Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

Electricity rates are too high as they already are. As senior citizens on a fixed income we are already struggling to pay our power bills along with other household expenses like food and medicine. The FPL's proposed settlement isn't enough to address our situation. For example, among other unwarranted concessions, it allows a too generous 10.6% Return on Equity instead of 11.5% (in 2021 Duke settled for 9.85% and TECO for 9.95%). This 10.6% Return on Equity is well above the national average of 9.5% and needs to be reduced so, our power costs could be reduced as well.

Thank you,

Raul Hernandez
