Dear Commissioner

How can the PSC approve any rate increase for FPL that does not include important elements:

1. Establishment of KPIs that measure outages for non-significant weather events like a thunder shower. Its Florida, it rains all the time
2. Timing to restore power during a hurricane
3. Costs to bury power lines
4. A FULL detail of administrative costs including salaries and benefits. This is NOT a for profit scenario.

And why is a public utility using OUR money to run TV commercials? They are a monopoly and have NO need to promote themselves at our expense

Thank you,

Mitchell Schlesinger
