Subject: Why FPL's Request for Increase to Our Power Bill is too High

Dear Commissioner

I am curious why FPL doesn't want to explicitly state their clean energy proposals, how this will help reduce carbon emissions and how this infrastructure will be good for FL. I am also curious why PSC is ok with the absence of this type of information since FPL is looking for increases specifically in this infrastructure area and larger increases than the other utility companies in the state. Without concrete and measurable criteria in these areas, it is unreasonable to grant increases of this magnitude.

Thank you,

Kent Dyer
