Re: Re: Deny Rate Increases for all Utility and Insurance Companies for 3 years,

I received a letter from Duke Energy stating that my home residential monthly customer charge rate will increase to \$11.52 per kWh. Their excuse is that the price of natural gas has gone up, and YOU approved it again, over and over and over?

My question is, when the price of natural gas goes down is this rate going to be reflected on my home residential monthly customer charge rate bill?

Here is a snap shot of what You have approved of every customer charge rate increase from Duke Energy:

January 2018: \$8.82 per kWh

January 2019: \$9.66 per kWh

January 2020: \$10.52 per kWh

April 2020: \$10.58 per kWh

September 2020: \$10.63 per kWh

January 2021: \$11.40 per kWh

April 2021: \$11.52 per kWh

January 2022: **-\$ 9.66 all residents of Florida need a rate Decrease**

Deny Rate Increases for all Utility and Insurance Companies for 3 years,

PLEASE, PLEASE, STOP Granting all Utility corporations: electric, natural gas, and Insurance companies their rate increases. I am retired and on a Fixed Social Security Income and I can NOT AFFORD any more rate increases. You did NOT include NO Social Security Income increase for 2016 and 2017 in your evaluation of socio economics factors do to the republican politicians in the United States Congress for millions of retirees which we received a paltry .2% in 2018, .6% in 2019, .7% in 2020! This does not include inflation price increases for food, gas that has gone up 75% in the last 6 years.

My Home Owners Insurance has gone up 75% since 2016, WHY? Why do you keep approving their rate increases?

The Lobbyist and their made up socio economic factors Does NOTHING for ME only for the Mega Utility, and Insurance Corporations, Wallstreet, Chairman of the Boards, and CEO'S to be approved by Wall Street Analyst's to further EMPTY MY WALLET.

PLEASE, STOP THIS UNETHICAL RAPING OF MY WALLET ANY FURTHER. I CAN NOT AFFORD ANYMORE RATE INCREASES OF ANY KIND!

Sincerely,

Joe Chisar
