Dear Commissioner

At a time when all consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19, adding even more stress on older Floridians' pocketbooks is something we can't afford.

Granting TECO's \$20-a-month rate increase as well as padding their investors' pockets with a 10.75% return on equity goes against helping struggling Floridians. It's time for the PSC to put customers over power company profits.

Thank you,

Cynthia Plemmons
