**Subject:** RE: Public Comment on Docket #20210015-EI

Good Morning, Mr. Friedland.

We will be placing your comments below in consumer correspondence in Docket No. 20210015, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover  
Commission Deputy Clerk I  
Florida Public Service Commission

Subject: Public Comment on Docket #20210015-EI

Dear Public Service Commission,

As a resident of Florida, I urge you to decline FPL's rate increase petition, which would create an unnecessary and excessive burden on utility customers at a time when many Floridians can least afford to pay more for their unavoidable daily expenses.

The only acceptable reason to grant a rate increase would be the incorporate and expand projects that remove reliance on fossil fuels and direct a switch to alternative energy sources, specifically wind and solar. To consider hydrogen as a viable source of "clean" energy a suitable efficient method of hydrogen production must be included in any project.

FPL is trying to charge customers like us for a range of projects we do not want or need. FPL does not need to spend billions of our dollars to build redundant fossil fuel units, rebuild an already-sufficient transmission system, and give their shareholders a raise.

Please do not put FPL's desire to maximize profits over our need to power our homes affordably.

Thank you!

-----

Como residente de Florida, le insto a que rechace la petición de aumento de tarifas de FPL, que crearía una carga innecesaria y excesiva para los clientes de servicios públicos en un momento en que muchos floridianos no pueden pagar más por sus gastos diarios.

FPL está tratando de cobrar a clientes como nosotros por una variedad de proyectos que no queremos ni necesitamos. FPL no necesita gastar miles de millones de dólares para construir unidades de combustibles fósiles redundantes, reconstruir un sistema de transmisión que ya es suficiente y dar un aumento a sus accionistas.

Por favor, no anteponga el deseo de FPL de maximizar las ganancias a nuestra necesidad de alimentar nuestros hogares de manera asequible.

¡Gracias!

Sincerely,  
William Friedland
