Good Afternoon, Ms. Macnab.

We will be placing your comments below in consumer correspondence in Docket No. 20200181, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Subject: Docket No. 20200181; Modernize Florida's outdated efficiency practices

Dear Florida PSC Commissioners,

I have worked hard to make my home efficient in Winter park Florida. From putting solar panels on to an on demand water heater, to a variable speed pool pump and insulation and LED's, I work hard to reduce my energy bill.

Please don't penalize me and others for working to make our homes more efficient.

As you set out to revisit the energy efficiency goal setting rules, please update the economic screening practices so they no longer penalize efficiency measures that meaningfully reduce energy waste for homes or businesses. Isn't the whole idea of an efficiency program, to reduce energy use to meet demand and help customers lower power bills?

It's time to use the rulemaking process to modernize your decades-old practices and consider ways to get utilities to do more on efficiency, in particular for low-income customers. The rule is outdated, we must get it right.

Sincerely,
Deirdre Macnab
Winter Park, FL 32789
