Subject: RE: Tell the PSC Why They Need to Keep Your Power Bill Low

Good Afternoon, Mike Jacobson,

We will be placing your comments below in consumer correspondence in Docket 20210000, and the Office of Consumer Assistance and Outreach will be notified.

Sincerely,

Hong Wang

Office of Commission Clerk
Florida Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399-0850
850-413-6770

PLEASE NOTE: Florida has a very broad public records law. Most written communications to or from state officials regarding state business are considered to be public records and will be made available to the public and the media upon request. Therefore, your email message may be subject to public disclosure.

Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

Try to remember that FPL and other companies, do the following, want 3% , ask for 10%. You guys give them 7%. Who actually wins here. F.P.L. has has multiple years to to "harden" their Infurstruction and has done nothing. They complain about hurricanes ""Loses" and do nothing. They probably have access or had access to federal Money to do the same. Where was it spent? There are the same people who requested an increase in the past to buy power plants in the northern US that will not even serve Florida. You might want to find out the real cost (which does include all their costs) to produce a Kilowatt as verses how much they charge. You would be shocked. Of course you will have to due an independent study (not paid for, chosen by or having any ties to the power producer), to get an accurate account. Enough is enough. No increase, no special up grade fund. They refused to "harden" over many decades. We have trouble affording their jacked up rates now. Try to remember that you are the PUBLIC SERVICE COMMISSION, Not the power company's friend.

Thank you,

Mike Jacobson
