Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

I am writing in opposition to the proposed settlement which would increase our FPL electric rates over the next four years. We should be looking for ways to decrease electric rates; not

increase them. Florida is full of senior citizens who are struggling to pay the current rates and could not afford to pay higher rates.

I might add that these rates will be disastrous to my business. I have a business that uses a lot of electricity. It is my biggest expense. I will either have to increase prices that I charge to my customers, in which case many of them will not be able to afford my services any longer, or I will have to reduce the number of persons who we employ. Either way, I will lose and my employees will lose as well.

Please do everything possible to halt these very significant electric rate increases over the next four years.

Thank you,

Jeffrey White
