Dear Commissioner

I support the Settlement Agreement because it will provide a more resilient power generation & distribution system. The strident demands by anti-corporate lobbyists will produce a power grid much like California has forced upon PG&E., which has been identified as starting many wildfires. PG&E will soon be bankrupt with State having to finance the upgrades denied under many adverse rate decisions by the CPUC. FPL needs the assurance of a reasonable

return on investment to maintain superior performance, and I support that decision.

Thank you,

WILLIAM HULTGREN
