Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

I am a single 52 year old. I live alone and my only income is SSI. I can't afford an increase in my electric bill. Not even .01 increase. It is difficult to keep my bill as low as possible

because of the need to use AC in the summer heat. My bill during the summer months goes over \$100. It becomes a choice of eating or staying comfortable in my home. Please don't force me to make that choice by raising the rate of my electric bill.

I know Florida uses solar. I don't understand the reason for the increase. The execs don't need raises for new boats, cars, homes and clothes. They need to learn how to live below their means.

Thank you,

Maria Barr
