Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

We are seniors on a fixed income trying to keep the lights on.. PSC has to protect consumers against large companies that overprice their product for profit and not return the profits to their customers like other states have done each year. Its just like the insurance industry. Governors from both parties just let them run rampant in FL. We need help (consumer advocates) to be able to afford living in Florida and protect consumers these days.

Thank you,
