Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

Considering the constant FLP's rosy communications on the TV, FPL's proposal doesn't match what they are seeking in rate increases and the commitments to a greener economy. FPL might impress local business groups that can pass the increase on to consumers. But, as a retiree, it doesn't consider my ability to pay. Nor does it contribute to all our physical welfare. As a consumer aware of the more generous efforts of its corporate owners in

greening the energy sector, I hope that the PSC squeezes FPL for less dependence on fossil fuels and more genuine efforts to preserve and diversify its use of cleaner energy.

Thank you,

Bruce Jay
