Dear Sir:

I just learned that FPL is proposing an 18% increase in power bills over the next 4 years. Like millions of Floridians my wife and I lived on a fixed income and couldn't begin to absorb that kind of increase. Please don't let them raise rates this much. Thank you.

Subject: The Proposed Rate Hike requested by FPL

Dear Public Service Commission,

My husband and I are surviving on a very limited income and cannot absorb yet another increase from FPL. 18 Percent over 4 years is just not doable for us.

Is there anything we can do to help fight this increase? We truly feel that the powers that be in our state rarely look out for us, the local people. Please be the exception and not the rule and help us prevent this increase from taking place.

We thank you in advance for anything you can do for us.

Respectfully,
Miguel and Deborah Garcia

Re: Docket No. 20210015-EI

Dear Sir or Madam:

On behalf of Costa Farms, LLC, this letter is written in support of FPL in connection with the forthcoming quality of service hearings. As you may know, Costa Farms is a top greenhouse grower in North America with a significant operational presence in Florida.

Throughout the years, FPL has been and continues to be a great ally and partner to Costa Farms. As such, we support FPL in its continued investment in technology to improve the reliability of its network, which eventually keeps costs to consumers down. Without a doubt, we are fortunate to have FPL providing reliable and affordable energy in Florida.

Please do not hesitate to reach out if you have any questions.

Sincerely,

COSTA FARMS, LLC

Subject: Complaint of FPL rate increase

I'm filing a complaint about a four year increase of 18 % from FPL. I'm closing in on retirement and was appalled at the info of sneaky way of FPL increase. If we could have more alternative power especially solar. How about they invest in that? Absolutely don't clear this rate increase. I have lived in Florida since 1979. I have appreciated the beauty of our state. Air conditioning a must here so we are definitely have to have ready access to reasonable power. It's a matter of life and death.

Thanks,

Rebecca Cady

Subject: FPL Utility Rate Increase

Reference: Docket No. 20210015-EI

Sir or Madam:

The proposed rate increase by Florida Power & Light of 4% to 5% between 2021 and 2025 actually will increase rates by 20% or more during this time.

This increase is being used to provide service to new customers. Those of us who have been paying FPL's going rates for years and even decades should not have to pay the way of new customers.

The amount of profits presently generated should be enough to fund any improvements necessary to repair or replace existing equipment

The increase in rates that FPL is asking for will create inflationary pressures on the economy at a time when people are just barely surviving due to hard times from the Covid Pandemic of the last 18 months.

You should cut this rate increase substantially for the benefit of the customers who are already struggling to keep their heads above water.

Subject: FPL billing

To whom it may concern,

I would like to voice my complaint on the price increase of my last 2 months on my FPL bill. I compared my bills to my last year at the same time and based on the same temperature I keep for my two units to be accurate. Last year my bills were mid \$60 and now it's \$157. Calling their customer service department is of no use it's the same as when calling Comcast you get no help.

Please make sure I'm included in this fight against FPL I'm a widow and I have a voice.

Thanks,

Ester Berkeley
