water Heater
- \$550 Tankless Water Heater
- \$500 Furnace
- \$100 Range
- \$100 Dryer

PROGRAM ACCOMPLISHMENTS: For the reporting period January 1, 2019 through December 31, 2019, 1,446 incentives were paid. There were 489 Tank Water Heaters, 161 High Efficiency Tank Water Heaters, 289 Tankless Water Heaters, 181 Furnaces, 150 Ranges and 176 Dryers.

PROGRAM FISCAL EXPENDITURES: The expenditures for the reporting period of January 1, 2019 through December 31, 2019 were \$707,339.

PROGRAM PROGRESS SUMMARY: The FPSC approved this program on August 29, 2000. From the inception through the reporting period, FPUC has retained 14,957 natural gas hot water heaters.

# PROGRAM TITLE: Residential Service Reactivation Program

PROGRAM DESCRIPTION: This program is designed to encourage the reactivation of existing residential service lines that are scheduled to be cut-off and capped. The program offers incentives of \$350 in the form of cash incentives to residential customers to assist in defraying the additional cost associated with the purchase and installation energy-efficient natural gas appliances.

PROGRAM ACCOMPLISHMENTS: For the reporting period January 1, 2019 through December 31, 2019, 0 incentives were paid.

PROGRAM FISCAL EXPENDITURES: The expenditures for the reporting period of January 1, 2019 through December 31, 2019 were \$950.

PROGRAM PROGRESS SUMMARY: FPSC approval of this program occurred on August 29, 2000. We continue to promote this program and believe that our customers will find value in this program.

# PROGRAM TITLE: Residential Conservation Survey Program

PROGRAM DESRIPTION: The objective of the Residential Conservation Service Program is to provide Florida Public Utilities Company's residential customers with energy conservation advice based on a review of their homes actual performance that encourages the implementation of efficiency measures and/or practices resulting in energy savings for the customer. Florida Public Utilities Company views this program as a way of promoting the installation of cost-effective conservation measures. During the survey process, the customer is provided with specific whole-house recommendations. The survey process also checks for possible duct leakage.

PROGRAM ACCOMPLISHMENTS: This year a total of 51 residential surveys were performed.

PROGRAM FISCAL EXPENDITURES: The expenditures for the reporting period of January 1, 2019 through December 31, 2019 were \$18,135.

PROGRAM PROGRESS SUMMARY: This program was implemented on September 1, 2000. Since inception through the reporting period, 380 residential customers have participated.

Docket No. 20200004–GU
Florida Public Utilities Co.
(CDY-1)
Page 15 of 24

# PROGRAM TITLE: Commercial Conservation Survey Program

PROGRAM DESCRIPTION: The Commercial Conservation Service Program is an interactive program that assists commercial customers in identifying energy conservation opportunities. The survey process consists of an on-site review of the customer's facility operation, equipment, and energy usage pattern by a Florida Public Utilities Company Conservation Representative. The representative identifies all areas of potential energy usage reduction as well as identifying enduse technology opportunities. A technical evaluation is then performed to determine the economic payback or life cycle cost for various improvements to the facility. Florida Public Utilities Company will subcontract the evaluation process to an independent engineering firm and/or contracting consultant, if necessary.

PROGRAM ACCOMPLISHMENTS: This year, 10 commercial surveys were completed during the reporting period.

PROGRAM FISCAL EXPENDITURES: The expenditures for the reporting period of January 1, 2019 through December 31, 2019 were \$2,210.

PROGRAM PROGRESS SUMMARY: This program was implemented on September 1, 2000. From the inception of this program through the reporting period 235 commercial customers have participated.

# PROGRAM TITLE: Conservation Education Program

PROGRAM DESCRIPTION: The purpose of the Conservation Education Program is to educate consumers, businesses, and contractors to make wise energy choices. For consumers to make educated choices they must know the benefits of conserving energy and have a basic understanding of energy as well as the measures and behavioral practices needed to make these choices.

PROGRAM ACCOMPLISHMENTS: This year FPU conducted 54 seminars, events and house calls to educate customers.

PROGRAM FISCAL EXPENDITURES: The expenditures for the reporting period of January 1, 2019 through December 31, 2019 were \$47,350.

PROGRAM PROGRESS SUMMARY: This program has been successful and we are optimistic that we will continue to be involved in community education and future events.

# PROGRAM TITLE: Space Conditioning Program

PROGRAM DESCRIPTION: The program is designed to convert on-main customers from electric space conditioning equipment to energy-efficient natural gas space conditioning equipment. The program provides a financial incentive to qualified participants to compensate for the higher initial cost of natural gas space conditioning equipment. The program reduces summer as well as winter peak demand and contributes to consumption reduction.

PROGRAM ACCOMPLISHMENTS: There were 0 participants in this program in 2019. They were completed in December and invoiced in 2019.

PROGRAM FISCAL EXPENDITURES: The expenditures for the reporting period of January 1, 2019 through December 31, 2019 were \$271.

PROGRAM PROGRESS SUMMARY: From FPSC approval of the program on August 29, 2000 through December 31, 2019, FPUC has connected 12 space conditioning projects to its natural gas system.

PROGRAM TITLE: Conservation Demonstration and Development

PROGRAM DESCRIPTION: The primary purpose of the Conservation Demonstration and Development (CDD) program is to pursue research, development, and demonstration projects that are designed to promote energy efficiency and conservation. This program will supplement and complement the other conservation programs offered by Florida Public Utilities Company and give the Company an opportunity to pursue individual and joint research projects as well as the development of new conservation programs. The CDD program is meant to be an umbrella program for the identification, development, demonstration, and evaluation of promising new end-use technologies.

PROGRAM ACCOMPLISHMENTS: For 2019, Florida Public Utilities had no research and development projects this year.

PROGRAM FISCAL EXPENDITURES: The expenditures for the reporting period of January 1, 2019 through December 31, 2019 were \$0.

PROGRAM PROGRESS SUMMARY: From FPSC approval of the program on March 23, 2010, FPUC has engaged in several research projects using this program.

PROGRAM DESCRIPTION: This program is designed to encourage owners and operators of small food service restaurants to purchase energy efficient natural gas appliances through the offering of commercial appliance rebates. Commercial food service customers are defined as establishments primarily engaged in the retail sale of prepared food and drinks for on-premise or immediate consumption with an annual consumption of less than 9,000 therms. The rebates offered within this program are limited to the specific appliance types and rebate categories depicted below.

# **CURRENT APPROVED ALLOWANCES:**

| Appliance      | New Construction | Replacement | Retention |
|----------------|------------------|-------------|-----------|
| Water Heater   | \$1,000          | \$1,500     | \$1,000   |
| Tankless Water | \$2,000          | \$2,500     | \$2,000   |
| Fryer          | \$3,000          | \$3,000     | \$3,000   |
| Range          | \$1,000          | \$1,500     | \$1,000   |

PROGRAM ACCOMPLISHMENTS: For the reporting period January 1, 2019 through December 31, 2019, 237 incentives were paid. There were 4 Tank Water Heaters, 104 Tankless Water Heaters, 103 Fryers and 16 Ranges.

PROGRAM FISCAL EXPENDITURES: The expenditures for the reporting period of January 1, 2019 through December 31, 2019 were \$576,220.

PROGRAM PROGRESS SUMMARY: Since inception, 2,569 appliances have qualified for this program.

SCHEDULE C-5 PAGE 2 OF 16

#### PROGRAM TITLE:

Full House Residential New Construction Program

#### PROGRAM DESCRIPTION:

This program is designed to increase the overall energy efficiency in the residential single- and multi-family new construction market by promoting energy-efficient natural gas appliances. The program offers builders and developers incentives in the form of cash allowances to defray the additional costs associated with the installation of natural gas supply lines, house piping, venting and natural gas appliances.

#### PROGRAM ALLOWANCES:

| Furnace or Hydro heater     | \$500 |
|-----------------------------|-------|
| Tank Water Heater           | \$350 |
| High Eff. Tank Water Heater | \$400 |
| Range                       | \$150 |
| Dryer                       | \$100 |
| Tankless                    | \$550 |

# PROGRAM PROJECTIONS:

For the twelve-month period of January to December 2021, the Company estimates that 3500 new single- and multi-family home appliances will be connected to its natural gas system.

# PROGRAM FISCAL EXPENDITURES:

During the twelve-month period of January 2021 to December 2021, the Company estimates expenses of \$1,788,500.00

EXHIBIT NO.\_\_\_\_ DOCKET NO. 20200004-GU FLORIDA PUBLIC UTILITIES CO. (GSR-1) PAGE 12 OF 26

# SCHEDULE C-5 PAGE 3 OF 16

#### PROGRAM TITLE:

Residential Appliance Replacement Program

#### PROGRAM DESCRIPTION:

This program is designed to encourage the replacement of inefficient non-natural gas residential appliances with energy-efficient natural gas appliances. The program offers incentives in the form of cash allowances to residential consumers to assist in defraying the additional costs associated with the installation of efficient natural gas appliances.

# PROGRAM ALLOWANCES:

| Furnace or Hydro heater     | \$725 |
|-----------------------------|-------|
| Tank Water Heater           | \$500 |
| High Eff. Tank Water Heater | \$550 |
| Range                       | \$200 |
| Dryer                       | \$150 |
| Tankless                    | \$675 |

# PROGRAM PROJECTIONS:

For the twelve-month period of January to December 2021, the Company estimates that 450 natural gas appliances will be connected (limited to furnaces or hydro heaters, water heaters, ranges and dryers) to its natural gas system.

#### PROGRAM EXPENDITURES:

During the twelve-month period of January to December 2021, the Company estimates expenses of \$411,500.00

# SCHEDULE C-5 PAGE 4 OF 16

#### PROGRAM TITLE:

Residential Appliance Retention Program

#### PROGRAM DESCRIPTION:

This program is designed to promote the retention of energy-efficient appliances for current natural gas customers. The program offers allowances to customers to assist in defraying the cost of purchasing and installing more expensive energy-efficient appliances.

# PROGRAM ALLOWANCES:

| Furnace or Hydro heater     | \$500 |
|-----------------------------|-------|
| Tank Water Heater           | \$350 |
| High Eff. Tank Water Heater | \$400 |
| Range                       | \$100 |
| Dryer                       | \$100 |
| Tankless                    | \$550 |

# PROGRAM PROJECTIONS:

For the twelve-month period of January to December 2021, the Company estimates that 1400 appliances will be connected to its system.

# PROGRAM FISCAL EXPENDITURES:

During the twelve-month period of January to December 2021, the Company estimates expenses of \$801,000.00

EXHIBIT NO. \_\_\_\_\_ DOCKET NO. 20200004-GU FLORIDA PUBLIC UTILITIES CO. (GSR-1) PAGE 14 OF 26

# SCHEDULE C-5 PAGE 5 OF 16

#### PROGRAM TITLE:

Residential Service Reactivation Program

# PROGRAM DESCRIPTION:

This program is designed to encourage the reactivation of existing residential service lines that are scheduled to be cut-off and capped. The program offers incentives in the form of cash allowances to residential consumers to assist in defraying the additional costs associated with the purchase and the installation of energy-efficient natural gas appliances.

#### PROGRAM ALLOWANCES:

Service Reactivation (the installation of a water heater is required) \$350

# PROGRAM PROJECTIONS:

For the twelve-month period of January to December 2021, the Company estimates that 5 services will be reactivated with water heaters on its natural gas system.

# PROGRAM FISCAL EXPENDITURES:

During the twelve-month period of January to December 2021, the Company estimates expenses of \$3,500.00

EXHIBIT NO. \_\_\_\_\_ DOCKET NO. 20200004-GU FLORIDA PUBLIC UTILITIES CO. (GSR-1) PAGE 15 OF 26

# SCHEDULE C-5 PAGE 6 OF 16

#### PROGRAM TITLE:

Residential Conservation Survey Program

#### PROGRAM DESCRIPTION:

This program is designed to assist residential customers in conserving all forms of energy consumption. Certified company representatives or private contractors will conduct energy surveys. This service will be provided based on customer requests and scheduling availability.

#### PROGRAM ALLOWANCES:

Not applicable.

# PROGRAM PROJECTIONS:

For the twelve-month period of January to December 2021, the Company estimates that 50 residential customers will participate in this program. We are updating our web based audit program for both our field auditors and online do it yourself energy audits.

# PROGRAM FISCAL EXPENDITURES:

During the twelve-month period of January to December 2021, the Company estimates expenses of \$52,200.00

# PROGRAM TITLE:

Commercial Conservation Survey Program

# PROGRAM DESCRIPTION:

This program is designed to assist commercial customers in conserving all forms of energy consumption. Certified company representatives or private contractors will conduct energy surveys. This service will be provided based on customer requests and scheduling availability.

# PROGRAM ALLOWANCES:

Not applicable.

# PROGRAM PROJECTIONS:

For the twelve-month period of January to December 2021, the Company estimates that 8 commercial customers will participate in this program.

# PROGRAM FISCAL EXPENDITURES:

During the twelve-month period of January to December 2021, the Company estimates expenses of \$3,100.00

EXHIBIT NO. \_\_\_\_\_ DOCKET NO. 20200004-GU FLORIDA PUBLIC UTILITIES CO. (GSR-1) PAGE 17 OF 26

SCHEDULE C-5 PAGE 8 OF 16

# PROGRAM TITLE:

Conservation Education Program

# PROGRAM DESCRIPTION:

The purpose of this program is to teach adult and young people about conservation measures designed to reduce energy consumption and consequently reduce their utility bills.

#### PROGRAM ALLOWANCES:

Not applicable.

# **PROGRAM PROJECTONS:**

For the twelve-month period of January to December 2021, the Company estimates that it will participate in 40 community sponsorships and industry events. Conservation education materials such as signage, ad placement and promotional giveaways will be displayed or distributed to event attendees. At certain events, an energy conservation representative will provide live presentations and energy conservation training.

# PROGRAM FISCAL EXPENDITURES:

During this twelve-month period of January to December 2021, the Company estimates expenses of \$46,000.00

EXHIBIT NO. \_\_\_\_\_ DOCKET NO. 20200004-GU FLORIDA PUBLIC UTILITIES CO. (GSR-1) PAGE 18 OF 26

SCHEDULE C-5 PAGE 9 OF 16

#### PROGRAM TITLE:

Space Conditioning Program

#### PROGRAM DESCRIPTION:

This program is designed to convert on-main customers from electric space conditioning equipment to energy-efficient natural gas space conditioning equipment. The program provides an allowance to qualifying participants to compensate for higher initial costs of natural gas space conditioning equipment and the associated installation costs. This program also reduces summer as well as winter peak demand and contributes to the conservation of kwh/kwd consumption.

# PROGRAM ALLOWANCES:

Residential

\$1200 (For Robur model or equivalent unit)

Non-Residential

\$ 50 per ton

# PROGRAM PROJECTIONS:

For the twelve-month period of January to December 2021, the Company estimates that 1 customer projects will utilize this program.

# PROGRAM FISCAL EXPENDITURES:

During the twelve-month period of January to December 2021, the Company estimates expenses of \$0.00

EXHIBIT NO. \_\_\_\_\_ DOCKET NO. 20200004-GU FLORIDA PUBLIC UTILITIES CO. (GSR-1) PAGE 19 OF 26

SCHEDULE C-5 PAGE 10 OF 16

#### PROGRAM TITLE:

Conservation Demonstration and Development Program

#### PROGRAM DESCRIPTION:

The primary purpose of the Conservation Demonstration and Development (CDD) program is to pursue research, development, and demonstration projects that are designed to promote energy efficiency and conservation. The CDD program is meant to be an umbrella program for the identification, development, demonstration, and evaluation of promising new end-use technologies. The CDD program does not focus on any specific end-use technology but, instead, will address a wide variety of energy applications. This program is slated to end on December 31st, 2017.

# PROGRAM ALLOWANCES:

Not applicable.

# PROGRAM PROJECTIONS:

This program ended on December 31, 2017 thus there are no program projections for 2021.

#### PROGRAM FISCAL EXPENDITURES:

This program ended on December 31, 2017 thus there are no program projections for 2021.

# PROGRAM TITLE:

Commercial Large Food Service Program

# PROGRAM DESCRIPTION:

This program is designed to encourage owners and operators of large food service restaurants to purchase energy efficient natural gas appliances through the offering of commercial appliance rebates. Commercial large food service customers are defined as establishments primarily engaged in the retail sale of prepared food and drinks for on-premise or immediate consumption with an annual consumption of greater than 9,000 therms. The rebates offered within this program are limited to the specific appliance types and rebate categories depicted below.

#### PROGRAM ALLOWANCES:

|                       | 50% of the purchase and     | 100% of the purchase and    | 50% of the purchase and     |

# FLORIDA PUBLIC UTILITIES COMPANY CONSOLIDATES NATURAL GAS DIVISION PROGRAM DESCRIPTION AND PROGRESS

SCHEDULE C-5 PAGE 16 OF 16

#### PROGRAM TITLE:

Residential Propane Distribution Program

#### PROGRAM DESCRIPTION:

The program is designed to promote the use of "gas" within developments that are built beyond the economic extension of the Company's existing natural gas infrastructure. The concept of installing an underground propane system, which includes distribution mains, service laterals and meter sets that are capable of supplying either propane or natural gas, is a viable method of encouraging installation of "gas" appliances in the residential subdivision at the time of construction. This program is designed to provide incentives when natural gas becomes available to the development and the propane appliances are replaced with natural gas appliances.

#### PROGRAM ALLOWANCES:

| Furnace or Hydro heater | \$525 |
|-------------------------|-------|
| Water Heater            | \$275 |
| Range                   | \$75  |
| Dryer                   | \$75  |

# PROGRAM PROJECTIONS:

For the twelve-month period of January to December 2021, the Company estimates that no appliances will be connected to its natural gas system using this program.

#### PROGRAM FISCAL EXPENDITURES:

During the twelve-month period of January to December 2021, the Company estimates expenses of \$0.

Program Title: New Residential Construction

Program Description: The New Residential Construction Program is

designed to save energy for new home owners by offering incentives to builders for the installation of natural gas appliances. The incentive assists in the defraying of the initial higher cost associated with piping and venting when installing energy efficient

natural gas appliances.

Program Accomplishments: <u>January 1, 2019 to December 31, 2019</u>

Natural Gas Cooking (Range, Oven, Cooktop): 10,101
Natural Gas Dryer: 9,687
Natural Gas Heating: 841
Natural Gas High Efficiency Water Heater: 77
Natural Gas Tank Water Heater: 3,597
Natural Gas Tankless Water Heater: 7,249

Program Fiscal Expenditures: January 1, 2019 to December 31, 2019

Actual expenses were \$8,180,500.

Program Progress Summary: Through this reporting period 169,863 customers have

Program Title: Residential Appliance Retention

Program Description: The Residential Appliance Retention Program is

designed to encourage current natural gas customers to make cost-effective improvements in existing residences by replacing existing natural gas appliances with energy efficient natural gas appliances. The goal is to offer customer rebates for

installing energy efficient natural gas appliances.

Program Accomplishments: January 1, 2019 to December 31, 2019

Natural Gas Cooking (Range, Oven, Cooktop): 577
Natural Gas Dryer: 637
Natural Gas Heating: 3,218
Natural Gas High Efficiency Water Heater: 66
Natural Gas Tank Water Heater: 4,428
Natural Gas Tankless Water Heater: 1,983

Program Fiscal Expenditures: <u>January 1, 2019 to December 31, 2019</u>

Actual expenses were \$4,332,617.

Program Progress Summary: Through this reporting period 194,773 customers have

Program Title: Residential Appliance Replacement

Program Description: The Residential Appliance Replacement Program is

designed to encourage customers to make costeffective improvements in existing residences by replacing existing electric appliances with energy efficient natural gas appliances. The goal is to offer customer rebates for installing energy efficient natural gas appliances which assist in the defraying the initial higher cost associated with piping and venting for

natural gas appliances.

Program Accomplishments: <u>January 1, 2019 to December 31, 2019</u>

Natural Gas Cooking (Range, Oven, Cooktop):

Natural Gas Dryer:

Natural Gas Heating:

Natural Gas High Efficiency Water Heater:

Natural Gas Tank Water Heater:

Natural Gas Tankless Water Heater:

805

Program Fiscal Expenditures: January 1, 2019 to December 31, 2019

Actual expenses were \$749,522.

Program Progress Summary: Through this reporting period 27,862 customers have

Program Title: Oil Heat Replacement

Program Description: The Oil Heat Replacement Program is designed to

encourage customers to make cost-effective improvements in existing residences by converting/replacing their existing oil heating system to more energy efficient natural gas heating. The goal is to offer customer rebates for installing energy efficient natural gas heating systems to assist in the defraying the initial higher cost associated with piping and

venting for natural gas appliances.

Program Accomplishments: <u>January 1, 2019 to December 31, 2019</u>

Energy Efficient Gas Furnace: 0 Space Heating: 0

Program Fiscal Expenditures: <u>January 1, 2019 to December 31, 2019</u>

Actual expenses were \$0.

Program Progress Summary: Through this reporting period 374 customers have

Program Title: <u>Commercial Electric Replacement</u>

Program Description: The Commercial Electric Replacement Program is

designed to encourage commercial customers to make cost-effective improvements in existing facilities by replacing electric resistance appliances with energy efficient natural gas appliances. The goal is to offer customer rebates for installing energy efficient natural gas appliances which assist in the defraying the initial higher cost associated with piping and venting for

natural gas appliances.

Program Accomplishments: <u>January 1, 2019 to December 31, 2019</u>

Natural Gas Tankless Water Heater: 0

Program Fiscal Expenditures: <u>January 1, 2019 to December 31, 2019</u>

Actual expenses were \$0.

Program Progress Summary: Through this reporting period 60,481 customers have

Program Title: <u>Gas Space Conditioning</u>

Program Description: The Gas Space Conditioning Program is designed to

encourage commercial customers to make costeffective improvements in existing facilities by converting/replacing their electric space conditioning equipment to energy efficient natural gas space conditioning equipment. The goal is to offer customer rebates for installing energy efficient natural gas space conditioning systems which assist in the defraying the initial higher cost associated with piping and venting

for natural gas equipment.

Program Accomplishments: <u>January 1, 2019 to December 31, 2019</u>

Number of customers participating: 0

Program Fiscal Expenditures: <u>January 1, 2019 to December 31, 2019</u>

Actual expenses were \$0.

Program Progress Summary: Through this reporting period 7,478 customers have

Program Title: <u>Small Package Cogeneration</u>

Program Description: The Small Package Cogeneration Program is

designed to encourage commercial customers to make cost-effective improvements in existing facilities by the installation of an energy efficient on-site natural gas fired combined heat and power system for the simultaneous production of mechanical and thermal energy. The goal is to offer customer rebates for installing an energy efficient natural gas fired combined heat and power system. In addition, for customers interested, workshops and a feasibility audit

can be made available upon request.

Program Accomplishments: <u>January 1, 2019 to December 31, 2019</u>

Number of customers participating: 0

Program Fiscal Expenditures: <u>January 1, 2019 to December 31, 2019</u>

Actual expenses were \$0.

Program Progress Summary: Through this reporting period 7 customers have

Program Title: <u>Monitoring and Research</u>

Program Description: The Monitoring and Research Program is designed to

pursue research, development, and demonstration projects designed to promote energy efficiency and conservation. Peoples Gas System will monitor and evaluate potential conservation programs and demonstrate prototype technologies emerging in the marketplace to determine the impact to the company and its ratepayers and may occur at customer premises, Peoples Gas System's facilities or at independent test sites. Peoples Gas System will report program progress through the annual NGCCR True-Up filing and will provide the results of Monitoring and Research activities in the company's annual DSM

Report.

Program Accomplishments: <u>January 1, 2019 to December 31, 2019</u>

Number of customers participating: 0

Program Fiscal Expenditures: <u>January 1, 2019 to December 31, 2019</u>

Actual expenses were \$0.

Program Progress Summary: In 2019, Peoples Gas Systems did not have any active

Monitoring and Research activities.

DOCKET NO. 20200004-GU NGCCR 2019 TRUE-UP EXHIBIT KLB-1, SCHEDULE CT-6, PAGE 9 OF 13

# **Program Description and Progress**

Program Title: <u>Conservation Demonstration Development</u>

Program Description: The Conservation Demonstration Development

Program is designed to encourage Peoples Gas Systems and other natural gas local distribution companies to pursue opportunities for individual and joint research including testing of technologies to

develop new energy conservation programs.

Program Accomplishments: <u>January 1, 2019 to December 31, 2019</u>

Number of customers participating: 0

Program Fiscal Expenditures: <u>January 1, 2019 to December 31, 2019</u>

Actual expenses were \$0.

Program Progress Summary: Currently, Peoples Gas System continues to review

possible programs to research.

#### **Program Description and Progress**

Program Title: <u>Commercial New Construction</u>

Program Description: The Commercial New Construction program is

designed to save energy for new commercial facility owners by offering incentives to commercial customers for the installation of natural gas appliances. The incentive assists in the defraying of the initial higher cost associated with piping and venting when installing

energy efficient natural gas appliances

\_

Program Accomplishments: <u>January 1, 2019 to December 31, 2019</u>

Natural Gas Cooktop/Range: 15
Natural Gas Dryer: 24
Natural Gas Fryer: 31
Natural Gas Tank Water Heater: 7
Natural Gas Tankless Water Heater: 53

Program Fiscal Expenditures: <u>January 1, 2019 to December 31, 2019</u>

Actual expenses were \$190,050

Program Progress Summary: Through this reporting period 572 customers have

participated.

#### **Program Description and Progress**

Program Title: <u>Commercial Retention</u>

Program Description: The Commercial Retention Program is designed to

encourage current natural gas commercial customers to make cost-effective improvements in existing residences by replacing existing natural gas appliances with energy efficient natural gas appliances. The goal is to offer customer rebates for

installing energy efficient natural gas appliances.

Program Accomplishments: <u>January 1, 2019 to December 31, 2019</u>

Natural Gas Cooktop/Range: 2
Natural Gas Dryer: 165
Natural Gas Fryer: 19
Natural Gas Tank Water Heater: 10
Natural Gas Tankless Water Heater: 182

Program Fiscal Expenditures: <u>January 1, 2019 to December 31, 2019</u>

Actual expenses were \$557,650.

Program Progress Summary: Through this reporting period 1,616 customers have

participated.

#### **Program Description and Progress**

Program Title: <u>Commercial Replacement</u>

Program Description: The Commercial Replacement Program is designed

designed to encourage commercial customers to make cost-effective improvements in existing facilities by replacing electric appliances with energy efficient natural gas appliances. The goal is to offer customer rebates for installing energy efficient natural gas appliances which assist in the defraying the initial higher cost associated with piping and venting for

natural gas appliances.

Program Accomplishments: <u>January 1, 2019 to December 31, 2019</u>

Natural Gas Cooktop/Range: 6
Natural Gas Dryer: 3
Natural Gas Fryer: 45
Natural Gas Tankless Water Heater: 369

Program Fiscal Expenditures: <u>January 1, 2019 to December 31, 2019</u>

Actual expenses were \$1,034,019.

Program Progress Summary: Through this reporting period 1,526 customers have

participated.

**Program Title:** NEW RESIDENTIAL CONSTRUCTION

Program Description: This program is designed to increase the number of high priority natural gas

customers in the new residential construction market. The program offers incentives to builders for the installation of natural gas appliances in order to defray the initial higher cost associated with piping and venting when installing

natural gas appliances.

**Program Projections**: January 1, 2020 to December 31, 2020

During this period, there are 9,736 customers projected to participate.

January 1, 2021 to December 31, 2021

During this period, there are 10,155 customers projected to participate.

**Program Fiscal** 

**Expenditures**: January 1, 2020 to December 31, 2020

Expenditures are estimated to be \$7,682,650.

January 1, 2021 to December 31, 2021

Expenditures are estimated to be \$8,010,560.

**Program Progress** 

**Summary**: Through December 31, 2019, the New Residential Construction participant totals

are 169,863.

**Program Title:** RESIDENTIAL APPLIANCE RETENTION

Program Description: This program is designed to encourage current natural gas customers to replace

existing natural gas appliances with energy efficient natural gas appliances. The program offers allowances to assist in defraying the cost of more expensive

energy efficient appliances.

**Program Projections:** January 1, 2020 to December 31, 2020

During this period, there are 10,756 customers projected to participate.

January 1, 2021 to December 31, 2021

During this period, there are 11,219 customers projected to participate.

**Program Fiscal** 

**Expenditures:** January 1, 2020 to December 31, 2020

Expenditures are estimated to be \$4,589,754.

January 1, 2021 to December 31, 2021

Expenditures are estimated at \$4,820,593.

**Program Progress** 

Summary: Through December 31, 2019, the Residential Appliance Retention participant

totals are 194,773.

**Program Title:** RESIDENTIAL APPLIANCE REPLACEMENT

Program Description: This program was designed to encourage the replacement of electric resistance

appliances with energy efficient natural gas appliances by offering incentives to defray the initial higher cost associated with piping and venting for natural gas

appliances.

**Program Projections:** January 1, 2020 to December 31, 2020

During this period, there are 1,510 customers projected to participate.

January 1, 2021 to December 31, 2021

During this period, there are 1,575 customers projected to participate.

**Program Fiscal** 

**Expenditures:** January 1, 2020 to December 31, 2020

Expenditures are estimated to be \$1,044,888.

January 1, 2021 to December 31, 2021

Expenditures are estimated to be \$1,089,818.

**Program Progress** 

**Summary:** Through December 31, 2019, the Residential Appliance Replacement participant

totals are 27,862.

**Program Title:** COMMERCIAL ELECTRIC REPLACEMENT

Program Description: This program is designed to encourage the replacement of electric resistance

equipment in commercial establishments by offering piping and venting allowances to defray the additional cost of installing more energy efficient

equipment.

**Program Projections:** January 1, 2020 to December 31, 2020

During this period, there are zero customers projected to participate.

January 1, 2021 to December 31, 2021

During this period, there are zero customers projected to participate.

**Program Fiscal** 

**Expenditures:** January 1, 2020 to December 31, 2020

Expenditures are estimated to be \$0.

January 1, 2021 to December 31, 2021

Expenditures are estimated at \$0.

**Program Progress** 

Summary: Through December 31, 2019, the Commercial Electric Replacement participant

totals are 60,481.

**Program Title:** GAS SPACE CONDITIONING

Program Description: This Program is designed to convert on-main customers from electric space

conditioning equipment to energy efficient gas space conditioning. The program offers piping and venting allowances to reduce the generally higher cost of installing gas space conditioning equipment. This program would also reduce summer as well as winter peak demand and contribute to the conservation of kWh

/ kWD consumption.

**Program Projections:** January 1, 2020 to December 31, 2020.

During this period, there are zero customers projected to participate.

January 1, 2021 to December 31, 2021

During this period, there are 8 customers projected to participate.

**Program Fiscal** 

**Expenditures:** January 1, 2020 to December 31, 2020

Expenditures are estimated to be \$0.

January 1, 2021 to December 31, 2021

Expenditures are estimated to be \$86,700.

**Program Progress** 

Summary: Through December 31, 2019, the Gas Space Conditioning participant totals are

7,478 Tons installed.

**Program Title:** SMALL PACKAGE COGENERATION

Program Description: This program was designed to promote the direct use of natural gas to generate

on-site power and utilize the waste heat for on-site heating, cooling and water heating requirements for commercial and industrial applications. For commercial and industrial customers that are interested, workshops and a feasibility audit will

be made available upon request.

**Program Projections:** January 1, 2020 to December 31, 2020.

During this period, there are zero customers projected to participate.

January 1, 2021 to December 31, 2021

During this period, there are zero customers projected to participate.

**Program Fiscal** 

**Expenditures:** January 1, 2020 to December 31, 2020

Expenditures are estimated to be \$0.

January 1, 2021 to December 31, 2021

Expenditures are estimated to be \$0.

**Program Progress** 

Summary: Through December 31, 2019, the Small Package Cogeneration participant totals

are 7.

**Program Title:** COMMON EXPENSES

**Program Description:** These are expenses related to the support, delivery, and advertising of all Peoples

Gas System's conservation programs.

**Program Projections:** N/A

**Program Fiscal** 

**Expenditures:** January 1, 2020 to December 31, 2020

Expenditures are estimated to be \$1,954,240.

January 1, 2021 to December 31, 2021

Expenditures are estimated to be \$1,974,895.

**Program Progress** 

**Summary:** N/A

**Program Title:** MONITORING AND RESEARCH

Program Description: This program will be used to monitor and evaluate Peoples Gas System existing

conservation programs and demonstrate prototype technologies emerging in the

marketplace.

**Program Projections:** See Program Progress Summary.

**Program Fiscal** 

**Expenditures:** January 1, 2020 to December 31, 2020

Expenditures are estimated to be \$0.

January 1, 2021 to December 31, 2021

Expenditures are estimated to be \$0.

**Program Progress** 

**Summary:** Currently, Peoples Gas System has no active Monitoring and Research programs.

The company continues to review possible programs to research and develop.

**Program Title:** OIL HEAT REPLACEMENT

Program Description: This program is designed to encourage customers to convert their existing oil

heating system to more energy efficient natural gas heating. Peoples Gas System offers piping and venting allowances to defray the higher cost of installation of natural gas systems in hopes of preventing the customer from putting in less costly

electric resistance strip heat.

**Program Projections:** January 1, 2020 to December 31, 2020.

During this period, there is 1 customer projected to participate.

January 1, 2021 to December 31, 2021

During this period, there are zero customers projected to participate.

**Program Fiscal** 

**Expenditures:** January 1, 2020 to December 31, 2020

Expenditures are estimated to be \$330.

January 1, 2021 to December 31, 2021

Expenditures are estimated to be \$0.

**Program Progress** 

Summary: Through December 31, 2019, the Oil Heat Replacement participant totals are 374.

**Program Title:** CONSERVATION DEMONSTRATION AND DEVELOPMENT

Program Description: The Conservation Demonstration and Development program allows local

distribution companies to pursue opportunities for individual and joint research including testing of technologies to develop new energy conservation programs.

**Program Projections:** See Program Progress Summary.

**Program Fiscal** 

**Expenditures:** January 1, 2020 to December 31, 2020

Expenditures are estimated to be \$0.

January 1, 2021 to December 31, 2021

Expenditures are estimated to be \$0.

**Program Progress** 

**Summary:** The company continues to review possible programs to research and develop.

**Program Title:** COMMERCIAL NEW CONSTRUCTION

Program Description: This Program is designed to increase the number of high priority natural gas

customers in the new commercial construction market. The company offers incentives to customers for the installation of natural gas appliances in order to defray the initial higher cost associated with piping and venting when installing

natural gas appliances.

**Program Projections:** January 1, 2020 to December 31, 2020

During this period, there are 38 customers projected to participate.

January 1, 2021 to December 31, 2021

During this period, there are 42 customers projected to participate.

**Program Fiscal** 

**Expenditures:** January 1, 2020 to December 31, 2020

Expenditures are estimated to be \$185,000.

January 1, 2021 to December 31, 2021

Expenditures are estimated to be \$199,125.

**Program Progress** 

**Summary:** Through December 31, 2019, the Commercial New Construction participant totals

are 572.

**Program Title:** COMMERCIAL RETENTION

Program Description: This program is designed to encourage current natural gas customers to replace

existing natural gas appliances with energy efficient natural gas appliances. The program offers allowances to assist in defraying the cost of more expensive

energy efficient appliances.

**Program Projections:** January 1, 2020 to December 31, 2020

During this period, there are 110 customers projected to participate.

January 1, 2021 to December 31, 2021

During this period, there are 123 customers projected to participate.

**Program Fiscal** 

**Expenditures:** January 1, 2020 to December 31, 2020

Expenditures are estimated to be \$390,100.

January 1, 2021 to December 31, 2021

Expenditures are estimated to be \$437,175.

**Program Progress** 

Summary: Through December 31, 2019, the Commercial Retention participant totals are

1,616.

**Program Title:** COMMERCIAL REPLACEMENT

Program Description: This program was designed to encourage the replacement of electric appliances

with energy efficient natural gas appliances by offering incentives to defray the initial higher cost associated with piping and venting for natural gas appliances.

**Program Projections:** January 1, 2020 to December 31, 2020

During this period, there are 150 customers projected to participate.

January 1, 2021 to December 31, 2021

During this period, there are 167 customers projected to participate.

**Program Fiscal** 

**Expenditures:** January 1, 2020 to December 31, 2020

Expenditures are estimated to be \$721,682.

January 1, 2021 to December 31, 2021

Expenditures are estimated to be \$761,640.

**Program Progress** 

**Summary:** Through December 31, 2019, the Commercial Replacement participant totals are

1,526.

**Program Title:** RESIDENTIAL CUSTOMER ASSISTED ENERGY AUDIT

Program Description: A conservation program designed to save energy by increasing residential

customer awareness of natural gas energy use in personal residences. This program allows for residential customers to engage in an online energy audit. Savings are dependent on the customer implementing energy conservation measure and practice recommendations. Recommendations provided to the customer includes an estimated range of energy savings including insightful

advice on how to manage their overall energy usage.

**Program Projections**: January 1, 2020 to December 31, 2020

During this period, there are 4,770 customers projected to participate.

January 1, 2021 to December 31, 2021

During this period, there are 6,360 customers projected to participate.

**Program Fiscal** 

**Expenditures**: January 1, 2020 to December 31, 2020

Expenditures are estimated to be \$125,000.

January 1, 2021 to December 31, 2021

Expenditures are estimated to be \$125,000.

**Program Progress** 

**Summary**: PGS began offering this program in April 2020.

# SEBRING GAS SYSTEM, INC. Program Description and Progress

#### **Program Title:**

**Residential New Construction** 

#### **Program Description:**

The Residential New Construction Program is designed to increase the overall penetration of natural gas in the single family and multi-family construction residential markets of the Company's service territory by expanding consumer energy options in new homes.

For the period January 1, 2019 through December 31, 2019, the Company operated under the terms of Order No. PSC-10-0551-PAA-EG, issued on September 7, 2010.

Order No. PSC-10-0551-PAA-EG prescribed the following Residential New Construction Cash Allowances:

| Gas Storage Tank Water Heater                  | \$350 |
|------------------------------------------------|-------|
| Gas High Efficiency Storage Tanks Water Heater | \$400 |
| Gas Tankless Water Heater                      | \$550 |
| Gas Heating                                    | \$500 |
| Gas Cooking                                    | \$150 |
| Gas Clothes Drying                             | \$100 |

#### **Program Accomplishments:**

For the twelve month period January 2019 through December 2019, the amount of incentives paid by the Company was:

\$3,150

### SEBRING GAS SYSTEM, INC. **Program Description and Progress**

#### Program Title:

Residential Appliance Replacement Program

#### **Program Description:**

The Residential Appliance Replacement Program is designed to encourage the replacement of inefficient non-natural gas residential appliances with energy efficient natural gas appliances. Incentives are offered for the replacement of non-natural gas water heating, heating, cooking or clothes drying appliances through the purchase and/or lease of energy efficient natural gas appliances.

For the period January 1, 2019 through December 31, 2019, the Company operated under the terms of Order No. PSC-10-0551-PAA-EG, issued on September 7, 2010.

Order No. PSC-10-0551-PAA-EG prescribed the following Residential Appliance Replacement Cash Allowances:

|                                                | \$500 |
|------------------------------------------------|-------|
| Gas Storage Tank Water Heater                  | \$550 |
| Gas High Efficiency Storage Tanks Water Heater | \$675 |
| Gas Tankless Water Heater                      | \$725 |
| Gas Heating                                    | \$200 |
| Gas Cooking                                    | \$150 |
| Gas Clothes Drying                             |       |

#### Program Accomplishments:

For the twelve month period January 2019 through December 2019, the amount of incentives paid by the Company under the Residential Appliance Replacement Program was:

COMPANY:

Sebring Gas System, Inc.

Docket No. 20200004-GU ECCR 2021 Projections

Exhibit JHM-2, Page 9 of 19

## Sebring Gas System, Inc. Program Description and Progress

#### Program Title

Residential New Construction Program

#### **Program Description**

This program is designed to increase the overall penetration of natural gas in the single family and multi-family residential construction markets of Sebring Gas System, Inc. (the Company)'s service territory by expanding consumer energy options in new homes. Incentives are offered to any home builder or developer who installs the below listed energy efficient appliances.

#### **Current Approved Allowances**

\$350 Gas Storage Tank Water Heating

\$400 Gas High Efficiency Storage tank Water Heater

\$550 Tankless Water Heating

\$500 Gas Heating

\$150 Gas Cooking

\$100 Gas Clothes Drying

#### **Program Projections**

For the twelve-month period of January through December 2020, the Company estimates that the following allowances will be paid for the Residential New Home Construction Program:

Tankless Water Heating:

2 allowances at \$550 each for a total of \$1,100.

Gas Cooking:

2 allowances at \$150 each for a total of \$ 300.

Gas Clothes Drying:

1 allowances at \$100 each for a total of \$ 100.

The total estimated allowances for the Residential New Home Construction Program are \$6,200.

#### **Program Fiscal Expenditures**

For the twelve-month period of January through December 2021, the Company estimates expenses of the Residential New Home Construction Program to be \$4,102.

## Sebring Gas System, Inc. Program Description and Progress

#### **Program Title**

Residential Appliance Replacement Program

#### **Program Description**

This program is designed to encourage the replacement of inefficient non-natural gas residential appliances with energy efficient natural gas appliances. Incentives are offered for the replacement of non-gas appliances through the purchase of energy efficient natural gas appliances.

#### **Current Approved Allowances**

\$500 Gas Storage Tank Water Heating

\$550 Gas High Efficiency Storage tank Water Heater

\$675 Tankless Water Heating

\$725 Gas Heating

\$200 Gas Cooking

\$150 Gas Clothes Drying

#### **Program Projections**

For the twelve-month period of January through December 2020, the Company estimates that the following allowances will be paid for Residential Appliance Replacement Program:

High Efficiency Tank Water Heater: 1 allowance for \$550.

Tankless Water Heating:

9 allowances at \$675 each for a total of \$6,075.

Gas Cooking:

3 allowances at \$200 each for a total of \$600.

Gas Clothes Drying:

2 allowances at \$150 each for a total of \$300.

Program Description and Progress

#### **Program Title**

**Conservation Education Program** 

#### **Program Description**

The object of this program is to inform consumers about the Company's energy conservation programs and provide general information on energy efficiency measures that will reduce energy consumption and costs.

#### **Program Activity and Projections:**

The Company continues to communicate with several homebuilders, appliance retailers and contractors in its service area to provide information on its programs. The Company attends local builder association meetings, participating in their events. The Company continues to use a part-time outside contract sales group in an attempt to increase program participation. In 2009, the Company began participation in the Get Gas Florida consumer education program supported by the Florida Natural Gas Association. In the year 2010 the Company began a program of direct mailings to inform the public located within its service area of the benefit of using natural gas and the awareness of the programs offered by the Company.

#### Program Fiscal Expenditures:

The Company books any expenditures for the education program to the various incentive programs.

PROGRAM TITLE:

LARGE FOOD SERVICE COMMERCIAL CONSERVATION REBATE PROGRAM

PROGRAM DESCRIPTION:

This program is designed to encourage owners and operators of large food service restaurants to purchase energy efficient natural gas appliances through the offering of commercial appliance rebates. Commercial large food service customers are defined as establishments primarily engaged in the retail sale of prepared food and drinks for on-premise with an annual consumption of greater than 9,000 therms. The rebates offered within this program are depicted below:

| APPLIANCE LOAD        | ALLOWANCE  |
|-----------------------|------------|
| GAS WATER HEATING     | \$1,500.00 |
| FRYER                 | \$3,000.00 |

FCG's Response to Staff's First Set of Interrogatories Nos. 1-7

FLORIDA PUBLIC SERVICE COMMISSION

DOCKET: 20200004-GU EXHIBIT: 12 PARTY: STAFF HEARING EXHIBITS

DESCRIPTION: FCG's Response to Staff's

First Set of Interrogatories Nos. 1-7

[Bates Nos. 00001-00009]

Staffs First Set of Interrogatories

Interrogatory No: 1

# QUESTION:

Please describe how the COVID-19 Pandemic affected the Company's ability to offer energy conservation programs in 2020, and address the following in your response:

- a. If disruption(s) occurred in certain programs, describe what steps the Company has taken to mitigate the disruption(s).
- b. If the COVID-19 Pandemic impacted clause-recoverable expenses, describe what steps the Company has taken regarding these expenses.

# **RESPONSE**

- a. The primary disruption to the Company's conservation programs due to the COVID-19 pandemic has been to the face-to-face interactions with the public and trade allies to promote the programs and educate customers on energy conservation. The Company has proactively taken the following steps to mitigate disruptions:
  - Special Energy Conservation Program ("ECP") education campaign: Florida City Gas developed a special ECP campaign during the COVID-19 pandemic, highlighting the opportunities for saving on energy costs through the use of natural gas, while staying safe at home. This campaign included television and online information-sharing within FCG's service territories.
  - The Company has shifted the resources initially assigned to face to face activities to online, social media and direct mail in order to keep our customers and the public informed of our programs.
- b. As a result of the mitigation steps described in response to part (a) above, the COVID-19 pandemic has had little to no impact on the Company's clause-recoverable expenses.

Florida City Gas
Docket No: 20200004
Staffs First Set of Interrogatories

Interrogatory No: 2

# QUESTION:

Please describe how the COVID-19 Pandemic affected the Company's outreach efforts and/or advertising strategy in 2020. Address in your response how, or if, social media platforms are a component of the Company's outreach, and how they have been used during the COVID-19 Pandemic.

# RESPONSE:

The Company has redirected outreach efforts from public facing events to promotion through virtual events, social media, and web ads. Social media platforms have been utilized to communicate with existing customers who may need replacement appliances, as well as prospective customers who would like to add service. The Company is also exploring the use of online videos and webinars to conduct additional outreach during the remainder of 2020 with support from local community groups who also provide support to FCG's customers.

Interrogatory No: 3

# QUESTION:

Please refer to Schedule CT-2, Pages 2 through 4, of FCG's May 4, 2020 filing in Docket No.

20200004-GU to answer the following questions.

Please provide an overview, by program, of the types of expenditures found in the "Other" cost category.

## **RESPONSE:**

Under the category "Other," the Company records conservation program expenses that enhance and benefit all programs, such as vendor fees for rebate processing. The vendor fees for rebate processing are necessary for the processing and payment release of residential gas to gas, electric to gas, reactivation, and propane to gas rebate applications, as well as the payment release fulfillment of commercial appliance, conversion, and new construction rebates. Also included in the "Other" category is the cost for the Company's participation in the Florida Natural Gas Association marketing, community outreach, and regulatory committees related to the conservation program.

Florida City Gas Docket No: 20200004 Staffs First Set of Interrogatories Interrogatory No: 4

# **QUESTION:**

Please refer to Schedule CT-2, Pages 2 through 4, of FCG's May 4, 2020 filing in Docket No.

20200004-GU to answer the following questions.

Please explain why the Company does not allocate Common Costs to the various DSM programs.

# RESPONSE:

Common costs capture activities that benefit all programs, such as advertising and administrative payroll as the major components of common costs. Advertising is designed to promote multiple programs simultaneously, and situations exist where availability of information on a specific program can cascade into the benefit of different programs. Because of this overlap, it becomes difficult to logically quantify advertising costs by program. Administrative payroll covers the responsibility of oversight across all programs, making it difficult to quantify the allocation of time to one specific program. Because the costs included in the Company's Common costs benefit all programs, the costs are not allocated to the individual natural gas conservation programs.

Florida City Gas Docket No: 20200004 Staffs First Set of Interrogatories Interrogatory No: 5

# **QUESTION**:

Please refer to Schedule CT-2, Pages 2 through 4, of FCG's May 4, 2020 filing in Docket No.

20200004-GU to answer the following questions.

Please identify the type of costs that are recorded as Common Costs.

# RESPONSE:

Common costs are composed primarily of advertising, administrative payroll related to the natural gas conservation programs, and rebate payment release fulfillment. Advertising is designed to cover multiple programs simultaneously, and situations where availability of information on a specific program can cascade into the benefit of different programs.

# QUESTION:

Please refer to Schedule C-6, Exhibit No. (MB-1), Page 12 of 19 of FCG's April 30, 2019 and May 4, 2020 filings in Docket No. 20190004-GU and No. 20200004-GU to answer the following questions.

Please answer the following questions regarding the Residential Appliance Retention Program:

- a. Please explain the \$214,020 variance for Incentives that was recorded for this program in 2019.
- b. Please populate the table below with the number of participants in the program in 2018 and 2019.

| Program                         | Program Pa | articipation |
|---------------------------------|------------|--------------|
| Program                         | 2018       | 2019         |
| Residential Appliance Retention |            |              |

c. Referring to the information provided in response to Interrogatory Number 6(b), and if applicable, please explain, the reason for any change in the number of participants greater than ten (10) percent between 2018 and 2019.

## **RESPONSE**:

- a. The variance for incentives is due to an increase in the number of customers participating and contractors promoting this program in 2019 compared to the projected number.
- b. Please populate the table below with the number of participants in the program in 2018 and 2019.

| Program                         | ]     | Program Participation |
|---------------------------------|-------|-----------------------|
|                                 | 2018  | 2019                  |
| Residential Appliance Retention | 4,230 | 4,674                 |

| program in 2019 of | The variance of 10.5% can be attributed to an increase of customer participation in the program in 2019 due to the rise in customer leased appliances. |  |  |  |

|                    |                                                                                                                                                        |  |  |  |
|                    | •                                                                                                                                                      |  |  |  |
|                    |                                                                                                                                                        |  |  |  |
|                    |                                                                                                                                                        |  |  |  |
|                    |                                                                                                                                                        |  |  |  |
|                    |                                                                                                                                                        |  |  |  |
|                    |                                                                                                                                                        |  |  |  |
|                    | •                                                                                                                                                      |  |  |  |
|                    |                                                                                                                                                        |  |  |  |
|                    |                                                                                                                                                        |  |  |  |
|                    |                                                                                                                                                        |  |  |  |
|                    |                                                                                                                                                        |  |  |  |
|                    |                                                                                                                                                        |  |  |  |
|                    |                                                                                                                                                        |  |  |  |
|                    |                                                                                                                                                        |  |  |  |

Staffs First Set of Interrogatories

Interrogatory No: 7

# **QUESTION:**

Please refer to Schedule C-6, Exhibit No. (MB-1), Page 12 of 19 of FCG's April 30, 2019 and May 4, 2020 filings in Docket No. 20190004-GU and No. 20200004-GU to answer the following questions.

Please answer the following questions regarding the Commercial Appliance Program:

- a. Please explain the \$42,242 variance for Incentives that was recorded in 2019.
- b. Please populate the table below with the number of participants in the program in 2018 and 2019.

| Program                         | Program Participation |      |  |
|---------------------------------|-----------------------|------|--|
|                                 | 2018                  | 2019 |  |
| Residential Appliance Retention |                       |      |  |

c. Referring to the information provided in response to Interrogatory Number 7(b), if applicable, please explain the reason for any change in the number of participants greater than ten (10) percent between 2018 and 2019.

# RESPONSE:

- a. The variance for incentives can be attributed to an increase in customer participation in the program in 2019 and an increased marketing effort through grass roots outreach.
- b. See the table below:

| Program                         | Program Participation |      |  |
|---------------------------------|-----------------------|------|--|
|                                 | 2018                  | 2019 |  |
| Residential Appliance Retention | 107                   | 123  |  |

c. The increase in program participation is associated with the launch of a contractor initiative in 2019. This initiative rallied existing contractors as well as new contractors to create a more robust pool of engaged contractors to be available to participate and offer the program to our customers.

FCG's Response to Staff's Second Set of Interrogatories Nos. 8-9

> FLORIDA PUBLIC SERVICE COMMISSION DOCKET: 20200004-GU EXHIBIT: 13 PARTY: STAFF HEARING EXHIBITS DESCRIPTION: FCG's Response to Staff's Second Set of Interrogatories Nos. 8-9

[Bates Nos. 00010-00013]

Staffs Second Set of Interrogatories

Interrogatory No: 8

# **QUESTION:**

Please refer to Schedule CT-2, Page 2 of 4, of FCG's May 4, 2020 filing in Docket No. 20200004-EG to answer the following questions.

Please explain the variance of \$255,330 in costs for the Residential New Construction Program between 2018 and 2019.

# RESPONSE:

During 2019, there was an increase in the construction of new residential homes, which resulted in an increase of more than 800 additional energy efficient natural gas appliances installed in 2019 as compared to 2018.

Staffs Second Set of Interrogatories

Interrogatory No: 9

# QUESTION:

Please refer to Schedule CT-2, Page 2 of 4, of FCG's May 4, 2020 filing in Docket No. 20200004-EG to answer the following questions.

Please identify the level of actual participation in 2018 and 2019 as well as the estimated participation in 2020 in each program in the table below. Please explain any variance of plus/minus 10 percent between the 2019 actual participation and 2020 estimated participation.

| Program                              | Program Participation |                  |                  |  |
|--------------------------------------|-----------------------|------------------|------------------|--|
|                                      | 2018 (actual)         | 2019<br>(actual) | 2020 (estimated) |  |
| Residential New<br>Construction      |                       |                  |                  |  |
| Residential Appliance<br>Replacement |                       |                  |                  |  |
| Propane Conversion                   |                       |                  |                  |  |
| Residential Appliance<br>Retention   |                       |                  |                  |  |
| Residential Cut and Cap              |                       |                  |                  |  |
| Comm/Ind Conversion                  | 33                    |                  |                  |  |
| Commercial Appliance                 | 264                   |                  |                  |  |

# RESPONSE:

| Program                              | Program Participation |                  |                     |                                                    |

| Comm/Ind Conversion                  | 33                    | 18               | 5                   | -15                                                |
| Commercial Appliance                 | 264                   | 300              | 327                 | 36                                                 |

Residential New Construction: This program is anticipated to continue trending upwards due to the surge in new builder projects. Propane Conversion: The Company anticipates to have a slightly higher number of residential conversions compared to 2019 as we find new opportunities in our territory.

Commercial and Industrial Conversion: These are mostly propane conversions. The reduction compared to 2019 is due to the decrease in the number of main extensions to reach new business in 2020. The Company expects these trends to change once expansion of line extensions takes place.

FCG's Response to Staff's Third Set of Interrogatories Nos. 10-17

FLORIDA PUBLIC SERVICE COMMISSION DOCKET: 20200004-GU EXHIBIT: 14 PARTY: STAFF HEARING EXHIBITS DESCRIPTION: FCG's Response to Staff's Third Set of Interrogatories Nos. 10-17

[Bates Nos. 00014-00029]

Florida City Gas Docket No: 20200004 Staffs Third Set of Interrogatories

Interrogatory No: 10

# **OUESTION:**

Please refer to the testimony of Miguel Bustos, Page 6, Lines 1-9, and Schedule C-1, page 1 of 1, of FCG's August 7, 2020 filing in Docket No. 20200004, to answer the following questions:

Schedule C-1, page 1 of 1, identifies a total of ten rate schedules (classes), including the two rate classes that FCG is proposing that energy conservation cost recovery program costs be recovered from in the January through December 2021 period. Please answer the following:

- If the Commission approved the Company's Petition, please identify how the a. customers of the GS-1250-K and GS-11M-GS25M rate schedules (classes) would benefit? Address in your response if the customers of these two "new" rate schedules (classes) would be harmed in some way if the Company's Petition were not approved?
- If the Commission approved the Company's Petition, please identify how the b. customers of the other eight rate schedules (classes) would benefit? Address in your response if the customers of the other eight rate schedules (classes) would be harmed in some way if the Company's Petition were not approved?
- Please identify the specific programs that were not available to the customers of C. the GS-1250-K and GS-11M-GS25M rate schedules (classes) in 2020. Include in your response the specific programs the Company projects the customers of the GS-1250-K and GS-11M-GS25M rate schedules (classes) would enroll in on a prospective basis.
- For comparative purposes and assuming identical consumption, would a typical d. customer of the GS-1250K rate schedule (class) pay a lower or a higher total bill if the Company's proposed Petition is approved versus not approved? Please explain your response.
- For comparative purposes and assuming identical consumption, would a typical e. customer of the GS-11M - GS25M rate schedule (class) pay a lower or a higher total bill if the Company's proposed Petition was approved versus not approved? Please explain your response.
- For comparative purposes and assuming identical consumption, would a typical f. customer of the RS-1 rate schedule (class) pay a lower or a higher total bill if the Company's proposed Petition was approved versus not approved? Please explain your response.
- For comparative purposes and assuming identical consumption, would a typical customer of the RS-100 rate schedule (class) pay a lower or a higher total bill if g. the Company's proposed Petition was approved versus not approved? Please explain your response.

- h. For comparative purposes and assuming identical consumption, would a typical customer of the GS-1 rate schedule (class) pay a lower or a higher total bill if the Company's proposed Petition was approved versus not approved? Please explain your response.
- For comparative purposes and assuming identical consumption, would a typical customer of the GS-5K rate schedule (class) pay a lower or a higher total bill if the Company's proposed Petition was approved versus not approved? Please explain your response.

# RESPONSE:

a. As stated in FCG's Petition and the direct testimony of FCG witness Bustos, FCG has over the course of the last two years increased its technical support of its industrial customers, including for rate classes GS-1250k and GS 11 M - GS25M, which support includes energy efficiency technology guidance and energy conservation program solutions, cost benefit analysis and on-site visits. The costs associated with such technical support are recovered through the NGCCR Factors. Additionally, all industrial customers, including the GS-1250k and GS 11 M - GS25M rate classes, are eligible to participate in FCG's commercial and industrial programs (Programs 9 through 11 in Schedule C-5 of Exhibit MB-2). These customers are currently eligible for and do receive these benefits today. However, the GS-1250k and GS 11 M - GS25M rate classes have not previously been charged a NGCCR Factor. FCG's request to apply the ECCR Factors to the GS-1250k and GS 11 M - GS25M rate classes is intended to help avoid cross subsidization by other rate classes and reduce the potential for free riders that benefit from but do not pay for the applicable energy conservation programs. If FCG's request is denied, FCG would need to close its energy conservation programs and discontinue providing conservation and efficiency related technical support for the GS-1250k and GS 11 M - GS25M rate classes in order to avoid free ridership and cross subsidization by other rate classes.

If FCG's request is approved, the GS-1250k and GS 11 M - GS25M rate classes will be charged the projected NGCCR Factors consistent with FCG's Commission-approved cost allocation methodology, subject to true-up of actual costs. FCG acknowledges that this will be a new surcharge that these customers have not otherwise paid in the past. However, if FCG's request is approved the GS-11250k and GS 11 M - GS25M rate classes may benefit from participating in the existing energy conservation programs (as opposed to the programs being closed for these rate classes), as well as additional energy conservation programs that may be offered in the future.

b. As explained in response to subpart (a) above, FCG's request to apply the ECCR Factors to the GS-1250k and GS 11 M - GS25M rate classes is intended to help avoid cross subsidization by other rate classes and reduce the potential for free riders that benefit from but do not pay for the applicable energy conservation programs. If approved, this would be a benefit to the other eight rate classes by ensuring that they are not paying costs incurred to provide energy conservation programs and services to the GS-11250k and GS 11 M - GS25M rate classes. All things being equal (i.e., if the total NGCCR costs remain static), this would result in an incremental decrease in the NGCCR Factors paid by the other eight rate classes. Additionally, the other 8 rate classes could benefit by the increase in interest in utilizing the latest and more efficient gas technology, which will translate in additional customers utilizing natural gas. Additional customers in our system have a favorable impact

in the utility cost distribution. If FCG's request is denied and it does not close the GS-11250k and GS 11 M - GS25M rate classes from participating in the Company's energy conservation programs and services, the other eight rate classes could see an increase in the NGCCR Factors paid to recover costs incurred to provide such programs and services to the GS-11250k and GS 11 M - GS25M rate classes. If, however, FCG's request is denied and it did close the GS-11250k and GS 11 M - GS25M rate classes from participating in the Company's energy conservation programs and services, the other eight rate classes could see an incremental decrease in the NGCCR Factors.

- c. The residential programs (Programs 1 through Program 8 in Schedule C-5 of Exhibit MB-2) were and are not available to the GS-1250k and GS-11M GS-25M rate classes -GS25M rate classes. As stated in subpart (a) above, these rate classes are and have been eligible to participate in FCG's commercial and industrial programs (Programs 9 through 11 in Schedule C-5 of Exhibit MB-2), as well as receive energy efficiency technology guidance and energy conservation program solutions, cost benefit analysis and on-site visits as described in subpart (a) above. However, other than the energy efficiency technology guidance, Program 10 "Alternative Technology Incentive" is likely the only currently available program that can meet the needs of the customer classes GS-1250k, GS-11M and GS-25M. Customer participation in Program 10 will vary depending the energy needs these customers may have.
- d. Assuming identical consumption and that total costs to be recovered through the NGCCR Factors remain static, if FCG's request is approved, the bill for the GS-1250k rate class will increase by the conservation factor of \$0.01863 per therm as shown in schedule C-1 page 1. The increase is due to the fact that the NGCCR Factor would be a new recovery rate that this rate class has not previously paid.
- e. Assuming identical consumption and that total costs to be recovered through the NGCCR Factors remain static, if FCG's request is approved, the bill for the GS-11M and GS-25M rate class will increase by the conservation factor of \$0.01094 per therm as shown in schedule C-1 page 1. The increase is due to the fact that the NGCCR Factor would be a new recovery rate that this rate class has not previously paid.
- f. Assuming identical consumption and that total costs to be recovered through the NGCCR Factors remain static, if FCG's request is approved, the bill for RS-1 will decrease to \$0.26401 per therm versus \$0.28908 if not approved. The decrease is a result of the total ECCR costs being allocated to the GS-1250k and GS-11M and GS-25M rate classes consistent with FCG's Commission-approved cost allocation methodology as shown in Exhibit MB-2, Schedule C-1, page 1.
- g. Assuming identical consumption and that total costs to be recovered through the NGCCR Factors remain static, if FCG's request is approved, the bill for RS-100 will decrease to \$0.14211 per therm versus \$0.15560 if not approved. The decrease is a result of the total ECCR costs being allocated to the GS-1250k and GS-11M and GS-25M rate classes consistent with FCG's Commission-approved cost allocation methodology as shown in Exhibit MB-2, Schedule C-1, page 1.
- h. Assuming identical consumption and that total costs to be recovered through the NGCCR Factors remain static, if FCG's request is approved, the bill for GS-1 will decrease to \$0.05728 per therm versus \$0.06272 if not approved. The decrease is a result of the total ECCR costs being allocated to the GS-1250k and GS-11M and GS-25M rate classes

- consistent with FCG's Commission-approved cost allocation methodology as shown in Exhibit MB-2, Schedule C-1, page 1.
- i. Assuming identical consumption and that total costs to be recovered through the NGCCR Factors remain static, if FCG's request is approved, the bill for GS-6K will decrease to \$0.04197 per therm versus \$0.04596 if not approved. The decrease is a result of the total ECCR costs being allocated to the GS-1250k and GS-11M and GS-25M rate classes consistent with FCG's Commission-approved cost allocation methodology as shown in Exhibit MB-2, Schedule C-1, page 1.

Staffs Third Set of Interrogatories

Interrogatory No: 11

# **OUESTION:**

Please refer to the testimony of Miguel Bustos, Page 6, Lines 1-9, and Schedule C-1, page 1 of 1, of FCG's August 7, 2020 filing in Docket No. 20200004, to answer the following questions:

Please provide a detailed description of the energy efficiency technology guidance the Company provided to its industrial customers over the course of the last two years.

Identify what costs have been incurred to provide energy efficiency technology guidance to industrial customers over the course of the last two years.

State how the costs identified in the response to Interrogatory 11(a) were b. recovered.

# RESPONSE:

FCG has worked closely with both existing and potential new industrial customers over the last two years. During this time, the Company has noticed that there is a greater interest amongst our industrial customers around energy efficiency solutions for their overall building envelope energy needs. Common energy efficient solutions and technologies discussed include: humidity control, natural gas based HVAC systems, gas heat pump, absorption chillers, higher efficiency water heating systems, boilers for process steam, and etc. These energy efficient technologies are often considerations for industrial customers in deciding where to locate their business, their energy source(s), and equipment to be used during the industrial processes.

For example, FCG provided energy efficiency technology guidance to a customer who had a choice between utilizing electric driven chillers for their sizable chilled water needs or natural gas absorption chillers. The cost effectiveness of the natural gas chiller system could provide the customer with the ability to defray a portion of those up-front costs if they elect to participate in the Alternative Technology Program #10 and meet the requirements of the program, such as the participants test and GRIM. By utilizing the aforementioned technology, the customer not only has an opportunity to lower their overall energy costs and reduce up-front costs, but also to reduce their carbon footprint compared to using non-natural gas equipment for the same purpose.

Another example involved FCG providing energy efficiency technology guidance to an industrial customer who prepares sensitive electronic equipment that requires very precise humidity control. As part of its technical guidance, FCG made the suggestion to utilize natural gas dehumidification systems to meet the customer's needs, which was successfully adapted and has provided thus far flawless service.

In addition to increasing energy efficiency, using natural gas also reduces the customers' risk of potential interruptions in the production of their products should there be an extended stormrelated power outage.

 a. The cost to provide energy efficiency technology guidance to industrial customers in 2019 was:

> GS-120 Industrial Customers - \$9,835 GS-1250 Industrial Customers - \$6,642 Total: \$16,297

The estimated cost to provide energy efficiency technology guidance to industrial customers in 2020 is as follows:

GS-120 Industrial Customers - \$16,040
GS-1250 Industrial Customers - \$8,861
Total: \$24,901

 The costs for Interrogatory 11(a) were/are recovered through the Natural Gas Conservation Cost Recovery Clause Factors.

2019 Costs: 60% of the costs were associated with supporting GS-120 customers, and 40% of the costs were associated with supporting GS-1250 customers.

2020 Costs: 64% of estimated costs are associated with supporting GS-120 customers, and 36% of estimated costs are associated with supporting GS-1250 customers.

Staffs Third Set of Interrogatories

Interrogatory No: 12

# **QUESTION:**

Please refer to the testimony of Miguel Bustos, Page 6, Lines 1-9, and Schedule C-1, page 1 of 1, of FCG's August 7, 2020 filing in Docket No. 20200004, to answer the following questions:

Please provide a detailed description of the energy conservation program solutions guidance the Company provided to its industrial customers over the course of the last two years.

- Identify what costs have been incurred to provide energy conservation program a. solutions guidance to industrial customers over the course of the last two years.
- State how the costs identified in the response to Interrogatory 12(a) were b. recovered.

# RESPONSE:

FCG maintains close contact with all of its industrial customers. Providing energy conservation program solutions guidance involves a review of the commercial rebate programs available to this class of customer and a review of the potential benefit of their participation in the Alternative Technology Program. Alternative technologies are solutions that offer options to lower customers' on-site energy costs and more efficient equipment. Examples of alternative technology include but are not limited to Gas Heat Pumps, Desiccant Dehumidification, Combined Heat-Power, Natural Gas Absorption Chillers and High Efficiency Tankless Water Heater technology. The Company assists customers by recommending engineering firms that can provide the designs for the aforementioned equipment installation that will best integrate into the operating systems within the customer's facilities. FCG supports the customer further with cost-benefit analyses once the customer has obtained the equipment from their providers of choice.

The cost to provide energy conservation solutions guidance to industrial customers in 2019was:

> Industrial Customers - \$22,949 GS-120 GS-1250 Industrial Customers - \$15,078 \$38,027 Total:

The estimated cost to provide energy conservation solutions guidance to industrial customers in 2020 is as follows:

GS-120 Industrial Customers - \$37,426 GS-1250 Industrial Customers - \$20,677 Total: \$58,103

 The costs for Interrogatory 11(a) were recovered/are through the Natural Gas Conservation Cost Recovery Clause.

2019 costs: 60% of the costs were associated with supporting GS-120 customers, and 40% of the costs were associated with supporting GS-1250 customers.

2020 costs: 64% of estimated costs were associated with supporting GS-120 customers, and 36% of estimated costs were associated with supporting GS-1250 customers.

Florida City Gas Docket No: 20200004 Staffs Third Set of Interrogatories

Interrogatory No: 13

## QUESTION:

Please refer to the testimony of Miguel Bustos, Page 6, Lines 1-9, and Schedule C-1, page 1 of 1, of FCG's August 7, 2020 filing in Docket No. 20200004, to answer the following questions:

Please provide a detailed description of the cost-benefit analysis guidance the Company provided to its industrial customers over the course of the last two years.

- Identify what costs have been incurred to provide the cost-benefit analysis guidance to industrial customers over the course of the last two years.
- State how the costs identified in the response to Interrogatory 13(a) were b. recovered.

## RESPONSE:

Industrial customers from time to time request that FCG provide a cost comparison to other nonnatural gas sources of energy. Included in those costs are the fully loaded cost of natural gas consumption and the customer's potential investment costs in natural gas utilization equipment as compared to the equivalent non-natural gas equipment to include the energy costs to operate the equipment. The most common request from industrial customers are for suggestions as to how they may reduce their overall energy costs regardless of the type of energy being used. FCG provides suggestions as to what equipment type or upgrades may be necessary to improve It is also common for customers to ask about new energy efficient their energy costs. technologies with the shortest payback possible. Technologies, such as natural gas absorption chillers, gas heat pumps, desiccant dehumidification, and combined heat-power are examples of technologies that FCG provides information and cost analysis for.

With respect to the costs to provide cost-benefit analysis guidance to industrial a.-b. customers, these costs are included in FCG's costs to provide energy conservation program solutions guidance to these customers and are not tracked separately. See FCG's response to Staff Interrogatory No. 12 parts a. and b. for a description of how those costs have been incurred over the course of the last two years and how they have been/are being recovered.

Staffs Third Set of Interrogatories

Interrogatory No: 14

## **OUESTION:**

Please refer to the testimony of Miguel Bustos, Page 6, Lines 1-9, and Schedule C-1, page 1 of 1, of FCG's August 7, 2020 filing in Docket No. 20200004, to answer the following questions:

Please provide a detailed description of the on-site visit guidance the Company provided to its industrial customers over the course of the last two years.

- Identify what costs have been incurred to provide the on-site visit guidance to industrial customers over the course of the last two years.
- State how the costs identified in the response to Interrogatory 14(a) were b. recovered.

## RESPONSE:

The Company performs regular on-site visits of the majority of its industrial customers on an annual basis. Certain customers, based on their needs, are visited multiple times during the year. A typical on-site visit consists of the following:

- Meeting scheduled with on-site facility or energy manager;
- · An inventory of all natural gas utilization equipment is performed to include obtaining type of equipment, make, model, Btu input rating, condition and operational use;
- Observations of non-natural gas utilization equipment are made and suggestions for the potential replacement of the non-natural gas equipment with new and more efficient natural gas equivalent equipment are offered;
- Service information is verified such as service pressure, regulator type and delivery pressure through the meter, meter information such as make, model and serial number, electronic data collector information is verified and observations as to the physical protection needs and overall condition of the meter are noted.
- Acknowledgment of the Company's curtailment plan are obtained
- The Company shares running 12-month consumption data with the Customer and verifies their current qualifications for the industrial rate the customer is currently assigned. Any questions as to the customer's rate qualifications, demand charge, any changes that may occur based on current use levels are discussed.
- Follow-up visit schedules are arranged when necessary.

- a) The costs to perform on-site visits are included in FCG's response to Interrogatory No. 12. When performing energy conservation solutions for industrial customers, on-site visits are included in those annual costs.
- b) The costs associated with performing on-site visits of industrial customers are recovered through the Natural Gas Conservation Cost Recovery clause.

Florida City Gas Docket No: 20200004 Staffs Third Set of Interrogatories Interrogatory No: 15

## **OUESTION:**

Please refer to the testimony of Miguel Bustos, Page 6, Lines 16-17, of FCG's August 7, 2020 filing in Docket No. 20200004, to answer the following question.

Please identify what new industrial businesses are projected to be relocating into the FCG service territory during the January through December 2021 period.

### RESPONSE:

During an average month, FCG receives two or three inquiries from potential new industrial customers that are in the process of determining where to locate their business, including within the Company's service footprint, or are established businesses that are evaluating whether to convert from their existing non-natural gas energy source(s) to natural gas. Currently, FCG is actively working with 10 potential new industrial customers that may elect to utilize natural gas service in 2021.

Potential new industrial customers that FCG is currently working with include:

- RNG producer and landfill affluent treatment with natural gas boilers
- Wastewater and Landfill RNG production, back-up power generation and bio-solids treatment with natural gas
- Manufacturer of advanced rockets and spacecraft Humidity control with gas desiccant systems and LNG production
- Aerospace manufacturer Humidity control with gas desiccant systems and LNG production
- Spacecraft launch service provider Humidity control with gas desiccant systems and LNG production
- Sustainable salmon farming Natural gas fired absorption chiller systems and back-up power systems
- Wholesale distributor of petroleum and petroleum products Natural gas fired process steam and LNG production
- Correctional facilities Gas boilers, cooking, laundry, and gas heat pump air conditioning
- Asphalt production gas fired kilns
- Cement production gas fired kilns
- Chilled and hot water for building heating and cooling for various facilities High capacity natural gas boilers

- Heat treatment system for space vehicle equipment manufacturing Gas fired baking (heat treatment system, gas fired desiccant dehumidification via natural gas fired boiler re-heat systems
- E-commerce warehouse and distribution center- Gas fired desiccant dehumidification and back-up power
- Industrial process steam production desiccant dehumidification, gas fired boilers and drying equipment
- Healthcare facility central boilers, humidity control, cooking and equipment sterilization
- Industrial laundry central boilers, steam production and drying equipment
- Cable and Wire Manufacturer Melting and heat treatment equipment, gas boilers and drying equipment

Florida City Gas Docket No: 20200004 Staffs Third Set of Interrogatories Interrogatory No: 16

QUESTION:

Please refer to Schedule C-1, page 1 of 1, of FCG's August 7, 2020 filing in Docket No. 20200004 to answer the following questions:

Schedule C-1, page 1 of 1, reflects that the rate class GS-1250K will have six (6) bills. Does this represent that there are six (6) existing customers in this rate class at the time the schedule was prepared, or is this a projection of the number of customers the Company hopes to serve in the January through December 2021 period? Please explain your response.

### RESPONSE:

At the time Schedule C-1, page 1 of 1 was prepared, FCG had eight (8) industrial customers receiving service under the GS-1250K tariff rate. There are two (2) potential additional customers that may become active customers in 2021 at a GS-1250 level or above. FCG is actively developing relationships with additional potentially new industrial customers, as identified in our response to Staff Interrogatory No. 15, that could become active customers in 2021 or beyond.

In the event that the projected new customer(s) does not become a customer(s) of FCG and/or does not become a customer(s) in the GS-1250k rate class, the actual 2021 NGCCR Factor costs projected to but not recovered from this rate class would be trued-up in FCG's subsequent NGCCR filings.

Staffs Third Set of Interrogatories

Interrogatory No: 17

**OUESTION:** 

Please refer to Schedule C-1, page 1 of 1, of FCG's August 7, 2020 filing in Docket No. 20200004 to answer the following questions:

Schedule C-1, page 1 of 1, reflects that the rate class GS-11M-GS-25M will have one (1) bill. Does this represent that there is one (1) existing customer in this rate class at the time the schedule was prepared, or is this a projection of the number of customers the Company hopes to serve in the January through December 2021 period? Please explain your response.

RESPONSE:

There currently are no customers in rate class GS-11M - GS-25M. The one GS-11M - GS-25M customer reflected in Schedule C, page 1 is a projected potential new customer based on conversations with the potential customer. In the event that the projected new customer does not become a customer of FCG and/or does not become a customer in the GS-11M - GS-25M rate class, the actual NGCCR Factor costs projected to but not recovered from this rate class would be trued-up in FCG's subsequent NGCCR filings.

## **15**

FCG's Response to Staff's Fourth Set of Interrogatories Nos. 18-25

FLORIDA PUBLIC SERVICE COMMISSION DOCKET: 20200004-GU EXHIBIT: 15 PARTY: STAFF HEARING EXHIBITS DESCRIPTION: FCG's Response to Staff's Fourth Set of Interrogatories Nos. 18-25

[Bates Nos. 00030-00037]

Staffs Fourth Set of Interrogatories

Interrogatory No: 18

#### **OUESTION:**

Under the Company's proposal, is it correct that no portion of the final true-up balance for the January-December 2019 period, and no portion of the actual/estimated true-up balance for the January-December 2020 period, was charged/credited to the GS-1250K rate class? Please explain your response.

## **RESPONSE:**

No. As stated in FCG's Petition and the direct testimony of FCG witness Bustos, FCG has over the course of the last two years increased its technical support for its industrial customers, including for rate classes GS-1250k and GS-11M – GS-25M, which support includes energy efficiency technology guidance and energy conservation program solutions, cost benefit analysis, and on-site visits. The costs associated with such technical support were included in the total energy conservation program costs recovered through the Natural Gas Conservation Cost Recovery ("NGCCR") Factors. Additionally, all industrial customers, including the GS-1250k and GS-11M – GS-25M rate classes, have been and remain eligible to participate in FCG's commercial and industrial energy conservation programs (Programs 9 through 11 in Schedule C-5 of Exhibit MB-2).

Both the final net true-up amount (including interest, adjustments, and the estimated under-recovery included in the 2020 NGCCR Factors) for the period January 2019 through December 2019 and the actual/estimated true-up (based on actual data for six months and projected data for six months) for the current period January 2020 through December 2020 are applied to and included in the total energy conservation program costs proposed to be recovered during the projected period of January 1, 2021 through December 31, 2021. The total energy conservation program costs proposed to be recovered during the projected period of January 1, 2021 through December 31, 2021, were allocated to and included in the 2021 NGCCR Factors for each rate class, including rate classes GS-1250k and GS-11M – GS-25M, consistent with FCG's cost allocation methodology approved by the Commission. Therefore, the proposed 2021 NGCCR Factors applicable to rate classes GS-1250k and GS-11M – GS-25M include an allocated portion of the final true-up for 2019, the actual/estimated true-up for the current period, and associated interest.

Staffs Fourth Set of Interrogatories

Interrogatory No: 19

### QUESTION:

Under the Company's proposal, is it correct that no portion of the final true up balance for the January-December 2020 period will be charged/credited to the GS-1250K rate class? Please explain your response.

## **RESPONSE**:

No. If FCG's request to apply the NGCCR Factors to the GS-1250k and GS 11-M – GS-25M is approved, FCG's 2022 NGCCR Factors applicable to these rate classes would include an allocated portion of the final true-up for 2020, as well as the actual/estimated true-up for the 2021 period, and associated interest. See FCG's response to Staff Interrogatory No. 18.

Staffs Fourth Set of Interrogatories

Interrogatory No: 20

### QUESTION:

Under the Company's proposal, is it correct that a portion of the actual/estimated true up balance for the January-December 2021 period will be charged/credited to the GS-1250K rate class, and that portion will be reported in the Company's Actual/Estimated True Up Schedule for 2021? If not, explain why not.

## RESPONSE:

Yes. If FCG's request to apply the NGCCR Factors to the GS-1250k and GS 11-M-GS-25M is approved, FCG's 2022 NGCCR Factors applicable to these rate classes would include an allocated portion of the final true-up for 2020, the actual/estimated true-up for the 2021 period, and associated interest. See FCG's responses to Staff Interrogatory Nos. 18 and 19.

Staffs Fourth Set of Interrogatories

Interrogatory No: 22

## **QUESTION**:

Under the Company's proposal, is it correct that no portion of the final true-up balance for the January-December 2019 period, and no portion of the actual/estimated true-up balance for the January-December 2020 period, was charged/credited to the GS11M – GS25M rate class? Please explain your response.

### RESPONSE:

No. See FCG's response to Staff Interrogatory No. 18.

Staffs Fourth Set of Interrogatories

Interrogatory No: 23

## **QUESTION**:

Under the Company's proposal, is it correct that no portion of the final true up balance for the January-December 2020 period will be charged/credited to the GS11M – GS25M rate class? Please explain your response.

### RESPONSE:

No. See FCG's responses to Staff Interrogatory Nos. 18 and 19.

Staffs Fourth Set of Interrogatories

Interrogatory No: 24

### **QUESTION:**

Under the Company's proposal, is it correct that a portion of the actual/estimated true up balance for the January-December 2021 period will be charged/credited to the GS11M – GS25M rate class, and that portion will be reported in the Company's Actual/Estimated True Up Schedule for 2021? If not, explain why not.

## **RESPONSE**:

Yes. See FCG's responses to Staff Interrogatory Nos. 18-20.

Staffs Fourth Set of Interrogatories

Interrogatory No: 25

### **QUESTION:**

Under the Company's proposal, is it correct that a portion of the final true up balance for the January-December 2021 period will be charged/credited to the GS11M – GS25M rate class, and that portion will be reported in the Company's Final True Up Schedule for 2021? If so, how should the clause recoverable amount allocated to the GS11M – GS25M rate class be recorded for cost recovery purposes in true up filing for 2021?

### RESPONSE:

Yes. See FCG's responses to Staff Interrogatory Nos. 18, 19, and 21.

## **16**

FCG's Response to Staff's First Production of Documents Nos. 1-2

# Schedule C-5 PROGRAM PROGRESS REPORT

NAME: RESIDENTIAL NEW CONSTRUCTION - PROGRAM 1

**DESCRIPTION:** The Residential Builder Program is designed to increase the overall energy

efficiency in the residential new construction market by promoting energy-efficient natural gas appliances in residences that would qualify for the RS rates. The program offers builders and developers incentives in the form of cash allowances to assist in defraying the additional costs associated with the installation of natural gas supply lines, house piping, venting and natural

gas appliances.

#### **PROGRAM ALLOWANCES:**

| Gas Storage Tank Water Heating                             | \$350 |
|------------------------------------------------------------|-------|
| Gas High Efficiency Storage Tank Water Heating (82% AFUE+) | 400   |
| Gas Tankless Water Heating                                 | 550   |
| Gas Heating                                                | 500   |
| Gas Cooking                                                | 150   |
| Gas Clothe Drying                                          | 100   |

**REPORTING PERIOD: January 2020 through June 2020** 

#### **PROGRAM SUMMARY:**

Program costs for the period were \$ 663,910

## Schedule C-5 PROGRAM PROGRESS REPORT

NAME: MULTI-FAMILY RESIDENTIAL BUILDER - PROGRAM 2

**DESCRIPTION:** The Multi-Family Residential Builder Program is designed to increase

overall energy efficiency in the multi-family new construction market by promoting energy-efficient natural gas in multi-unit residences qualifying

for the Company's CS rates.

### **PROGRAM ALLOWANCES:**

See Program Summary

**REPORTING PERIOD: January 2020 through June 2020** 

#### **PROGRAM SUMMARY:**

Program ended in February 2007 - Multi-Family developments are included in the Residential New Construction Program.

## Schedule C-5 PROGRAM PROGRESS REPORT

NAME: RESIDENTIAL APPLIANCE REPLACEMENT PROGRAM 3

**DESCRIPTION:** The Residential Appliance Replacement Program is designed to promote the

replacement of inefficient non-natural gas residential appliances with energy efficient natural gas appliances. The Program offers incentives in the form of cash allowances to residential consumers to assist in defraying the additional costs associated with the installation of efficient natural gas appliances.

#### **PROGRAM ALLOWANCES:**

| Gas Storage Tank Water Heating                             | \$500 |
|------------------------------------------------------------|-------|
| Gas High Efficiency Storage Tank Water Heating (82% AFUE+) | 550   |
| Gas Tankless Water Heating                                 | 675   |
| Gas Heating                                                | 725   |
| Gas Cooking                                                | 200   |
| Gas Clothe Drying                                          | 150   |
| Space Conditioning                                         | 1200  |

#### **REPORTING PERIOD: January 2020 through June 2020**

#### **PROGRAM SUMMARY:**

Program costs for the period were \$ 371,055

## Schedule C-5 PROGRAM PROGRESS REPORT

NAME: GAS APPLIANCES IN SCHOOLS - PROGRAM 5

**DESCRIPTION:** The Gas Appliances in Schools Program is designed to promote natural gas

appliances where cost-efficient, in Home Economic Departments in schools located in our Company's service area. The program provides teaching assistance on energy conservation and on the use, care, and safety of natural

gas appliances through a Company-employed home economist.

**REPORTING PERIOD: January 2020 through June 2020** 

PROGRAM SUMMARY:

Program costs for the period were \$0.

# Schedule C-5 PROGRAM PROGRESS REPORT

NAME: RESIDENTIAL PROPANE CONVERSION - PROGRAM 6

**DESCRIPTION:** The Residential Propane Conversion Program is designed to promote the

conversion of existing residential propane appliances to utilize efficient natural gas. The program offers incentives in the form of cash allowances

to residential consumers to assist in defraying the additional costs associated with the conversion of their existing propane appliances to

utilize natural gas.

#### **PROGRAM ALLOWANCES:**

| Furnace      | \$200 |
|--------------|-------|
| Water Heater | 100   |
| Dryer        | 50    |
| Range        | 25    |

# Schedule C-5 PROGRAM PROGRESS REPORT

NAME: COMMERCIAL/INDUSTRIAL ALTERNATIVE TECHNOLOGY INCENTIVE - PROGRAM 10

**DESCRIPTION:** The Commercial/Industrial Alternative Technology Incentive Program (ATI)

is designed to encourage commercial and industrial business owners to install alternate technologies that utilize natural gas that are not covered by one of the other City Gas Energy Conservation Programs, but which cost-effectively reduce the total utility expense of the business. The program offers incentives based on the cost-effectiveness under a life-cycle analysis

utilizing a computerized energy consumption simulation model.

#### **PROGRAM ALLOWANCES:**

Payback period of three years subject to a maximum incentive of three times the projected incremental annualized margin.

**REPORTING PERIOD: January 2020 through June 2020** 

**PROGRAM SUMMARY:** 

Program costs for the period were \$ 2,853

Florida City Gas
Docket No: 20200004

Staffs First Set of Production of Documents

Request No: 2

### **QUESTION:**

Please produce documents to support the assertion witness Miguel Bustos made on Page 6, Lines 9–10, of FCG's August 7, 2020 filing in Docket No. 20200004, that "FCG has over the course of the last two years increased its technical support of its industrial customers."

### **RESPONSE:**

FCG has increased technical support to its industrial customers by working to educate them on emerging technologies that use natural gas. This support is offered to both existing and potential customers. Many of the technologies and energy conservation measures that are being discussed with industrial customers are extremely complex. A great deal of time and effort is required to analyze a customer's energy use and calculate the potential savings related to converting those technologies to natural gas.

Examples of documentation provided with this response are as follows:

- Attachment 1 "Absorption Chiller Payback Calculator" Cost effectiveness / payback tool
- Attachment 2 "Absorption Chiller Presentation" Benefits of adaptation of NG Chillers and Energy
- Attachment 3 "Coal & Diesel to NG Comparison" Energy comparison example used for a large producer of concrete who could potentially switch from 400,000 tons of coal and large consumption of diesel fuel to natural gas
- Attachment 4 "Commercial Calculation" Energy cost calculator used to demonstrate benefits of switching to natural gas technology in terms of energy cost comparisons to an alternate form of energy
- Attachment 5 "VRF Energy Calculator" Alternate Gas Heat Pump (HVAC) technology utilizing variable refrigerant flow (VRF).
- Attachment 6 "Meeting Notes" Presentation provided to a specific potential customer who is considering the adaptation of a central absorption chiller plant and natural gas fueled back-up power generation.

### CO2e Factor

https://www.epa.gov/energy/greenhouse-gas-equivalencies-calculator

 Steam
 66.33 or
 58.96 (kg/MMbtu)
 7.3E-05 or
 6.50E-05 US tons/lb

 Electric
 1.6 lb/kWh
 0.00078 US tons/kWh

 NG
 11.7 lb/therm
 0.00585 US tons/therm

Emission factors are per MMBtu of steam purchased.

These factors assume natural gas fuel is used to generate steam at 80 percent thermal efficiency 58.96 kg/mmbtu at 90 percent thermal efficiency

Assuming 1lb steam = 1000 Btu

Energy Sources tCO2e /kBtu (consumed)

 Steam
 4.49E-05

 Natural Gas
 5.31E-05

 No. 2 Fuel Oil
 7.42E-05

 No. 4 Fuel Oil
 7.53E-05

 Electric
 8.47E-05

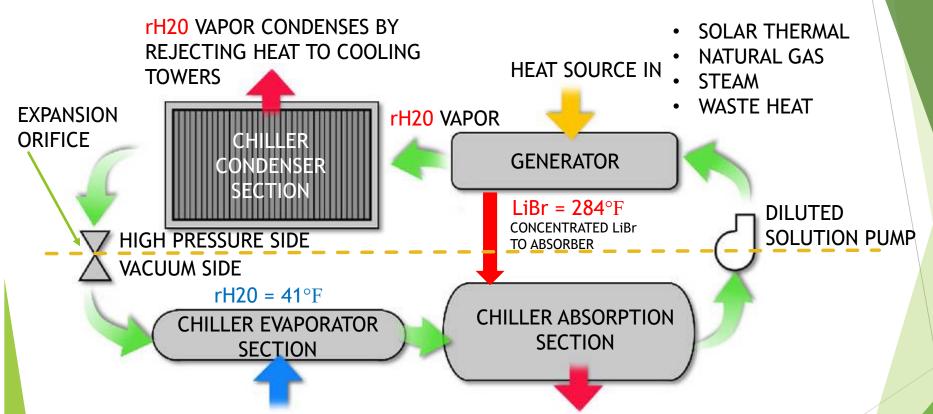

# PRESENTER: FORREST SMALLEY

# BASIC ABSORPTION CYCLE

<u>LITHIUM BROMIDE</u> (LiBr) rH2O = r718

UNDER VACUUM, REFRIGERANT WATER REMOVES HEAT FROM BUILDING LOAD BY RE-EVAPORATING AT AROUND 55-57°F

**YANMAR VRF** - Total Cooling Cost

YANMAR VRF - Total Heating Cost

This calculator is to provide a guide based on estimates. Actual energy consumptions and costs may vary based on use and other factors. The results expressed in this calculator are estimates only. The calculator results should only be used as an indicator of possible savings and might differ from the actual savings applicable to your circumstances. YANMAR America Corporation does not warrant or guarantee the accuracy of the results estimated by this calculator. You should not rely solely on these calculated estimates.

**YANMAR VRF** - Natural Gas Consumption

# Florida City Gas – Development

Meeting

9.16.19

# **Meeting Notes**

Meeting attendees:

Site Address:

# **Meeting Notes**

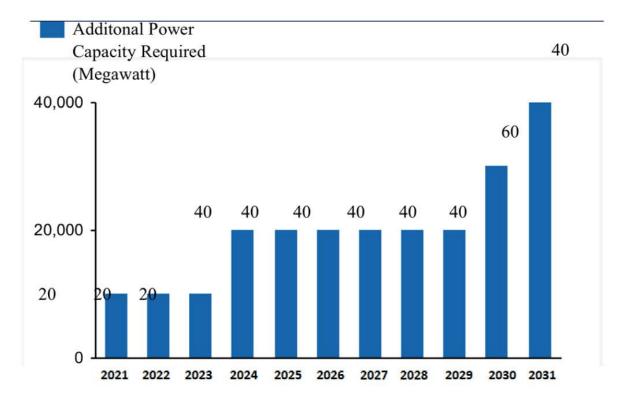

- production forecast:
  - 2020 10,000 tons Requires 20 MW of Power
  - 2021 30,000 tons Requires 40 MW
  - 2022 50,000 tons Requires 60 MW
  - 2023 2031 Tonnage incrementally increases to 220,000 tons & 450 MW
  - Half of all power needs are associated with refrigeration.

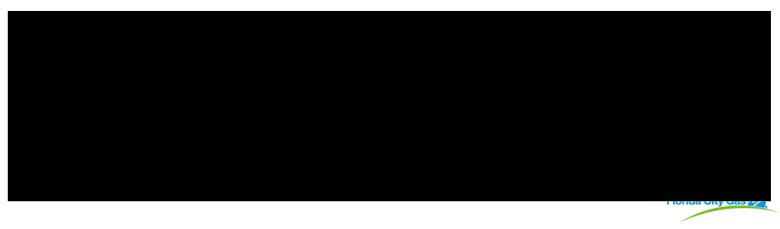

## **Meeting Notes**

Note: For each segment of MW power needed, 50% is allocated to refrigeration needs And 50% for operating electric motors, lighting, and general use.

## **Meeting Notes**

- selected the site due to the availability of fresh water, salt water and the ability to discharge high volumes of water back into the aquafer.
- has provided a primary 3-phase (4160) distribution feed to the facility at (480 v) with a maximum delivery of 35MW. The facility is not in production and they have already experienced issues with inadequate power.
- Discussions with development have centered around building a transmission feed to the site, build a sub-station at the AS location and increase the primary to 13.8 3-phase & 4160 voltage on the secondary.

## **Meeting Notes**

- is interested in producing up to 60 MW of power themselves to ensure they have adequate back-up in the event the main-line power goes down for an extended period of time.
- The 60MW power would be produced via natural gas reciprocating generators (possibly a single turbine)
- They are interested in the potential around using absorption chillers if there is adequate waste heat.
- They're interested in gas driven chillers for the entire property if cost effective compared to refrigeration costs utilizing power.
- They're also willing to consider providing on-site power if there is a cost advantage.
- The greatest concern to is the potential for loss of their harvest if a primary power failure occurs and the water temperatures rise above 60+ degrees.

## **Meeting Notes**

## FCG Opportunities:

 Provide natural gas to supply energy necessary to generate potentially 60 MW of back-up power. (A take or pay contract would be required in order for the customer to avoid a potential \$10MM main extension)

- A 60MW facility could result in the power costs being split by two participating parties (AS &
- FCG could recommend natural gas driven chillers to provide 100% of the refrigeration needs of the facility while provides primary power. The natural gas back-up generation needs of the customer would be greatly reduced

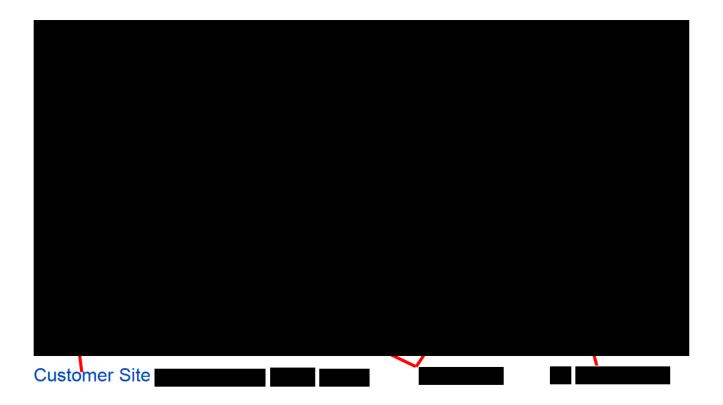

## <u>Financial Estimates – High Level</u>

- Capex \$9.85MM (9.75 miles 8" HP Steel & facilities)
- Option 1 Standby use of NG for 60MW System (AS Owned)
  - Fixed monthly charge of \$150,000
  - Special contract rate of \$0.015 per therm
  - 15-Year Avg ROE 13.4% (Based on 0 therms and Fixed Charge Only)
- Option 2 Take or Pay for 50MM Annual Therms (60 MW @ 50% load factor)
  - Fixed monthly charge of \$100,000
  - Special contract rate of \$0.01 per therm
  - 15-Year Avg ROE = 16.4%

FPUC's Response to Staff's First Set of Interrogatories Nos. 1-13

FLORIDA PUBLIC SERVICE COMMISSION DOCKET: 20200004-GU EXHIBIT: 17 PARTY: STAFF HEARING EXHIBITS

DESCRIPTION: FPUC's Response to Staff's

First Set of Interrogatories Nos. 1-13

[Bates Nos. 00108-00122]

Please describe how the COVID-19 Pandemic affected the Company's ability to offer 1.

energy conservation programs in 2020, and address the following in your response:

a. If disruption(s) occurred in certain programs, describe what steps the Company

has taken to mitigate the disruption(s).

b. If the COVID-19 Pandemic impacted clause-recoverable expenses and describe

what steps the Company has taken regarding these expenses.

Company's Response:

1a All conservation employees have been required to work from home since mid-March

2020. That action is still in effect to the present. All of our rebate programs are still being

administered. The greatest impact is on the Company's ability to perform on site residential and

commercial energy audits. We have done our best to talk customers through an audit on the

telephone, including pictures the customer sends for water heater settings, meter reads, etc. We

also encourage the customers to use our online energy audit tools and energy information.

1b The only recoverable expenses impacted would be travel related. They have decreased.

We are unsure what 2021 will look like but plan to budget based on the projections for 2020

rather than the actual expenses incurred.

2. Please describe how the COVID-19 Pandemic affected the Company's outreach efforts and/or advertising strategy in 2020. Address in your response how, or if, social media platforms are a component of the Company's outreach, and how they have been used during the COVID-19 Pandemic.

### Company's Response:

All public events have been cancelled by the host organizations. The Company is heavily involved in the communities we serve. Most of those events give us an opportunity for an educational segment, so the cancellation negatively affect our education program. FPUC will not participate in outreach events during the remainder of 2020, unless the COVID-19 situation changes drastically. Advertising strategies during the COVID-19 will continue. Social media platforms are being utilized on a weekly basis by FPUC's marketing team to deliver the conservation message and other Company news, to the public. FPUC is currently upgrading its online tools for home energy audits and quality energy information.

Please refer to Schedule CT-2, Pages 2 through 4, of FPUCs May 4, 2020 filing in Docket No. 20200004-GU to answer the following questions.

3. Please provide an overview, by program, of the types of expenditures and activities found in the Other category.

### Company's Response:

For the "Common" program, the "Other" cost category includes expenses for uniforms and memberships/subscriptions that benefit all of the Company's programs. For the remaining programs, the "Other" cost category includes uniform and membership/subscription expenses that are unique to that program.

Please provide an overview, by program, of the types of expenditures and activities found 4.

in the Common Costs category.

Company's Response:

The Company's "Common Costs," span multiple programs and are not exclusive to anyone

program. The costs primarily fall in the categories of payroll expenses, vehicle expenses, and

some portion of outside services that primarily benefit the conservation efforts. The latter

category would include Salesforce and Energy Solutions Center which are customer assistance

expenses. The first two expenses above, payroll and vehicle costs, impact all the conservation

programs.

5. Please provide an overview, by program, of the types of expenditures and activities found in the Labor and Pay category.

### Company's Response:

The type of expenditures in Labor and Payroll are salaries, including overtime and hourly wages, commissions, incentive pay, and temporary services, when necessary. It also includes employee benefits and payroll taxes. The marketing team's involvement in program promotions, conservation events, appliance sales and home energy audits are among their activities.

6. Please explain why the Company recorded a variance of \$152,427 in the Labor and Pay

category for Common Costs for 2019.

Company's Response:

The variance on CT 2 page 3 for Labor and Pay category for Common Costs for 2019 is actually,

\$102,664. The \$152,427 appears to come from the Full House Residential New Construction in

question 8a.

7. Please explain why the Company recorded a variance of \$133,131 in the Common Costs category for 2019.

### Company's Response:

Due to the reduction in the labor and payroll addressed in number 8a, all the other employee related expenses in supplies, travel, and vehicle expenses also would be less. This accounts for this negative variation.

- 8. Please answer the following questions for the Full House Residential New Construction Program:
  - a. Explain why the Company recorded a variance of \$152,427 in the Labor and Pay category in 2019.
  - b. Explain why the Company recorded a variance of \$103,639 in the Incentives category in 2019.
  - c. Explain why the allowance amounts for each of the appliances in this program remained unchanged in 2019, compared to the allowance amounts in 2018.
  - d. Explain why fewer Tank Water Heater allowances (395) were paid out in 2019, compared to quantity in 2018 (538).
  - e. Explain why fewer Range allowances (999) were paid out in 2019, compared to quantity in 2018 (1,210).
  - f. Explain why fewer Dryer allowances (736) were paid out in 2019, compared to quantity in 2018 (935).
  - g. Explain why more Tankless Water Heater allowances (1,194) were paid out in 2019, compared to quantity in 2018 (1,004).

### Company's Response:

- A. In an effort to charge payroll more appropriately to the specific programs, the company redistributed its salaries and commissions derived from builder/developer sales from the common category to its residential new construction program.
- B.. In 2018, in the new construction category we paid 1,004 tankless water heater rebates, while in 2019 we paid 1194 tankless water rebates. Also, building was up at the end of 2019 with five builders submitting large numbers of rebate requests.
- C. The company's rebate program had not changed between 2018 and 2019.
- D. Tank water heaters have lost popularity in the market. Most new construction builders now install tankless water heaters as their standard.
- E. In the past, the company required a water heater, range and dryer appliances in each unit in order to to bring natural gas to a development. In 2019, many builders elected to install a water

Interrogatory 8, cont.

heater only, while offering a gas range or gas dryer purchase as an upcharge. However many customers chose to purchase their own.

F. See the answer to E. above.

G. See the answer to D above.

9. Please explain why the Company does not allocate Common Costs to the various DSM

programs in Schedule CT-2. Please address in your response why the Company treats

Common Costs as an individual DSM program.

Company's Response:

FPUC charges things to Common Costs that can't be assigned to an individual conservation

program but rather have an impact on multiple conservation programs. Our response to question

10 is an example of this financial reporting strategy.

10. On Schedule CT-2, Page 2 of 3, the Company reports a legal expense of \$6,915 in

Common Costs. Please describe that expense and address why it is recorded as a

Common Cost.

Company's Response:

FPUC uses legal services for the natural gas audit responses and all our interrogatory responses.

There is legal consultation before filing these documents. Due to the fact these documents are not

assigned to a specific program, the expense is charged as Common Cost.

11. The Company spent \$79,102 less than it projected to spend in 2019 for Advertising.

Please explain why.

## Company's Response:

The company had anticipated a substantial upgrade to its conservation web site. However, the company encountered difficulties which delayed its implementation beyond 2019.

Please refer to Schedule CT-6, Page 11 of 24 of FPUC's May 1, 2019 filing in Docket No. 20190004-GU and Schedule CT-6, Page 12 of 24 of FPUC's May 4, 2020 filing in Docket No. 20200004-GU to answer the following question.

12. Please populate the table below with the number of participants for 2018 and 2019 in programs shown below.

| Program                                    | Program Participation |      |
|--------------------------------------------|-----------------------|------|
|                                            | 2018                  | 2019 |
| Full House Residential New Construction    | 3693                  | 3330 |
| Residential Appliance Replacement          | 603                   | 430  |
| Conservation Education                     | 56                    | 54   |
| Space Conditioning                         | 2                     | 0    |
| Residential Conservation Survey            | 40                    | 51   |
| Residential Appliance Retention            | 1632                  | 1446 |
| Commercial Conservation Survey             | 8                     | 10   |
| Residential Service Reactivation           | 4                     | 0    |
| Conservation Demonstration and Development | 0                     | 0    |
| Commercial Small Food Program              | 227                   | 237  |
| Commercial Large Non-Food Service          | 51                    | 21   |
| Commercial Large Food Service              | 58                    | 50   |
| Commercial Large Hospitality               | 50                    | 44   |
| Commercial Large Cleaning Service          | 87                    | 43   |
| Residential Propane Distribution           | 0                     | 0    |

13. Referring to the information provided in response to Interrogatory Number 12 above, if

applicable, please explain by program the reason for any change in the number of

participants greater than ten (10) percent between 2018 and 2019.

Company's Response:

The Residential Appliance Replacement and The Residential Appliance Retention

Programs where both impacted by a market factors. The Company was very active replacing

bare steel pipe and marketing heavily around those projects in 2018.

The Commercial Large Non-Food Service and The Commercial Large Cleaning Service are

hotels and laundromats. The reduction in these programs are market driven.

## 18

FPUC's Response to Staff's Second Set of Interrogatories Nos. 14-15

FLORIDA PUBLIC SERVICE COMMISSION DOCKET: 20200004-GU EXHIBIT: 18 PARTY: STAFF HEARING EXHIBITS DESCRIPTION: FPUC's Response to Staff's Second Set of Interrogatories Nos. 14-15 [Bates Nos. 00123-00125] Please refer to Pages 10 through 24, of FPUC's May 4, 2019 filing to answer the following questions:

14. Please explain what the Company has done to grow participation in the Residential Conservation Survey Program from 18 participants in 2016 to 51 participants in 2019.

## Company Response:

As a result of the Company's ongoing process improvement efforts, the conservation manager became an integral part of its high bill investigation process, effective January 1, 2019. Since then, the Company has successfully expanded its outreach and opportunities to proactively offer energy audits directly to customers who would benefit from the program.

15. Please explain the variance in participation in the Commercial Large Cleaning Service Program from 2018 to 2019.

### **Company Response:**

This program is for dryer replacement in laundromats and is entirely market driven.

PGS's Response to Staff's First Set of Interrogatories Nos. 1-14

FLORIDA PUBLIC SERVICE COMMISSION DOCKET: 20200004-GU EXHIBIT: 19 PARTY: STAFF HEARING EXHIBITS

DESCRIPTION: PGS's Response to Staff's

First Set of Interrogatories Nos. 1-14

[Bates Nos. 00126-00140]

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S FIRST SET OF INTERROGATORIES INTERROGATORY NO. 1 PAGE 1 OF 1 FILED: AUGUST 17, 2020

- 1. Please describe how the COVID-19 Pandemic affected the Company's ability to offer energy conservation programs in 2020, and address the following in your response:
  - a. If disruption(s) occurred in certain programs, describe what steps the Company has taken to mitigate the disruption(s).
  - b. If the COVID-19 Pandemic impacted clause-recoverable expenses, describe what steps the Company has taken regarding these expenses.
- **A.** a. Peoples has yet to see significant impacts related to participation from COVID-19 on any of its DSM programs, but the Company is monitoring the situation.

COVID-19 has affected the implementation of the Commercial Walk-Through Energy Audit. Peoples surveyed members of the American Gas Association to determine market participants to find contractors who could execute this type of audit. Peoples discussed expectations for the Commercial Walk-Through Audit with potential contractors and there is a preference for conditions to improve with the COVID-19 Pandemic before commencing this audit, for the health and safety of customers and contractors. Peoples plans to move forward with implementation when conditions improve.

b. Not applicable.

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S FIRST SET OF INTERROGATORIES INTERROGATORY NO. 7 PAGE 1 OF 2

**FILED: AUGUST 17, 2020** 

2. Please describe how the COVID-19 Pandemic affected the Company's outreach efforts and/or advertising strategy in 2020. Address in your response how, or if, social media platforms are a component of the Company's outreach, and how they have been used during the COVID-19 Pandemic.

A. Peoples has amplified its messaging to existing customers to increase awareness about conservation programs and assistance with managing bills. The Company's social media strategy has included posts on our company pages (Facebook, Twitter, LinkedIn and Instagram) to promote energy conservation tips and the launch of a new online energy audit for residential customers—with focus on helping to offset increased usage from working and schooling at home. A comprehensive digital advertising strategy has also been used to raise awareness and use of the online audit and special purpose calculators that help households reduce energy consumption and costs.

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S FIRST SET OF INTERROGATORIES INTERROGATORY NO. 7 PAGE 2 OF 2 FILED: AUGUST 17, 2020

- **3.** For each DSM program that contracts third-party vendors, please provide any updates or changes to the Company's third-party vendors that have occurred during 2019, including:
  - a. The Company's list of vendors.
  - b. The Company's process for bidding and selecting vendors.
  - c. The Company's process for sole-sourcing DSM vendors.
  - d. The Company's list of current sole-sourced third-party vendors and justification for each.

A.

- a. In 2019, Peoples added Apogee as a vendor for the Residential Customer Assisted Energy Audit.
- b. There are no updates or changes to this process at this time.
- c. There are no updates or changes to this process at this time.
- d. Apogee was selected as the winning bid by Tampa Electric in its bid for online audit services. Peoples was able to utilize the same platform for its Residential Customer Assisted Energy Audit rather than implementing a completely new system.

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S FIRST SET OF INTERROGATORIES INTERROGATORY NO. 7 PAGE 1 OF 1

**FILED: AUGUST 17, 2020** 

Please refer to Schedule CT-2, Pages 2 through 3, of PGS's May 4, 2020 filing in Docket No. 20200004-GU to answer the following questions.

- **4.** Please provide an overview, by program, of the types of expenditures and activities found in the Other category.
- **A.** All of Peoples' Other costs are attributed to Common Costs.
  - Common Costs
    - o Other
      - Industry dues
      - Software Maintenance
      - Professional dues and fees
      - Travel and lodging
      - Postage
      - Printing
      - Miscellaneous

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S FIRST SET OF INTERROGATORIES INTERROGATORY NO. 7 PAGE 1 OF 1

- **5.** Please provide an overview, by program, of the types of expenditures and activities found in the Common Costs category.
- **A.** Common Costs are expenditures that support all of Peoples' DSM programs and are unable to be attributed to any individual program. These may include employees that support all programs, DSM advertising, industry dues, software maintenance fees, and legal expenses.

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S FIRST SET OF INTERROGATORIES INTERROGATORY NO. 6 PAGE 1 OF 1

- 6. Please provide an overview, by program, of the types of expenditures and activities found in the Payroll and Benefits category.
- **A.** Payroll and Benefits is a sum of the salaries and benefits for employees who support Peoples' DSM programs. This includes employees who process and approve rebates and manage clause expenses. All the employees represented in the NGCCR support all of Peoples' DSM programs, thus all Payroll and Benefits are charged to Common Costs.

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S FIRST SET OF INTERROGATORIES INTERROGATORY NO. 7 PAGE 1 OF 1

- 7. Please explain why the Company does not allocate Common Costs to the various DSM programs in Schedule CT-2. Please address in your response why the Company treats Common Costs as an individual DSM program.
- A. Peoples does not treat Common Costs as an individual DSM program. DSM costs are charged to Common Costs when these costs do not have the ability to be assigned to a specific DSM program. These costs pertain to many DSM programs and charging the costs to Common Costs accurately recognizes that these costs benefit more than one specific DSM program. Examples of common costs are payroll and benefits for employees that support all programs, training courses for those employees, industry dues, and software maintenance fees.

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S FIRST SET OF INTERROGATORIES INTERROGATORY NO. 8 PAGE 1 OF 1

- **8.** Please explain why the Company spent less than it projected to spend in 2019 for Advertising.
- **A.** Advertising spending was below the projected budget in 2019 mainly due to timing of payment of invoices. Many of the conservation advertising investments are with fall sports organizations that operate under seasonal fiscal years versus calendar years.

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S FIRST SET OF INTERROGATORIES INTERROGATORY NO. 9 PAGE 1 OF 1 FILED: AUGUST 17, 2020

Please explain why the Company spent less than it projected to spend in 2019 for

9.

Payroll and Benefits.

hiring of resources.

A. Peoples spent less than projected on Payroll and Benefits due to the timing of the

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S FIRST SET OF INTERROGATORIES INTERROGATORY NO. 11 PAGE 1 OF 2

- **10.** Please explain why the Company spent less than it projected to spend in 2019 for Outside Services.
- **A.** Outside Services costs were higher in 2018 due to the implementation of a new software system for processing, tracking and approving rebates. The 2019 projection included higher costs associated with the implementation of the new system. However, the implementation costs were less than expected.

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S FIRST SET OF INTERROGATORIES INTERROGATORY NO. 11 PAGE 2 OF 2 FILED: AUGUST 17, 2020

- **11.** Please explain why the Company spent less than it projected to spend in 2019 for Other Costs.
- A. The reason for this variance was the classification of software maintenance costs. These costs were attributed to Outside Services for a portion of 2019 before being reclassified as Other Costs.

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S FIRST SET OF INTERROGATORIES INTERROGATORY NO. 12 PAGE 1 OF 1

FILED: AUGUST 17, 2020

- **12.** Please explain why the Company spent more than it projected to spend in 2019 for Incentives in the following programs:
  - a. Program 1: New Residential Construction Program.
  - b. Program 11: Commercial Retention Program.
  - c. Program 12: Commercial Replacement Program.

#### Α.

- a. The strong residential housing market has led to increasing numbers in this program. The increase in incentives for 2019 is attributed to the construction activities of several large residential projects. The new construction process begins with Peoples signing developer agreements, which designate the number of homes built and number of gas appliances installed in each home. These agreements are contingent upon completion of the homes. The timing associated with completion of homes by a builder or developer, including selling the home and turning on utilities, is dependent on varying factors. These may include economic conditions and timing of construction activities, which may impact the filing of respective allowances from year to year.
- b. Peoples was able to attract greater than projected levels of participation to the Commercial Retention Program in 2019.
- c. Peoples was able to attract greater than projected levels of participation to the Commercial Replacement Program in 2019.

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S FIRST SET OF INTERROGATORIES INTERROGATORY NO. 13 PAGE 1 OF 1

**FILED: AUGUST 17, 2020** 

Please refer to Exhibit MRR-1, Schedule CT-6, Page 1 of 13 of PGS's May 1, 2019 filing in Docket No. 20190004-GU and Exhibit KLB-1, Schedule CT-6, Page 1 of 13 of PGS's May 4, 2020 filing in Docket No.20200004-GU to answer the following questions.

- **13.** The Company spent less in incentives in 2019 than 2018 but increased overall participation in 2019. Please explain why.
- **A.** Participation in the Residential New Construction Program decreased from 2018 to 2019, matching the decrease in incentives.

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S FIRST SET OF INTERROGATORIES INTERROGATORY NO. 14 PAGE 1 OF 1

**FILED: AUGUST 17, 2020** 

- **14.** Please answer the following questions regarding the New Residential Construction Program:
  - a. Explain why fewer Natural Gas Cooking allowances (10,101) were paid out in 2019, compared to quantity in 2018 (12,228).
  - b. Explain why fewer Natural Gas Dryer allowances (9,687) were paid out in 2019, compared to quantity in 2018 (11,328).
  - c. Explain why fewer Natural Gas Heating allowances (841) were paid out in 2019, compared to quantity in 2018 (1,198).
  - d. Explain why fewer Natural Gas High Efficiency Water Heater allowances (77) were paid out in 2019, compared to quantity in 2018 (451).
  - e. Explain why fewer Natural Gas Tankless Water Heater allowances (7,249) were paid out in 2019, compared to quantity in 2018 (8,806).
  - f. Explain if the advertising methods or strategy changed for this program in 2019, compared to 2018.

### A.

- a-e. As discussed in Peoples' Response to Interrogatory No. 12a, the difference between the two years of participation in this program can be attributed to timing. Peoples attributes the decline from 2018 to 2019 to the timing of the completion of several large developments in the state.
- f. There were no changes in advertising methods or strategy for this program in 2018 or 2019.

PGS's Response to Staff's Second Set of Interrogatories Nos. 15-17

FLORIDA PUBLIC SERVICE COMMISSION DOCKET: 20200004-GU EXHIBIT: 20 PARTY: STAFF HEARING EXHIBITS DESCRIPTION: PGS's Response to Staff's Second Set of Interrogatories Nos. 15-17

[Bates Nos. 00141-00145]

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S SECOND SET OF INTERROGATORIES INTERROGATORY NO. 15 PAGE 1 OF 1

FILED: SEPTEMBER 4, 2020

Please refer to Schedule CT-2, Page 1 of 3 of the April 30, 2019 filing to answer the following questions:

- **15.** Please explain the variance of \$3,640,125 in incentives for the Residential New Construction Program between 2017 and 2018.
- **A.** Peoples Gas System ("PGS" or "Company") saw an increase in the overall annual participation in the Residential New Construction Program from 2017 to 2018. The annual increase in participation is being driven by several factors. These factors include:

As a result of the collaborative efforts between the Company and developers, customers are becoming more aware of the energy efficiency, cost, and reliability benefits of using natural gas in homes in Florida. In response, there is an increased number of developer agreement signings and builders are constructing homes that have natural gas appliances, which is increasing the annual participants in this program.

PGS has also expanded the mains within its service area, which affords builders and developments the opportunity to install natural gas, which increases participation and provides customers the opportunity to choose natural gas as a fuel source in their homes.

Another factor that contributed to increased participation from 2017 to 2018 in the Residential New Construction program was the improved economy and home market as compared to several flat preceding years.

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S SECOND SET OF INTERROGATORIES INTERROGATORY NO. 16 PAGE 1 OF 1

FILED: SEPTEMBER 4, 2020

- **16.** Please explain the variance of \$434,162 in Common Costs between 2017 and 2018.
- A. The majority of the increase is attributed to the implementation of a new energy conservation rebate processing system. This system provides customers with a convenient and efficient method to complete and track rebate applications, reduces time for rebate processing, and assists PGS in reviewing and approving rebates and reporting ECCR costs and participants.

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S SECOND SET OF INTERROGATORIES INTERROGATORY NO. 17 PAGE 1 OF 2

FILED: SEPTEMBER 4, 2020

**17.** Please identify the level of actual participation in 2018 and 2019 as well as the estimated participation in 2020 in each program in the table below. Please explain any variance of plus/minus 10 percent between the 2019 actual participation and 2020 estimated participation.

## a. Residential Appliance Retention

PGS has experienced an increase in participation in this program in the first half of 2020. Estimates for the full year were developed using actuals from the first half of 2020.

PEOPLES GAS SYSTEM DOCKET NO. 20200004-GU STAFF'S SECOND SET OF INTERROGATORIES INTERROGATORY NO. 17 PAGE 2 OF 2

FILED: SEPTEMBER 4, 2020

## b. Residential Appliance Replacement

PGS has experienced an increase in participation in this program in the first half of 2020. Estimates for the full year were developed using actuals from the first half of 2020.

## c. Oil Heat Replacement

This program has received one participant thus far in 2020 and did not receive any participants in 2018 or 2019.

#### d. Commercial Retention

PGS has experienced decreased participation in its commercial programs in the first half of 2020. Estimates for the full year were based on actuals from the first half of 2020. Peoples is currently on track to achieve all of its Commission-approved DSM goals.

#### e. Commercial Replacement

PGS has experienced decreased participation in its commercial programs in the first half of 2020. Estimates for the full year were based on actuals from the first half of 2020. Peoples is currently on track to achieve all of its Commission-approved DSM goals.

Sebring's Response to Staff's First Set of Interrogatories Nos. 1-4

FLORIDA PUBLIC SERVICE COMMISSION DOCKET: 20200004-GU EXHIBIT: 21

PARTY: STAFF HEARING EXHIBITS

DESCRIPTION: Sebring's Response to Staff's

First Set of Interrogatories Nos. 1-4

[Bates Nos. 00146-00151]

#### INTERROGATORY NO. 1

# **INTERROGATORIES**

- 1. Please describe how the COVID-19 Pandemic affected the Company's ability to offer energy conservation programs in 2020, and address the following in your response:
  - a. If disruption(s) occurred in certain programs, and if applicable, describe what steps the Company has taken to mitigate the disruption(s).
  - b. If the COVID-19 Pandemic impacted clause-recoverable expenses, and if applicable, describe what steps the Company has taken regarding these expenses.

<u>Company Response:</u> Although COVID-19 presented challenges to our utility, we were able to operate in manner that the conservation programs were not adversely affected. There were no disruptions to the programs due to the virus.

Respondent: Jerry Melendy

Docket No. 20200004-GU

INTERROGATORY NO. 2

2. Please describe how the COVID-19 Pandemic affected the Company's outreach efforts

and/or advertising strategy in 2020. Address in your response how, or if, social media

platforms are a component of the Company's outreach, and how they have been used

during the COVID-19 Pandemic.

No adverse effects were made to the conservation programs due to Company Response:

the virus. The table completed in Interrogatory No. 3 shows that there the amount of activity in

the program participation shows no adverse effects on the programs. Although there were large

changes in the percentages or participation, there was a relatively low level of actual

participation fluctuation. Some programs experienced increased participation, while some

programs had decreases, but overall the conservation program was more successful than the

previous period indicating that the pandemic had no adverse effects on the total program.

Respondent: Jerry Melendy

# **INTERROGATORY NO. 3**

3. Please populate the table below with the number of participants for 2018 and 2019 in programs shown below.

# **Company Response:**

| Писатом                           | Program Participation |      |  |
|-----------------------------------|-----------------------|------|--|
| Program                           | 2018                  | 2019 |  |
| Residential New Home Construction | 4                     | 8    |  |
| Residential Appliance Replacement | 39                    | 23   |  |
| Customer Retention                | 10                    | 23   |  |
| Commercial New Home Construction  | 0                     | 0    |  |
| Commercial Appliance Replacement  | 0                     | 1    |  |
| Commercial Customer Retention     | 2                     | 5    |  |

Respondent: Jerry Melendy

Docket No. 20200004-GU

INTERROGATORY NO. 4

4. Referring to the information provided in response to Interrogatory Number 3 above, and

if applicable, please explain, by program, the reason for any change in the number of

participants greater than ten (10) percent between 2018 and 2019.

Company Response:

The following are the programs that had a change greater than ten

(10) percent between 2018 and 2019, and the utility's best explanation:

Residential New Home Construction: 100% increase.

Residential Appliance Replacement: 69% decrease.

Customer Retention: 230% increase.

Commercial Customer Retention: 250% increase

As a small natural gas utility, it is not unusual for Sebring Gas System to experience large

percentage swings in all phases of our program with a small deviation in participation. An

increase of only 4 participants in the Residential New Home Construction gives us percentage

increase of 100%. As for the increase for Residential New Home Construction: New homes were

being built prior to the attack of the virus. Although the new homeowner knows the amount of

the conservation rebate there is no action toward accounting for expenses to the Conservation

Program until the appliances are purchased and the receipt is rendered to our utility. It is only at

that time that Sebring books the amount of the rebate to be given to the new homeowner.

Regarding the decrease in Residential Appliance Replacement: Appliance replacement involves

adding natural gas lines for the installation of new gas burning appliances. If the homeowner

does not have natural gas in their home, that could require a new account, new gas service and

interior piping. For this reason, there could be a potential of less participation during the

Docket No. 20200004-GU

pandemic. This participation requires more than only replacing a gas appliance with a like gas

appliance.

As it relates to retention for Residential, participation increases during the pandemic seem to be

tied to the fact that people are staying home to stay safe and either working from home or being

laid off from work, which, in the event of being laid off the person may be on unemployment

benefits plus the government stimulus payment. Sebring sees more activity involving people

repairing and fixing up their homes, with some using the time to replace their old natural gas

appliances with new, energy saving appliances. For the Commercial Retention, because

commercial businesses, especially restaurants, were required to completely close to the public,

the time was excellent for replacing old appliances while there was no activity in their kitchens.

As stated earlier, for Sebring Gas System the small variations in activity results in large

variations in the percentage of activity.

Respondent: Jerry Melendy

Subject: RE: 20200004 St. Joe's Responses to Staff's First Set of Interrogatories

**Date:** Wednesday, September 16, 2020 3:11:19 PM

1. A. No disruption occurred in any conservation programs.

B. No impact to clause recoverable expenses

- 2. The pandemic has not affected our outreach efforts or advertising strategy. We have not changed anything.
- 3. The company spent \$34,050 less than projected because less customers used the program than we projected in 2019. We do not have an exact answer as to why this occurred.

Subject: 20200004 St. Joe's Responses to Staff's First Set of Interrogatories

#### Good afternoon Debbie,

I just wanted to check in regarding SJNG's responses to Staff's First Set of Interrogatories, which were sent to the company on July 17. I am having trouble locating the company's response. Per the OEP, responses were due on August 17. Could you please forward me St. Joe's responses at your earliest convenience? I have attached a copy of the ROGS issued on July 17 here for your reference.

Please let me know if you have any questions.

Thank you,

#### Gabriella Passidomo

Re: Staff's 2<sup>nd</sup> Set of Interrogatories

- Q: Please refer to Schedule CT-5, Pages 1 through 5, of SJNG's May 4, 2020 filing in Docket No. 20200004-EG to answer the following question.
- 4. Please identify the level of actual participation in 2018 and 2019 as well as the estimated participation in 2020 in each program in the table below. Please explain any variance of plus/minus 10 percent between the 2019 actual participation and 2020 estimated participation.

| Program                              | P             | %             |                     |          |
|--------------------------------------|---------------|---------------|---------------------|----------|
|                                      | 2018 (actual) | 2019 (actual) | 2020<br>(estimated) | Variance |
| Residential New<br>Construction      | \$53,650.00   | \$35,250.00   | \$53,650.00         | 52.20%   |
| Residential Appliance<br>Replacement | \$16,525.00   | \$41,350.00   | \$16,525.00         | -60.04%  |
| Residential Appliance<br>Retention   | \$118,950.00  | \$155,000.00  | \$118,950.00        | -23.26%  |
| Large Commercial<br>New Construction |               |               |                     |          |
| Large Commercial<br>Retention        | \$1,500.00    |               |                     | #DIV/0!  |

\$190,625.00

\$231,600.00

\$189,125.00

Year 2019 was a record year for SJNG in the rebate program due to Hurricane Michael in 2018, there is still a lot of recovery going on in North Florida. Therefore, 2020 estimation was based on 2018 actual less Large Commercial Retention. We will be in recovery for several more years which makes it very difficult to estimate the program.

Respectfully submitted,

Andy Shoaf, V-President
