BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition by Florida Public Utilities Company to Reinstate the Non-Firm Energy Program Tariff.	DOCKET NO. FILED: November 12, 2021
--	--

PETITION FOR AUTHORITY TO REINSTATE THE NON-FIRM ENERGY PROGRAM
AND TARIFF

The Florida Public Utilities Company (“FPUC” or “Company”) by and through undersigned counsel, pursuant to Section 366.06, Florida Statutes, and in accordance with Rules 25-9.005, Florida Administrative Code, and 28-106.201, Florida Administrative Code, hereby respectfully petition the Florida Public Service Commission (“FPSC” or “Commission”) for approval to reinstate the program and tariff that will involve the purchase of Non-Firm Energy from Florida Power & Light (FPL) by FPUC in accordance with FPL’s T1 Tariff, which will then be made available to the eligible FPUC GSLD1 and Standby customers on Amelia Island. FPUC requests that this tariffed program be reinstated as it has been determined that this energy supply option is beneficial to all concerned. The Non-Firm Energy Program was initially approved by the Commission by Order No. PSC-2019-0432-TRF-EI, issued October 22, 2019, in Docket No. 20190132-EI, but expired December 31, 2020, in accordance with the Commission’s Order.

In support of this request, the Company hereby states:

1) FPUC is an electric utility subject to the Commission's jurisdiction. Its principal business address is:

Florida Public Utilities Company
208 Wildlight Avenue
Yulee, FL 32097

2) The name and mailing address of the persons authorized to receive notices are:

3) FPUC is an electric utility subject to the regulatory jurisdiction of this Commission as prescribed in Chapter 366, Florida Statutes.

4) The Commission is vested with jurisdiction in this matter in accordance with Sections 366.04, 366.05, and 366.06, Florida Statutes, pursuant to which the Commission is authorized to establish rates and charges for public utilities, including the relief requested herein.

5) The Company is unaware of any material facts in dispute at this time, but the proceeding may involve disputed issues of material fact. The Company's request set forth herein does not involve reversal or modification of a Commission decision or proposed agency action. This is a Petition representing a request to reinstate the program to the Commission, which is the affected agency located at 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399.

I. NON- FIRM ENERGY PROGRAM

6) The "Native Load Firm All Requirements Power and Energy Agreement" ("Agreement") between FPUC and FPL, Section 7d, executed April 10, 2017, includes a provision allowing for FPUC to purchase "Non-Firm Energy" to service large loads, which would be purchased in accordance with FPL's T1 Tariff.

Non-Firm Energy Tariff

7) In an effort to utilize this provision to the advantage of its customers, FPUC developed a pilot program, whereby it acquired non-firm energy consistent with its Agreement with FPL and offered this Non-Firm Energy to two of FPUC's large GSLD1 and Standby customers, WestRock and Rayonier Advanced Materials, on Amelia Island as a pilot project. After the pilot program expired, FPUC reviewed the effectiveness of the program and customer needs. The review identified that there is customer demand to continue the program on a permanent basis and that the pilot program met its goals. FPUC seeks approval to reinstate the Non-Firm Energy Program on a permanent basis open to eligible customers throughout its service territory. Thus, the difference between the requested permanent program and the original pilot is that the Company proposes that the permanent program not be limited to three (3) customers, as was the pilot.

8) The details of the Non-Firm Energy Program are included in the attached tariff (Attachment A).

9) There are several beneficial aspects to this program.

a. FPU will benefit with the sale of the Non-Firm Energy as the overall load factor of the energy usage on Amelia Island will be improved.

b. The customers involved in the program will have the ability to purchase Non-Firm Energy at a cost less than they can produce it themselves which will provide an overall benefit in production cost.

10) In addition, this program will be revenue neutral to the Company and the general body of ratepayers as the cost of the non-firm energy will be passed directly through to the customers participating in the program.

II. REQUEST FOR RELIEF

- 11) FPUC respectfully requests that the Commission approve its request to reinstate the Non-Firm Energy Program in order to provide the Company the opportunity to offer non-firm energy supply to its eligible large-use customers in order to provide this energy option and associated benefits.
- 12) The revised tariff page, included as Attachment A, is submitted herewith for the Commission's consideration.

RESPECTFULLY SUBMITTED this 12th day of November, 2021.
